

LinkNYC Gigabit Centers

Gigabit Centers are powered by LinkNYC Wi-Fi, in partnership with the NYC Office of Technology and Innovation. Each offers technology training, access to laptops and tablets, and other vital community services to the public for free.

📍 Brooklyn

Digital Girl, Inc.

1561 Bedford Avenue, (347) 857-8647

Empowers youths to pursue careers in Science, Technology, Engineering and Math (STEM) and offers in-person and virtual technology training for older adults.

Learn More

📍 Manhattan

Silicon Harlem

2785 Frederick Douglass Blvd, (646) 397-8640

Provides digital literacy training, and workforce development programs to ensure everyone can access new opportunities.

Learn More

📍 The Bronx

Andrew Freedman Home

1125 Grand Concourse, (929) 314-3218

Showcases community artwork, provides digital skill building programs, and offers public access to audio recording studios.

Learn More

📍 Queens

Allen Community Senior Center

166-01 Linden Boulevard, (718) 658-0980

Enhances older New Yorkers' technological proficiency to help them remain social and confidently access digital services in a supportive environment.

Learn More

📍 Staten Island

La Colmena

88 Canal Street, (718) 442-7700

Connects immigrant communities with technology workshops and legal services, employment programs, and English classes.

Learn More

LinkNYC is the world's largest and fastest free public Wi-Fi network. All of LinkNYC's services are completely free to users and taxpayers, provided by CityBridge, a joint venture led by Intersection and Boldyn Networks. The second generation offering will deploy thousands of new kiosks, called Link5G, enabled with 5G wireless technology across the city. For more information about LinkNYC or to find a kiosk near you, visit www.link.nyc.
