

**REVISED NEGATIVE DECLARATION\***

**Statement of No Significant Effect**

Pursuant to Executive Order 91 of 1977, as amended, and the Rules of Procedure for City Environmental Quality Review, found at Title 62, Chapter 5 of the Rules of the City of New York and 6 NYCRR, Part 617, State Environmental Quality Review, assumed the role of lead agency for the environmental review of the proposed project. Based on a review of information about the project contained in this environmental assessment statement and any attachments hereto, which are incorporated by reference herein, the lead agency has determined that the proposed project would not have a significant adverse impact on the environment.

**Reasons Supporting this Determination**

The above determination is based on information contained in the EAS, which finds that the proposed project and related actions sought before the City Planning Commission would have no significant effect on the quality of the environment. Reasons supporting this Determination are noted below.

**Noise**

An (E) designation (E-541) related to noise has been assigned to site(s) affected by the proposed actions. Refer to "Determination of Significance Appendix: (E) Designation" for a list of these sites and all applicable (E) designation requirements. With the (E) designation measures in place, the proposed actions would not result in significant adverse impacts related to noise.

**Land Use, Zoning, and Public Policy**

An analysis of land use, zoning, and public policy is included in this EAS. The proposed action, a zoning map amendment from an R2 district to an R3-1 district would facilitate the legalization and expansion of an existing ground-floor medical facility. The analysis considered the full buildout of the community facility space allowed under the proposed rezoning. The analysis concludes that the proposed actions would not result in any significant adverse land use, zoning, or public policy impacts to the project site or the surrounding study area.

\*Following certification of the 2513-2523 Avenue O proposal in August 2019, a Revised EAS dated February 2020, prepared in connection with the proposal, has been issued. The proposed actions were modified from an R3-2 district rezoning, to an R3-1 district rezoning. The revised EAS incorporates a memorandum describing a modification to the proposed actions from R3-2 to R3-1. The memorandum confirms that the conclusions and analysis reflected in the August 2019 EAS have not changed based on the modification.

This Revised Negative Declaration supersedes the Negative Declaration issued in August 2019. The original Negative Declaration conclusions, which found that the proposed actions would not result in significant adverse impacts to the environment, remain unchanged.

**Project Name: 2513-2523 Avenue O Rezoning**  
**CEQR #: 19DCP071M**  
**SEQRA Classification: Unlisted**

Appendix I: (E) Designation

To ensure that there would be no significant adverse air quality impacts associated with the proposed project, an E designation (E-541) will be placed on the project sites as follows:

The E-designation requirements related to noise would apply to:

Projected Development Site 2:  
Block 7679 Lot 4

Noise

In order to ensure an acceptable interior noise environment, future community facility uses must provide a closed- window condition with a minimum of 28 dB(A) window/wall attenuation on all building's facades in order to maintain an interior noise level of 45 dB(A). In order to maintain a closed- window condition, an alternate means of ventilation must also be provided. Alternate means of ventilation includes, but is not limited to, central air conditioning or air conditioning sleeves containing air conditioners.
