

● Highlight ●

We are grateful for WorkWell's continued support in promoting employee wellness, including their involvement in the Blood Pressure Measurement Pop-Up and the latest cycle of Toning & Conditioning. These initiatives help staff stay active and informed about their health, and we're excited to share some action shots from these events.

We're also proud to highlight the strong turnout for our 5th Annual Irish American Heritage Employee Resource Group (ERG) Breakfast, which brought colleagues together to celebrate Irish culture and community. Special thanks to photographer Samantha Modell for capturing the spirit of the event.

"Finding out my blood pressure was high was eye-opening."

Celebrating Wellness & Culture

The Irish American Breakfast was a joyful and enriching experience that blended education, storytelling, and community over a shared love of good food.
