# Financial Plan Statements for New York City October 2020

The City of New York

This report contains the Financial Plan Statements for October 2020 which have been prepared in accordance with the New York State Financial Emergency Act for the City of New York.

The fiscal year plan reflects the Financial Plan as submitted to the Financial Control Board on November 23, 2020.

The forecast of revenues and expenditures reflects actual revenue and expenditure performance to date and expected activity for the remainder of the fiscal year.

The actuals and projections in the forecasts are based on the best information available to the City at the date of preparation and certain assumptions and methods of estimation, which are considered reasonable and appropriate for purposes of the report as of such date.

Kenneth J. Godiner First Deputy Director Office of Management and Budget THE CITY OF NEW YORK BY

Preston Niblack Deputy Comptroller for Budget Office of the Comptroller

#### NOTES TO FINANCIAL PLAN STATEMENTS

#### Summary of Significant Financial Policies, Procedures and Development

#### A. Financial Plan Statements

The City's Financial Plan Statements (FPS) represents the accounts of the General Fund and certain transactions of the Capital Projects Fund of the City, including the Department of Education and the City University of New York. They do not include the total operations of the New York City Health + Hospitals but do include the City's subsidy to the system.

The City's Financial Plan Statements incorporate the policies and procedures discussed in Note B. Such data are unaudited. Prior years' balances for cash, accounts receivable and outstanding obligations are consistent with the FY 2020 audited Comprehensive Annual Financial Report (CAFR). Whenever appropriate, adjustments have been incorporated into the Financial Plan Statements as they relate to the audit of the Comprehensive Annual Financial Report (CAFR). The Financial Plan on which these statements are based was prepared in accordance with generally accepted accounting principles (GAAP), except for the application of GASB 49 which prescribes the accounting treatment of pollution remediation costs and without regard to changes in certain fund balances described in General Municipal Law 25.

### B. Basis of Accounting

#### 1. <u>Revenues</u>

Real estate tax revenue is recorded on the modified accrual basis of accounting, which recognizes as revenue payments received against the current year levy, late payments received within the first two months of the following year, and prior year levies received in the current year. Real estate tax revenue is reduced by actual tax refunds to be made in the period.

Taxpayer assessed revenues (e.g. sales, income and certain excise taxes), net of estimated refunds, are recorded on a modified accrual basis. Revenues are susceptible to accrual if they are both measurable and available to be used to finance governmental operations during the year.

Federal categorical grants except as noted below are recognized as revenue as claims are filed during the year and adjusted at year-end for revenues earned but not claimed. State grants are recognized in the same manner. Advances provided to the City in anticipation of filing of claims by the City for federal and state reimbursement of Medicaid and welfare expenditures are recognized as revenue when received.

All other revenues are recorded when received in cash.

### 2. Expenditures

# (a) Debt Service

Debt Service expenditures on general obligation issuances are recorded when City real estate tax collections are deposited into the Debt Service fund in advance of the actual debt service payment. Debt Service expenditures for the Transitional Finance Authority (TFA) are recorded when City personal income tax collections are retained by the TFA. Lease debt expenditures are recorded when the respective lease agreement requires City payment in advance of a payment to bondholders.

# (b) Fixed Assets

Acquisitions of fixed assets costing more than \$50,000 and having a minimum useful life of either three years for certain information technology assets (computer hardware, software, networks, and information technology systems) or five years for all other types of assets are treated as capital expenditures. All other acquisitions of fixed assets are treated as operating expenditures.

# (c) Encumbrances

Encumbrances entered during FY 2021 for OTPS purchase orders and contracts expected to be received by June 30, 2021 are treated as expenditures.

# (d) Risk Management

The City generally assumes the risk of its own losses with respect to most types of risks, including, but not limited to, property damage (both claims against the City and damage to the City's own property), personal injury, and workers' compensation; any losses incurred are paid out of the City's budget. The City's budgets and financial plans include estimates of judgments and claims to be settled annually, but there are no cash reserves for estimated losses incurred. Settlements reached or judgments entered during FY 2021 are recorded when paid and adjusted at year-end for any additional unpaid settlements reached or judgments entered during FY 2021.

# (e) Materials and Supplies

Purchases of materials and supplies are treated as expenditures when encumbered.

# (f) General Reserve

The General Reserve provides for shortfalls in revenues and overruns in uncontrollable expenditures.

### 3. Capital Commitments

The reporting of actual capital commitments, as well as sources and uses of capital expenditures, are based upon the accounting period of the transaction.

### C. <u>Pension Plans</u>

The City maintains five actuarial pension systems, providing benefits for its employees and employees of various independent agencies (including certain Covered Organizations). Such systems consist of the New York City Employees' Retirement System, the Teachers' Retirement System of the City of New York, the New York City Board of Education Retirement System, the New York City Police Pension Fund and the New York City Fire Department Pension Fund. Members of these actuarial pension systems are categorized into Tiers depending on date of membership. The systems combine features of defined benefit pension plans with those of defined contribution pension plans. Three of the five actuarial pension systems are cost-sharing multiple employer systems that include public employees who are not City employees. Each public employer in these multiple employer systems has primary responsibility for funding and reporting in the employer's financial statements on its share of the systems' liabilities.

The City also contributed to other actuarial systems and sponsors non-actuarial retirements' systems for certain employees, retirees and beneficiaries not covered by any of the major actuarial systems.

Financial Plan Statements can be accessed through the New York City Mayor's Office of Management and Budget's website at: www.nyc.gov/omb

# NEW YORK CITY CAPITAL COMMITMENTS REPORT NO. 5 (MILLIONS IN DOLLARS)

Month: October	Fiscal Year: <u>2021</u>
City Funds:	
Total Authorized Commitment Plan Less: Reserve for Unattained Commitments Commitment Plan	\$15,456 <u>(4,489)</u> <u>\$10,967</u>
Non-City Funds:	
Total Authorized Commitment Plan Less: Reserve for Unattained Commitments Commitment Plan	\$1,989 <u>0</u> <u>\$1,989</u>

Month and year-to-date variances for City funds are reported against the authorized FY 2021 Adopted Capital Commitment Plan of \$15,456 million rather than the Financial Plan level of \$10,96 million. The additional \$4,489 million of commitments is included to help the City meet its overall Financial Plan target. Aggregate commitments are not expected to exceed the approved plan level as it may be modified from time to time.

#### NOTES TO REPORT #5

1. <u>Capital Commitments</u>: Commitments are defined as awarded contracts registered with the City Comptroller except for Waterway and Highway Bridge projects performed jointly with the State. Certain non-City commitments for Bridge projects are not registered with the City Comptroller. These commitments are reported when the State advertises the work. Beginning in Fiscal Year 2000, reported education commitments have been changed to represent master contract registrations with the Comptroller. Previously, reported education commitments represented Construction Authority contract registrations.

### NOTES TO REPORT #6

#### 1. Beginning Balance

The July 2020 beginning balance is consistent with the FY 2020 audited Comprehensive Annual Financial Report (CAFR).

#### 2. Ending Balances

The actual monthly ending cash balances are subject to restatement after the completion of bank reconciliations. The June 2021 ending balance includes deferred revenue from FY 2022 prepaid Real Estate Taxes.

#### 3. Long Term Borrowings

Long Term Borrowings are comprised of proceeds of City general obligation bonds, NYC TFA debt and Water Authority revenue bonds, exclusive of bonds issued for refunding.

#### 4. Restricted Cash Bond Proceeds

In certain instances a portion of the proceeds from each bond issuance is for capital expenditures to be made in succeeding months. Restricted cash bond proceeds accounts have been set up for this purpose. Balances in these accounts are excluded from the cash balances that are reflected in Report #6.

#### 5. Cash Flow Realignment

Taxes reflect revenue net of refunds which may result in a negative cash flow in certain months. For Federal, State and Other Categorical Grants, a negative cash flow may result from corrections to certain grants that occur after the monthly accounting close in which cash is moved between grants and/or between current year/prior year classification. These negative cash flow transactions are accounting transactions reflected in the City's Financial Management System.
