Indicator name:	Citywide acceptability rating for the overall condition of greenstreets (%)
Description:	The percent of greenstreets (street triangles and medians landscaped with horticultural installations) that pass an inspection based on up to 16 individual features. If three or more features are rated unacceptable based on the Parks Inspection Program's standards, or if one condition is judged a serious safety hazard, the entire site is rated unacceptable. Additionally, a failed cleanliness rating will automatically result in an unacceptable rating for overall condition.
Source:	Operations & Management Planning Division
Indicator name:	Citywide acceptability rating for the cleanliness of small parks and playgrounds, large parks & greenstreets (%)
Description:	The percent of park sites with acceptable cleanliness based on the acceptability of litter, broken glass, graffiti, and weeds or ice (depending on the season) at a site. A park will fail for cleanliness if two of the four cleanliness features are unacceptable or if conditions for one feature are egregious based on the Parks Inspection Program's standards. Park sites included in this rating are playgrounds, small parks, large parks, and greenstreets (street triangles and medians landscaped with horticultural installations).

DEPARTMENT OF PARKS & RECREATION

Indicator name:	Recreation centers rated acceptable for cleanliness (%)
Description:	The percent of recreation centers that pass an inspection based on acceptability ratings for litter, graffiti, dirt and the availability of restroom amenities/supplies. A recreation center will receive a rating of unacceptable for cleanliness if, based on the inspection program's criteria, two features are unacceptable or if there is any hazard that poses a serious health/safety risk. Recreation centers included in this rating are facilities requiring membership that are owned and operated by Parks. Every recreation center will be inspected at least twice a year.
Source:	Operations & Management Planning Division
Indicator name:	Recreation centers rated acceptable for overall condition (%)
Description:	The percent of recreation centers that pass an inspection based on acceptability ratings for twelve features in three categories—safety, cleanliness and structural. A recreation center's overall condition will receive a rating of unacceptable if, based on the inspection program's criteria, safety is found to be unacceptable, both the cleanliness and structural categories are rated unacceptable, or if any one condition is judged a serious health/safety hazard. Recreation centers included in this rating are facilities requiring membership that are owned and operated by Parks. Every recreation center will be inspected at least twice a year.

Indicator name:	Annual pruning goal completed (%)
Description:	The percent of the funding-based annual pruning goal that was completed during the reporting period.
Source:	Forestry Division
Indicator name:	Street trees pruned as a percent of pruning eligible trees
Description:	The number of pruning eligible street trees (trees 5 inches and larger in diameter) that were pruned using block pruning contracts divided by the total number of pruning eligible trees (490,417) as determined by the 2005–2006 street tree census.
Source:	Forestry Division
Indicator name:	Total trees removed (street and parks)
Description:	The total number of street and park trees removed annually, including downed trees.
Source:	Forestry Division
Indicator name:	Tree inspections
Description:	The number of tree inspections performed on street and non-forest park trees. Includes all inspections that yield any risk priority category. Prior to Fiscal 2019 this indicator included inspections by DPR staff only.
Source:	Forestry Division
Indicator name:	Immediate priority tree work resolved within 7 days (%)
Description:	The percentage of immediate priority work orders completed in a seven day period following a field inspection. Immediate priority is the most urgent priority category. These work orders meet the following risk criteria: the likelihood of tree failure over a period of seven days is imminent, the chance of impacting a target is high and the consequences if failure and impact occur are severe.
Source:	Forestry Division
Indicator name:	High-priority tree work resolved within 28 days (%)
Description:	The percentage of high-priority work orders completed within a 28 day period following a field inspection. High-priority is the second highest priority category after immediate priority. These work orders meet the following risk criteria: the likelihood of tree failure over the period of one year is probable, the chance of impacting a target is medium and the consequences if failure and impact occur are significant.

TAXI AND LIMOUSINE COMMISSION

Indicator name:	Boro Taxis active and not suspended
Description:	The total number of Boro Taxis, also known as green cabs, which operate in all outer boroughs and north of East 96th Street and West 110th Street, that are licensed by TLC and are in good standing. This value excludes Street Hail Livery (SHL) Black Pilot and S2. The SHL Pilot Program utilizes returned green cab permits to test the feasibility of a license that cuts costs traditionally associated with SHLs, while also eliminating the ability to receive street hails. Over a period lasting no longer than two years, it will study potential improvements in pre-arranged non-emergency medical transportation service, outer-borough service, fleet electrification, and wheelchair accessibility of the TLC fleet.

Indicator name:	E-mails responded to in 14 days (%)
Description:	The percentage of emails answered in 14 calendar days or less. Responses should be substantive and adequately address the question/issue raised by the customer. A simple acknowledgement is not considered an adequate response. However, for more complex inquiries that require research and action on the part of the agency, an acknowledgement which includes a description of the next step (either on the agency's behalf, or the customer's), as well as an estimated time frame for completion, is considered acceptable and can be reported as part of the 14 day response. Agencies must internally track the additional time until a customer has a complete and full response.

DEPARTMENT OF HEALTH AND MENTAL HYGIENE

Indicator name:	New HIV diagnoses (CY) (Current year data is preliminary and only reflects first 6 months of CY)
Description:	The number of new HIV diagnoses cases reported and confirmed by the NYC Department of Health and Mental Hygiene. Data is reported annually (December) on the calendar year (i.e. FY24 = CY23) based on datasets that are created in October. HIV data for the previous full calendar year is embargoed every year until World AIDS Day on 12/1. Data is preliminary.
Source:	Bureau of Hepatitis, HIV, and Sexually Transmitted Infections
Indicator name:	Infectious syphilis cases
Description:	The number of primary and secondary syphilis cases reported to the NYC Department of Health and Mental Hygiene. Quarterly data (first three months of fiscal year) is reported for the PMMR. Data is preliminary.
Source:	Bureau of Hepatitis, HIV, and Sexually Transmitted Infections
Indicator name:	Congenital syphilis cases
Description:	The number of congenital syphilis cases (disease acquired before or at birth) reported to the NYC Department of Health and Mental Hygiene. Quarterly data (first three months of fiscal year) is reported for the PMMR. Data is preliminary.
Source:	Bureau of Hepatitis, HIV, and Sexually Transmitted Infections, STI Surveillance Registry
Indicator name:	Safer-sex product distribution (000)
Description:	The sum total of all safer-sex products (male condoms, internal condoms, lubricant) distributed by the NYC Department of Health and Mental Hygiene as tracked by the NYC Condom Availability Program's safer-sex ordering portal. Data is in thousands and is preliminary.
Source:	Bureau of Hepatitis, HIV, and Sexually Transmitted Infections
Indicator name:	New tuberculosis cases (CY)
Description:	The number of new tuberculosis cases reported and confirmed by the NYC Department of Health and Mental Hygiene. This data is reported by calendar year, not fiscal year. The MMR reports data from the previous calendar year (i.e. FY24 = CY23). Because of this, MMR data through June FY24 accounts for CY23 data through December, and PMMR data through October FY24 (first four months of fiscal year) accounts for CY23 through April (first four months of calendar year).
Source:	Bureau of Tuberculosis Control
Indicator name:	Seniors, age 65+, who reported receiving a flu shot in the last 12 months (%) (CY)
Description:	The percentage of seniors, age 65+, who reported being immunized against influenza in the last 12 months as noted in the NYC Community Health Survey. The 12 month period surveyed depends on the time period that the CHS is being conducted. Data usually reflect 2, and sometimes 3, influenza seasons. This data is reported by calendar year, not fiscal year.
Source:	Bureau of Epidemiology Services, NYC Department of Health and Mental Hygiene Community Health Survey
Indicator name:	COVID-19 hospitalizations rate (per 100,000 admissions) (CY)
Description:	The number of admissions per 100,000 to a NYC hospital from 14 days before to 3 days after COVID-19 diagnosis. This data is reported by calendar year, not fiscal year. The MMR reports data from the previous calendar year (i.e. FY24 = CY23). Because of this, MMR data through June FY24 accounts for CY23 data through December.

Indicator name:	Children ages 19–35 months with up-to-date immunizations (%)
Description:	The number of children ages 19–35 months reported as receiving 4 or more doses of DTaP, 3 or more doses of poliovirus vaccine, 1 or more doses of any MMR, 3 or more doses of Hib, 3 or more doses of HepB, 1 or more doses of varicella vaccine, and 4 or more doses of pneumococcal vaccine divided by the total number of children ages 19–35 months according to the 2022 Vintage population estimates. Quarterly data (first three months of fiscal year) is reported for the PMMR.
Source:	Bureau of Immunization
Indicator name:	Children in public schools who are in compliance with required immunizations (%)
Description:	The number of children in public schools who are in compliance with all immunizations required by State public health law, divided by the number of children in grades K-12 enrolled in NYC public schools. This is reported monthly during the school year September through June. Data is not reported during July and August because these months are outside of the usual school year.
Source:	Bureau of Immunization
Indicator name:	HPV vaccine series completion (%)
Description:	The number of 13-year-olds who completed the HPV vaccination series by the 13th birthday divided by the total number of 13-year-old adolescents according to the 2022 Vintage population estimates. The HPV vaccine series can be completed with 2 or 3 doses depending on the age at initiation and the amount of time elapsed between the 1st and 2nd dose. Quarterly data (first three months of fiscal year) is reported for the PMMR.
Source:	Bureau of Immunization
Indicator name:	Adults who smoke (%) (CY)
Description:	The percentage of adult New Yorkers who currently smoke cigarettes, per the NYC Community Health Survey. This data is reported by calendar year, not fiscal year. Indicator name:	Cash assistance recoveries and cost avoidance for fraud, waste and abuse (\$000,000)
Description:	This indicator shows, pursuant to Cash Assistance eligibility rules, the cumulative amount recovered from concealment of income and resources by clients, collections from windfalls, lawsuit settlements and liens on properties, repayment of emergency assistance, and federal reimbursement for assistance given while Social Security Disability benefit applications were pending. It also includes cost savings from various efforts such as fraud investigations, case re-budgeting for income changes, and clients receiving Cash Assistance in more than one state. As of Fiscal Year 2013, HRA has changed its method for calculating the Cash Assistance cost avoidance and recoveries indicator by no longer placing a value on reduced budget recommendations from HRA's Bureau of Eligibility Verification (BEV). HRA's updated calculation of cost avoidance more accurately reflects the type of recommendations likely to result in savings.

Indicator name:	Fair Hearings requested
Description:	The cumulative number of client requests for hearings to contest decisions made by HRA regarding any benefit programs administered by HRA. For Fiscal Years 2019, 2020, and 2021, HRA adjusted its count of fair hearings requested to be consistent with how these requests are determined by New York State. This adjustment resulted in a slight decrease in the reported monthly number of fair hearings requested compared to previously reported data.
Source:	HRA Office of Performance Management and Data Analytics (OPMDA)
Indicator name:	Fair hearings upheld (%)
Description:	Starting in Fiscal 2014, HRA changed its method for calculating Fair Hearings outcomes. The agency win rate includes issues that are affirmed and that are found to be correct at the time they were made and excludes client defaults. Defaults were included as Agency wins in prior periods but are currently excluded because they do not reflect contested issues that are actually heard at hearings. The numerator of this indicator includes all fair hearing issues heard with an outcome of affirmation of the Agency's decision or correct decision when originally made by the Agency and other outcomes. Other outcomes include, for example, the appellant's lack of standing. The denominator includes all fair hearing issues heard with all outcomes including affirmation, correct when made, agency withdrawal, settled, reversal and other outcomes. The rate is calculated based on all outcomes on hearings heard, and it does not include defaults in which the client fails to appear, and the hearing is therefore not actually heard.

A “Flag” is classified as either a Red Flag, Yellow Flag or Safety Flag. Yellow Flag is used to report a potentially hazardous condition which, if left unattended beyond the next scheduled inspection, would likely become a clear and present danger. A Yellow Flag is also used to report the actual or imminent failure of a non-critical primary structural component, where its failure may diminish the reserve capacity or redundancy of the bridge but would not result in structural collapse or a clear and present danger.

Indicator name:	Pedestrian volume index
Description:	An index of pedestrian volumes—the number of pedestrians traveling on the sidewalk at 50 sample locations around the City. Sampling is conducted during one week of May and one week of September at consistent times of day and days of the week. The figure shown is a ratio using the May 2007 count as a baseline. The May 2007 count is assigned a starting value of 100, and the ratio of each new pedestrian count to the baseline count is multiplied by 100 to give the new value. A value of 102 for Spring 2008 means that pedestrian volumes at sample locations increased by approximately two percent over the May 2007 baseline.

DEPARTMENT OF DESIGN AND CONSTRUCTION

Indicator name:	Front-end-planning phase completed
Description:	The total number of projects, agency wide, that completed the Front End Planning (FEP) phase in the current reporting period.
Source:	Front End Planning Unit
Indicator name:	Designs completed — Total
Description:	The total number of infrastructure and public building design projects for which design was completed during the reporting period and the number in each reporting category. For Design Build projects, the reported design completion date is either: the date of the actual final design submission; or, the date that precedes early work activities on site, whichever activity occurs first.
Source:	DDC's Project Management Information System
Indicator name:	Construction completed — Total
Description:	The total number of construction projects that were substantially completed during the reporting period. A project is considered substantially complete when contract work has been finished. For structure projects a Certificate of Occupancy (temporary or final) is required. For infrastructure projects permanent street restoration must be in place.
Source:	DDC's Project Management Information System
Indicator name:	Roadway lane miles reconstructed
Description:	Total length of roadway fully reconstructed (new concrete base and asphalt topping) during the reporting period, measured in units 12 feet wide and one mile in length. DDC is responsible for the implementation of capital projects on behalf of client agencies, such as the Department of Transportation.
Source:	DDC's Project Management Information System

DEPARTMENT OF DESIGN AND CONSTRUCTION

Indicator name:	Completed construction early/on time (%)
Description:	The percentage of all construction projects completed ahead of schedule or no more than 30 days behind the baseline schedule, exclusive of programmatic scope changes and delays outside of DDC control. Additions/adjustments to the design that was agreed on prior to construction start and funding issues caused by such adjustments constitute a programmatic scope change. On larger infrastructure projects (roadway/sewer/water main), delays caused by significant utility interference that are completely out of the agency's control constitute a programmatic scope change.

Source:	Infrastructure and Public Buildings
Indicator name:	Construction contracts completed within budget (%)
Description:	The percentage of projects that completed construction where the resulting cost increase from change orders that were caused by DDC due to design error, design omission or field conditions does not exceed 10 percent of the adjusted total construction costs. (Note: for purposes of calculating this data, construction costs do not include costs associated with the change orders caused by DDC. Only stand-alone construction contracts are included.)
Source:	DDC's Project Management Information System
Indicator name:	Projects audited (%)
Description:	The percentage of active projects in construction during the reporting period for which at least one quality assurance/site safety audit was performed. Projects that are under \$100,000 and those completed within the first six weeks of the reporting period or started within the last six weeks of the period are excluded.
Source:	Technical Support/Quality assurance database
Indicator name:	Construction-related accidents
Description:	On DDC-managed construction sites, the total number of work-related events which resulted in a fatality or injury requiring medical attention beyond first aid. This includes events occurring at a construction site or related to an event at a construction site.
Source:	Accident/Incident database maintained by DDC Safety and Site Support

DEPARTMENT OF DESIGN AND CONSTRUCTION

Indicator name:	Construction-related injuries

DEPARTMENT OF CITY PLANNING

Indicator name:	Citywide proposals and studies advanced
Description:	The number of citywide proposals and studies updated publicly to promote an equitable, prosperous, sustainable city, anchored by affordable housing, economic opportunities, and other neighborhood investments, in the form of written reports, certified applications for zoning map or text amendments, website postings, and/or public presentations of recommended actions.
Source:	Economic Development and Regional Planning, and Housing Divisions
Indicator name:	Homes projected through land use actions reviewed by the City Planning Commission
Description:	The number of homes that could be built based on approved land use actions at the City Planning Commission. An approved land use action changes the existing rules and regulations for how land is zoned and used. Types of land uses include residential, commercial, industrial, and parks.
Source:	Land Use Review and Planning Support Divisions—Zoning Application Portal
Indicator name:	Affordable homes projected through land use actions reviewed by the City Planning Commission
Description:	The number of affordable homes that could be built based on approved land use actions at the City Planning Commission. A home is considered “affordable” if a family spends approximately one third or less of its income to live there. An approved land use action changes the existing rules and regulations for how land is zoned and used. Types of land uses include residential, commercial, industrial, and parks.
Source:	Land Use Review and Planning Support Divisions—Zoning Application Portal
Indicator name:	Neighborhood proposals and studies advanced
Description:	The number of proposals to support affordable housing development, sustainability, and resiliency, or improve physical and social infrastructure of existing neighborhoods, in the form of written reports, certified applications for zoning map or text amendments, website postings, and/or public presentations of recommended actions.
Source:	Planning Coordination and Borough Offices
Indicator name:	Simple zoning action projects that entered public review
Description:	The number of simple zoning actions initiated by private and public applicants, including the number of simple zoning actions initiated by private and public applicants, including the Department of City Planning, that were certified as complete and, for those actions subject to ULURP (Uniform Land Use Review Procedure), referred for public review. Simple projects, which can include one or more land use applications and their associated environmental review, include: zoning map changes, amendments to the zoning resolution, zoning special permits, authorizations, and certifications. In general, they have no or limited environmental review (all Type II designations).
Source:	Planning Coordination Division
Indicator name:	Simple zoning action projects that entered public review within 12 months (%)
Description:	The percent of simple public and private zoning actions certified as complete or referred for public review within 12 months of project start, normally marked by submission of a Pre-Application Statement (PAS) to the Department.
Source:	Planning Coordination Division
Indicator name:	Median days for simple zoning action projects to enter public review
Description:	The median number of days that simple zoning actions spent under internal review and revision before starting the public review process. Before entering public review, simple zoning actions must be pre-certified and evaluated in internal review, which entails checking that all the documents associated with the land use application are accurate and complete.

Indicator name:	Time simple zoning action projects spent with DCP under internal review before entering public review (%)
Description:	The percentage of time simple zoning actions spent under internal review at the Department of City Planning (DCP) before starting public review. During the internal review process, DCP must evaluate applications for accuracy and completeness. Any errors or missing information is then handled by the applicant requesting the proposed action. Therefore, this measures the amount of time a proposed action is spent being evaluated by DCP throughout the internal review process and does not take into account time spent outside of DCP with other actors that impact this process.

Description:	The sum of all requests for interpretation using a language other than English fulfilled by the agency via telephone (including Language Line, call centers, offices/reception desks and 311 transfer calls) and via face-to-face interaction with bilingual employees or contracted interpreters.
Source:	Planning Coordination Division
Indicator name:	CORE facility rating
Description:	An average score based on the rating of 15 conditions, including physical conditions (e.g., cleanliness, litter, seating) and customer service conditions (e.g., wait time, professionalism), for all agency walk-in facilities inspected, divided by the number of walk-in facilities inspected. Each of the 15 conditions can be rated excellent, good, fair or poor. Ratings of excellent are worth 100 points each, good ratings are worth 67 points, fair ratings are worth 33 points and poor ratings receive no points. Facilities are rated by trained City inspectors. Fiscal 2016 data for the overall rating represents a change in methodology. For agencies with multiple service centers, inspectors focused on sites that had historically lower scores, specifically sites that received an average overall site score of 85 or lower over the last three years and sites that received a score of 85 or lower in Fiscal 2015. If all agency service centers scored above 85 last year, the service center with the lowest overall score was inspected.

Indicator name:	Median time from exam administration to exam results completion for DCAS-administered exams (business days)
Description:	The median number of business days elapsed from the date a civil service exam was given to the date exam results are completed (list published or directly established at the request of a hiring agency) for all single-part (i.e., education & experience or multiple choice exams) and multi-part (i.e., qualifying education & experience or qualifying practical exams with competitive multiple choice exams) exams, excluding NYCTA exams during the reporting period. NYCTA exams are excluded from this indicator as NYCTA has jurisdiction over the development, administration, and scoring of its civil service exams; DCAS is only responsible for processing NYCTA's eligible lists. List publication refers to the point at which results are sent to candidates and published lists are sent to hiring agencies. Appointments cannot be made until a list has been established and certified to hiring agencies.

Indicator name:	Average building cleanliness and condition rating for DCAS-managed space (non-court) (%)
Description:	The average cleanliness and condition rating of DCAS-managed office buildings. The ratings are derived from items on a survey of tenants in DCAS-managed buildings and does not include court space. Each score is weighted by the number of employees working in the space.
Source:	DCAS Tenant Relations
Indicator name:	CORE facility rating
Description:	An average Customers Observing and Reporting Experiences (CORE) score based on the rating of 15 conditions, including physical conditions (e.g., cleanliness, litter, seating) and customer service conditions (e.g., wait time, professionalism), for all agency walk-in facilities inspected, divided by the number of walk-in facilities inspected. Each of the 15 conditions can be rated excellent, good, fair, or poor. Ratings of excellent are worth 100 points each, good ratings are worth 67 points, fair ratings are worth 33 points, and poor ratings receive no points. Facilities are rated by trained City inspectors.

AGENCY RESOURCES

Indicator name:	Expenditures
Description:	Actual and planned expenditures across all units of appropriation in an agency's expense budget. This does not include capital resources (see Capital commitments, below).
Source:	The Office of Management and Budget. Data prior to Fiscal 2020 is consistent with previous Mayor's Management Reports. Fiscal 2024 expenditures reflect the forecast of Fiscal 2024 final expenditures submitted to the Financial Control Board as of June 2024. Fiscal 2024 and Fiscal 2025 plans reflect the City's Modified and Adopted Budgets for Fiscal 2024 and Fiscal 2025, respectively. NYC Health + Hospitals and the New York City Housing Authority self-report expenditure information.
Indicator name:	Revenues
Description:	Funds collected by agency revenue-generating operations. Does not include State and Federal monies and routine City tax collections.
Source:	The Office of Management and Budget. Data prior to Fiscal 2020 is consistent with previous Mayor's Management Reports. Fiscal 2024 revenues are derived from the City's Financial Management System and include anticipated closing adjustments. Fiscal 2024 and Fiscal 2025 plans reflect the City's Modified and Adopted Budgets for Fiscal 2024 and Fiscal 2025, respectively. NYC Health + Hospitals and the New York City Housing Authority self-report revenue information.
Indicator name:	Personnel
Description:	The total employees, from all funding sources, active on the final day of the reporting period. Among the civilian workforce, non-full-time employees and seasonal employees are counted as full-time equivalents (FTEs), adjusting for the proportion of a full-time salary that they earn. FTEs were not included in this data prior to December 2001.
Source:	The Office of Management and Budget. Fiscal 2024 personnel reflect the number of employees active on June 30, 2024. Fiscal 2024 plans and Fiscal 2025 plans are consistent with the City's Modified and Adopted Budgets for Fiscal 2024 and Fiscal 2025, respectively. The School Construction Authority self-reports personnel plan information.
Indicator name:	Overtime paid
Description:	<p>The additional monetary compensation received by those employees who worked in excess of the 35- or 40-hour work week.</p> <p><u>Actuals:</u> In the MMR, actual overtime amounts for the most current fiscal year are not yet final, and are estimated from the planned amounts in the City's Financial Management System at the time of budget adoption for the subsequent fiscal year. Final fiscal year actual values for annual overtime paid are reported in the subsequent PMMR (e.g., the Fiscal 2025 PMMR will contain final overtime values for Fiscal 2024) and are provided by OMB. Those final actual values reflect the Comptroller's "Comprehensive Annual Financial Report", the closing audit of the City's fiscal year budget, which is released after the publication of the MMR.</p> <p><u>Plans:</u> In the MMR, overtime plan information for the most current fiscal year (e.g. Fiscal 2024) reflects the City's prior preliminary financial plan, and the subsequent fiscal year plan reflects the City's adopted budget for the year. In the PMMR, the value of the September MMR plan for the current fiscal year (e.g. Fiscal 2024) is consistent with the adopted budget, and the values for the updated current year plan and subsequent year plan are consistent with the City's most recent preliminary financial plan.</p>
Source:	The Office of Management and Budget (OMB). NYC Health + Hospitals and the New York City Housing Authority self-report overtime information. Annual overtime data from Fiscal 2003 onward is consistent in the MMR since Fiscal 2007, when the City changed to reporting budget-based overtime costs rather than the payroll-based overtime earnings reported in previous MMRs. Overtime plan information was not included in the MMR prior to September 2012. Four-month overtime figures in the PMMR are as of October 31 of each fiscal year, based on the October Financial Information Services Agency report for each year.
