WATERFRONT REVITALIZATION PROGRAM (WRP) CAF

NEW YORK CITY WATERFRONT REVITALIZATION PROGRAM Consistency Assessment Form

Proposed actions that are subject to CEQR, ULURP or other local, state or federal discretionary review procedures, and that are within New York City's Coastal Zone, must be reviewed and assessed for their consistency with the New York City Waterfront Revitalization Program (WRP) which has been approved as part of the State's Coastal Management Program.

This form is intended to assist an applicant in certifying that the proposed activity is consistent with the WRP. It should be completed when the local, state, or federal application is prepared. The completed form and accompanying information will be used by the New York State Department of State, the New York City Department of City Planning, or other city or state agencies in their review of the applicant's certification of consistency.

B. PROPOSED ACTIVITY

If more space is needed, include as an attachment.

1. Brief description of activity

The New York City Department of City Planning (DCP), together with New York City Economic Development Corporation (NYCEDC), Department of Housing Preservation and Development (HPD) and the Department of Citywide Administrative Services (DCAS), is proposing a series of land use actions (collectively the "Proposed Actions") to implement recommendations of the Bay Street Corridor @ Downtown Staten Island Neighborhood Planning Initiative (the "Plan"). The Plan is the subject of an ongoing community process to create opportunities for housing, including affordable housing, commercial development, and improved public spaces and infrastructure within an approximately 20-block area ("Project Area") in Downtown Staten Island (roughly defined as Tompkinsville, Stapleton and St. George neighborhoods), Community District 1.

The Proposed Actions include approval of zoning map amendments; zoning text amendments to establish the Special Bay Street Corridor District (SBSCD), modify the Special Stapleton Waterfront District (SSWD), and establish two Mandatory Inclusionary Housing (MIH) areas; changes to the City map to demap a portion of unbuilt Victory Boulevard Extension; designation of Urban Development Action Area (UDAA), approval of Urban Development Action Area Project (UDAAP) and disposition of city-owned property.

2. Purpose of activity

The Proposed Actions are a response to the community objectives identified as part of the Plan, through engagement with representatives of Staten Island Community Board 1, the Local Advisory Committee (LAC), local civic organizations, community residents, and stakeholders. DCP, together with other City agencies, developed a plan to achieve these goals through new zoning and other land use actions, expanded programs and services, and capital investments. This engagement process solicited community goals and objectives, which included: (1) Create a vibrant, resilient, downtown environment providing stronger connections to New York Harbor and surrounding neighborhoods; (2) Support creation of new housing, including affordable housing, for the broad spectrum of North Shore needs: seniors, young adults, workforce families, lower income families; (3) Support existing and new commercial development by encouraging a pedestrian-friendly commercial corridor between St. George and Stapleton; and (4) Align investment in infrastructure, public open spaces, and service in the Bay Street Corridor to support current demands and future growth.

F. WRP POLICY ASSESSMENT

Review the project or action for consistency with the WRP policies. For each policy, check Promote, Hinder or Not Applicable (N/A). For more information about consistency review process and determination, see **Part I** of the NYC Waterfront Revitalization Program. When assessing each policy, review the full policy language, including all sub-policies, contained within **Part II** of the WRP. The relevance of each applicable policy may vary depending upon the project type and where it is located (i.e. if it is located within one of the special area designations).

For those policies checked Promote or Hinder, provide a written statement on a separate page that assesses the effects of the proposed activity on the relevant policies or standards. If the project or action promotes a policy, explain how the action would be consistent with the goals of the policy. If it hinders a policy, consideration should be given toward any practical means of altering or modifying the project to eliminate the hindrance. Policies that would be advanced by the project should be balanced against those that would be hindered by the project. If reasonable modifications to eliminate the hindrance are not possible, consideration should be given as to whether the hindrance is of such a degree as to be substantial, and if so, those adverse effects should be mitigated to the extent practicable.
