

VOTE ON **FASTER** GOVERNMENT

The Commission on Government Efficiency released five ballot proposals aimed at making government work more efficiently for New Yorkers.

Question 1 saves small businesses time and money by making it easier to open outdoor dining and build accessible ramps

- Cuts the eight-month outdoor dining application process by 75% (down to two months)
- Saves small businesses up to \$1,800 on application costs and thousands of dollars of staff time
- Speeds up accessible entrance ramps and accessibility lifts by two months

Question 2 speeds up City contracting so small businesses and nonprofits can deliver services more quickly

- Reduces burdens on small businesses and nonprofits contracting with the government
- Saves city contractors like small businesses and nonprofits up to 30 days on contracting process

Question 3 fast-tracks street safety projects and generates revenue from the sale of surplus lots and air rights

- Speeds up street safety projects, including bike lanes, by at least 33%
- Unlocks more than \$200 million in revenue for the City from sale of small surplus lots and unneeded air rights over City-owned landmarks

Question 4 simplifies construction permitting to speed up housing

- Brings 40 approvals from 18 separate offices and agencies into one place, saving builders time and frustration

Question 5 sets a target for the City's rainy day savings to strengthen fiscal stability

- Establishes savings target of 12% of total tax revenue, aimed at ensuring long-term fiscal stability
