

DEPARTMENT OF PARKS & RECREATION

WHAT WE DO

The Department of Parks and Recreation (DPR), also referred to as NYC Parks, manages and cares for New York City's 2,000 parks, 1,000 playgrounds, 36 recreation centers, 12,000 acres of natural areas with 4.9 million trees, over 666,000 street trees, and 160 miles of shoreline, to strengthen the health, environment, and communities of the City. NYC Parks also offers thousands of programs and events to enrich and empower New Yorkers and strengthen the social fabric of the City's neighborhoods, including free Shape Up NYC fitness classes, Kids in Motion children's programming, Urban Park Rangers' nature exploration events, music and sports festivals, diverse stewardship opportunities, and green job training programs.

FOCUS ON EQUITY

NYC Parks' mission is to grow, maintain, and program a world-class park system prioritizing equity, access, safety, and nature for all. NYC Parks' efforts build on the core principles of good park management: targeted capital investment, expansion and protection of natural resources, strong community and public-private partnerships, enriching and capacity building programming, efficient and effective maintenance, and prioritizing historically under-resourced communities. Interconnection among these areas is essential to the growth of a vital park system that fosters the health and well-being of New Yorkers and their environment. Through the Community Parks Initiative (CPI), NYC Parks reconstructs local parks through a community-driven design process, adding new play equipment, recreation amenities for all ages, and enhanced greenery. Over the past decade, NYC Parks has completed 70 CPI projects and has 58 more underway, investing more than \$500 million to revitalize parks and playgrounds that had gone decades without significant capital investment. NYC Parks has also advanced equity in athletic field permitting by refining rules and policies to better support nonprofit organizations, youth programs, and school leagues.

NYC Parks launched the Vital Parks for All plan in Fiscal 2024, which includes a \$3.2 billion initial investment to upgrade park facilities, equitably deliver new resources to underserved communities, and equip New Yorkers with information to celebrate, support, and advocate for their local parks. Vital Parks for All envisions public greenspaces as critical living infrastructure and seeks to ensure that all communities have access to parks that are clean and safe, green and resilient, and supported by engaged and empowered New Yorkers, with a particular emphasis on historically under-served areas. Informed by data and spatial analysis, NYC Parks is advancing a host of strategic initiatives through the plan. These include supporting local stewardship through the Let's Green NYC initiative, making a \$1 billion investment in aging pools and constructing new ones, building five new recreation centers and shoring up existing ones, adding 45 new public restrooms and reconstructing 43 existing ones, and expanding parkland in neighborhoods where it is limited. The Vital Parks for All initiatives aim to enhance the City's physical greenspaces and bring them to life with people, programs, and nature, improving individual, community, and environmental health for all. NYC Parks has also launched the Vital Parks Explorer, an innovative online tool that gives New Yorkers the same interactive data the Agency uses to target investments, displaying at a glance the level of access a neighborhood has to more than 21 critical park amenities and services. The Vital Parks Explorer also empowers New Yorkers to identify the gaps in the citywide park network and work within their communities and with the City to address these gaps.

To advance the goal of equity both internally and externally, NYC Parks continues to expand its contracts with Minority and Women-owned Business Enterprises, exceeding the citywide goal of 30 percent utilization. NYC Parks also continues to build an equitable internal culture. Since launching in summer 2022, NYC Parks' Diversity Equity Inclusion and Belonging (DEIB) Office has established its presence across the Agency by organizing informative panels, workshops, and restorative circles, and by creating of a DEI Council to integrate key principles into every aspect of the Agency's work.

OUR SERVICES AND GOALS

SERVICE 1 Manage the City’s parks and recreation facilities.

- Goal 1a Ensure that all parks and playgrounds are clean and in good condition.
 - Goal 1b Provide an overall quality park experience.
-

SERVICE 2 Manage the City’s street, park and forest trees.

- Goal 2a Maintain and preserve trees under DPR stewardship.
 - Goal 2b Resolve high-priority tree work promptly.
 - Goal 2c Increase the number of trees under DPR stewardship.
-

SERVICE 3 Preserve and expand the infrastructure of New York’s park system.

- Goal 3a Build and improve parks and playgrounds in a timely and efficient manner.
 - Goal 3b Ensure an adequate supply of parkland to meet future needs.
 - Goal 3b Care for natural areas within parks, including forests, wetlands, and grasslands.
-

SERVICE 4 Provide recreational and educational opportunities for New Yorkers of all ages.

- Goal 4a Increase public attendance at educational programs, recreation centers and other venues.
- Goal 4b Increase volunteer activity at City programs and events.

HOW WE PERFORMED

- In the first four months of Fiscal 2026, sites rated acceptable for overall condition and for cleanliness ratings exceeded targets. Both the overall condition and cleanliness ratings increased by one percentage point compared to the same period of Fiscal 2025 to 86 and 93 percent, respectively. Part of this increase may be attributed to the expansion of second shift maintenance staff to an additional 100 sites in Fiscal 2026. Second shift staff maintain parks and restrooms at heavily used locations during peak-use evening hours and weekends, which started in April 2025. Across comparative reporting periods, play equipment and safety surfaces rated acceptable fell below target to 94 percent and 93 percent, respectively. NYC Parks will be focusing on the play equipment and safety surface ratings during the remainder of Fiscal 2026. The percent of public restrooms in service remained the same at 93 percent during the first four months of Fiscal 2026, two percentage points below target. NYC Parks has experienced increased abuse and vandalism of public restrooms over the past several years, often forcing temporary closures while crews complete repairs.
- During the first quarter of Fiscal 2026, crimes against persons decreased from 218 to 211 and crimes against properties increased from 176 to 177, compared to the first quarter of Fiscal 2025. The New York City Police Department (NYPD) is principally responsible for ensuring public safety throughout the City, including parks. NYC Parks is committed to assisting NYPD in this effort to provide a positive and safe experience for all park visitors. The number of summonses issued by Parks Enforcement Patrol increased by 38 percent to 7,402 compared to the 5,365 summonses in the same period in Fiscal 2025. Some of this increase can be attributed to more community focused details related to illegal vending and other quality of life issues.
- The number of street trees pruned decreased by 44 percent from 17,902 in the first four months of Fiscal 2025 compared to 10,117 in the same period in Fiscal 2026, while the annual pruning goal completed fell from 28 percent to 16 percent across comparative reporting periods. For the first four months of Fiscal 2026, NYC Parks was without a dedicated block pruning contractor in both Brooklyn and Queens. This is due to the previous contractor closing their business unexpectedly, forcing the Agency to rebid those contracts. The Agency expects to have active contracts in both boroughs by early Calendar 2026.
- The number of trees removed increased 31 percent, from 2,721 in the first four months of Fiscal 2025 compared to 3,565 in the same period in Fiscal 2026. The City experienced multiple storm events in the first four months of Fiscal 2026, resulting in an elevated number of fallen trees and trees warranting removal.
- A total of 3,314 trees were planted during the first four months of Fiscal 2026, 10 percent fewer compared to 3,682 during the same period in Fiscal 2025. The NYC Parks tree planting program manages and oversees the planting of most trees planted along City streets, in landscaped areas of parks, and in natural areas. Tree planting levels can fluctuate annually from July through October due to weather conditions, which can affect the timing of tree harvesting from nurseries where trees are grown, and the timeline of significant interagency park projects and forest restoration efforts. During the first four months of Fiscal 2026, NYC Parks planted 1,555 trees along City streets, a nine percent decrease, while tree planting in park natural areas increased by 14 percent. Additionally, 234 trees were planted in landscaped areas during the first four months of 2026, a 63 percent decline to the 640 trees during the same period Fiscal 2025, largely due to the absence of significant interagency projects on parkland, which typically drives planting in these areas.
- NYC Parks completed 35 capital projects in the first four months of Fiscal 2025, compared to 28 during the same period in Fiscal 2026. Of these completed projects this fiscal year, 96 percent were completed on time or early, and 96 percent were delivered within budget. Entering Fiscal 2026, several late projects were scheduled for completion during this period, yet they experienced additional delays due to various project-specific factors. NYC Parks expects these projects to be completed by the end of the fiscal year. Completed work in the first four months of Fiscal 2026 includes multiple playground reconstructions that improved accessibility, safety, and recreational opportunities across neighborhoods citywide. At Jamaica Playground in Jamaica, Queens, NYC Parks completed a \$4.8 million reconstruction in September 2025, which completely transformed the children's play area, sport courts, and seating areas in the park and added new accessible entrances and ramps. At Schmul Park Playground in Travis, Staten Island, NYC Parks completed a \$2.8 million playground reconstruction in October 2025, which added new, inclusive play areas, play equipment, and reconstructed spray showers. NYC Parks also enhanced stormwater management through expanded planting beds, permeable surfacing, and water-efficient spray features in this park. Lastly, NYC Parks completed construction of William McCray Playground, the fifth Harlem park in Manhattan, finished under the program with four additional parks currently in design or construction phase.

- In the first four months of Fiscal 2026, total recreation center memberships increased five percent compared to the same period in Fiscal 2025, from 147,068 to 154,805 memberships. Recreation center attendance, however, is down two percent to 569,926, which can be attributed to facility closures due to capital renovations.
- Total attendance for non-recreation center programs increased 77 percent in the first four months of Fiscal 2026 compared to the same period in Fiscal 2025, from 294,521 to 521,451, driven by a significant increase in youth programming attendance. The increase is due to the addition of nine more program sites and number of days of operation for the Kids in Motion Program, which is a free drop-in program offering active outdoor play in playgrounds, led by NYC Parks staff.
- Total volunteer turnout was 11,186 in over the first four months of Fiscal 2026, a 25 percent decrease compared to the 14,957 volunteers that turned out during the same period in Fiscal 2025. This decrease was partly due to a temporary suspension of the summer 2025 It's My Park Day volunteer events to refocus and strengthen on community engagement efforts, which help New Yorkers volunteer for hands-on projects to beautify neighborhood parks. A total of 418 community partner groups were engaged by Partnerships for Parks in the first four months in Fiscal 2026 compared to 478 in Fiscal 2025, a 13 percent decrease partly attributed to staffing constraints.
- The total number of public service requests received for Forestry decreased 16 percent, from 43,331 in the first four months of Fiscal 2025 to 36,547 requests over the same period in Fiscal 2026. Since the Agency's shift to the Neighborhood Tree Planting program, where new trees are planted by neighborhood according to existing canopy and heat vulnerability instead of individual requests, the number of forestry-related public service requests received each month has decreased accordingly.

SERVICE 1 Manage the City's parks and recreation facilities.

Goal 1a Ensure that all parks and playgrounds are clean and in good condition.

NOTEWORTHY CHANGES, ADDITIONS OR DELETIONS

- The previously published Fiscal 2025 four-month actual figures for the following indicators in Goal 2a were revised after internal data review:
 - 'Street trees pruned—Block program' was revised from 18,789 to 17,902.
 - 'Annual pruning goal completed (%)' was revised from 29 percent to 28 percent.
 - 'Trees removed' was revised from 2,569 to 2,721.

- The previously published Fiscal 2025 four-month actual figures for the following indicators in Goal 2c were revised due to a discrepancy in the number of trees planted:
 - ‘Trees planted’ was revised from 4,569 to 3,682.
 - ‘Trees planted along City streets’ was revised from 1,811 to 1,701.
 - ‘Trees planted on landscaped areas of parks’ was revised from 1,425 to 640.
 - ‘Trees planted in natural areas of parks’ was revised from 1,333 to 1,341.
- The Fiscal 2025 four-month values for the indicator ‘Capital projects completed on time or early (%)’ in Goal 3a was revised from 80 percent to 83 percent.
- Previously published Fiscal 2025 figure for ‘Attendance at historic house museums’ in Goal 4a was corrected from 798,546 to 820,572 after internal data review.
- The previously published Fiscal 2025 four-month actual figures for the following indicators in Goal 4a were revised after internal data review:
 - ‘Total recreation center attendance’ was revised from 600,471 to 579,779.
 - ‘—Visitors’ was revised from 61,278 to 40,586.
 - ‘Attendance at historic house museums’ was revised from 339,871 to 399,788.
- The Fiscal 2025 four-month values for the indicator ‘Total public service requests received—Forestry’ in Goal 6b were revised from 44,173 to 43,331 after internal data review.
- The indicator ‘New Tree Request—For One Address—% of SRs Meeting Time to First Action (180 days)’ in Agency Customer Service was retired as the Agency no longer accepts service requests to plant new street trees upon the launch of the Neighborhood Tree Planting Program, which aims to plant the City on a nine-year cycle.
- The Fiscal 2025 figure for ‘Payout (\$000)’ in Agency-wide management was updated from \$34,885 to \$34,604 after internal data review. Preliminary data for this indicator was sourced from the Law Department for publication in the Fiscal 2025 Mayor’s Management Report, while this revised value was provided by the Office of Management and Budget.
