

Zoning for Coastal Flood Resiliency

Final Environmental Impact Statement (FEIS)

CEQR No. 19DCP192Y
ULURP No. N210095 ZRY

Lead Agency:
New York City Planning Commission

March 5, 2021

Zoning for Coastal Flood Resiliency

Final Environmental Impact Statement (FEIS)

March 5, 2021

CEQR No.: 19DCP192Y

ULURP No.: N210095 ZRY

Lead Agency: New York City Planning Commission

Lead Agency Contact: Olga Abinader, Director
Environmental Assessment and Review Division
New York City Department of City Planning
120 Broadway, 31st Floor
New York, NY 10271
212-720-3493

Prepared by: Philip Habib & Associates
With: AKRF

Prepared For: New York City Department of City Planning
Frank Ruchala, Director, Zoning Division

The FEIS is available for review on the website of the New York City Department of City Planning:

<https://www1.nyc.gov/site/planning/applicants/eis-documents.page>

TABLE OF CONTENTS

Foreword.....	Foreword-1
Executive Summary	ES-1
Chapter 1: Project Description	
A. Introduction.....	1-1
B. Background.....	1-3
The City’s Coastal Flood Risk.....	1-3
The City’s Regulatory Framework in the Floodplain	1-4
COVID-19 Pandemic Recovery	1-5
C. Description of the Proposed Project Area.....	1-6
1% Annual Chance Floodplain.....	1-6
0.2% Annual Chance Floodplain.....	1-6
D. Purpose and Need for the Proposed Action	1-6
Goals of the Proposed Action	1-8
E. Description of the Proposed Action.....	1-9
Goal 1: Encourage resiliency throughout the current and future floodplains	1-9
Goal 2: Support long-term resilient design for all building types.....	1-10
Goal 3: Allow for adaptation over time through incremental retrofits	1-20
Goal 4: Facilitate future recovery by reducing regulatory obstacles	1-23
Overlap with Special Districts	1-27
Related Actions.....	1-27
F. Analysis Framework.....	1-28
Prototypical Analysis.....	1-29
Conceptual Analysis	1-33
Analysis Year	1-33
G. Public Review Process	1-34
Chapter 2: Land Use, Zoning, & Public Policy	
A. Introduction.....	2-1
B. Principal Conclusions.....	2-2
C. Methodology.....	2-2
Study Areas.....	2-3
Sources	2-3
D. Detailed Assessment.....	2-4
Existing Conditions	2-4
The Future without the Proposed Action (No-Action Condition).....	2-13
The Future without the Proposed Action (With-Action Condition)	2-15
Chapter 3: Socioeconomic Conditions	
A. Introduction.....	3-1
B. Principal Conclusions.....	3-2
Direct Residential Displacement	3-2
Direct Business/Institutional Displacement	3-2
Indirect Residential Displacement	3-2
Indirect Business/Institutional Displacement	3-2
Adverse Effects on Specific Industries.....	3-3
C. Preliminary Screening.....	3-3

Determining Whether a Socioeconomic Assessment is Appropriate.....3-3
D. Conclusions.....3-5

Chapter 4: Community Facilities & Services

A. Introduction.....4-1
B. Principal Conclusions.....4-2
 Direct Effects.....4-2
 Indirect Effects4-2
C. Preliminary Screening.....4-2
 Direct Effects.....4-2
 Indirect Effects4-3
D. Conclusions.....4-5

Chapter 5: Open Space

A. Introduction5-1
B. Principal Conclusions.....5-2
C. Preliminary Screening5-2
 Direct Effects.....5-2
 Indirect Effects5-3
D. Conclusions.....5-4

Chapter 6: Shadows

A. Introduction6-1
B. Principal Conclusions.....6-2
C. Methodology.....6-2
 Prototypical Analysis Sites6-4
D. Detailed Assessment.....6-7
 Prototypical Analysis Site 3.....6-8
 Prototypical Analysis Site 5.....6-9
 Prototypical Analysis Site 8.....6-10
E. Conclusions.....6-11

Chapter 7: Historic & Cultural Resources

A. Introduction7-1
B. Principal Conclusions.....7-2
 Archaeological Resources7-2
 Architectural Resources.....7-2
C. Preliminary Assessment.....7-4
 Archaeological Resources7-4
 Architectural Resources.....7-4
D. Detailed Assessment.....7-4
 Archaeological Resources7-4
 Architectural Resources.....7-6
E. Conclusions.....7-11

Chapter 8: Urban Design & Visual Resources

A. Introduction8-1
B. Principal Conclusions.....8-2
C. Methodology.....8-3
 Determining Whether an Urban Design Analysis is Necessary.....8-3

- Determining Whether an Analysis of Wind Conditions is Necessary8-4
- Study Areas.....8-5
- Sources8-5
- D. Detailed Assessment.....8-5**
 - Existing Conditions8-5
 - The Future without the Proposed Action (No-Action Condition).....8-10
 - The Future with the Proposed Action (With-Action Condition)8-14
- E. Conclusions.....8-32**

Chapter 9: Natural Resources

- A. Introduction9-1**
- B. Principal Conclusions.....9-2**
- C. Preliminary Screening.....9-2**
 - Existing Conditions9-2
 - The Future with the Proposed Action (With-Action Condition)9-3
 - Prototypical Site Analyses.....9-5
- D. Conclusions.....9-6**

Chapter 10: Hazardous Materials

- A. Introduction10-1**
- B. Principal Conclusions.....10-2**
- C. Preliminary Screening.....10-2**
- D. Detailed Analysis.....10-4**
- E. Conclusions.....10-5**

Chapter 11: Water & Sewer Infrastructure

- A. Introduction11-1**
- B. Principal Conclusions.....11-2**
 - Water Supply11-2
 - Wastewater Treatment, Stormwater & Drainage Management11-2
- C. Preliminary Screening.....11-2**
 - Water Supply11-2
 - Wastewater Treatment, Stormwater & Drainage Management11-3
- D. Conclusions.....11-4**

Chapter 12: Solid Waste & Sanitation Services

- A. Introduction12-1**
- B. Principal Conclusions.....12-2**
- C. Preliminary Assessment.....12-2**
- D. Conclusions.....12-3**

Chapter 13: Energy

- A. Introduction13-1**
- B. Principal Conclusions.....13-2**
- C. Preliminary Assessment.....13-2**
- D. Conclusions.....13-4**

Chapter 14: Transportation

- A. Introduction14-1**

B. Principal Conclusions.....14-2
C. Preliminary Screening.....14-2
D. Clusters/Cumulative Analysis.....14-4
E. Conclusions.....14-4

Chapter 15: Air Quality

A. Introduction15-1
B. Principal Conclusions.....15-2
C. Preliminary Screening.....15-2
 Introduction15-2
 Mobile Source Analysis.....15-2
 Stationary Source Analysis.....15-2
D. Conclusions.....15-6

Chapter 16: Greenhouse Gas Emissions & Climate Change

A. Introduction16-1
B. Principal Conclusions.....16-2
C. Preliminary Screening.....16-2
 Resilience of the Proposed Action to Climate Change16-3
D. Conclusions.....16-3

Chapter 17: Noise

A. Introduction17-1
B. Principal Conclusions.....17-2
C. Preliminary Screening.....17-2
D. Conclusions.....17-3

Chapter 18: Public Health

A. Introduction18-1
B. Principal Conclusions.....18-2
C. Preliminary Screening.....18-2
D. Conclusions.....18-3

Chapter 19: Neighborhood Character

A. Introduction19-1
B. Principal Conclusions.....19-2
C. Methodology.....19-2
 Study Areas.....19-3
D. Preliminary Screening.....19-3
 Land Use.....19-3
 Socioeconomic Conditions19-4
 Open Space.....19-4
 Shadows.....19-5
 Historic & Cultural Resources.....19-5
 Urban Design & Visual Resources19-5
 Transportation.....19-6
 Noise.....19-6
E. Conclusions.....19-6

Chapter 20: Construction

A. Introduction20-1
B. Principal Conclusions.....20-2
C. Construction Regulations & General Practices20-2
 Construction Oversight.....20-2
 Construction Hours.....20-3
 Construction Practices20-4
D. Preliminary Screening.....20-5
E. Conclusions.....20-7

Chapter 21: Mitigation

A. Introduction21-1
B. Principal Conclusions.....21-2
 Historic & Cultural Resources.....21-2
 Hazardous Materials21-3
C. Historic & Cultural Resources21-3
 Archaeological Resources21-3
 Architectural Resources.....21-4
D. Hazardous Materials21-5

Chapter 22: Alternatives

A. Introduction22-1
B. Principal Conclusions.....22-1
C. No-Action Alternative22-2
 No-Action Alternative Compared with the Proposed Action22-3
D. No Unmitigated Significant Adverse Impacts Alternative22-8
E. Conclusions.....22-9

Chapter 23: Conceptual Analysis

A. Introduction23-1
B. Principal Conclusions.....23-3
C. Methodology & Analysis Framework.....23-3
 Conceptual Analysis Site 123-4
 Conceptual Analysis Site 223-5
D. BSA Ground-Floor Use Special Permit23-6
 Land Use, Zoning, & Public Policy23-7
 Socioeconomic Conditions23-7
 Community Facilities & Services23-8
 Open Space.....23-8
 Shadows.....23-8
 Historic & Cultural Resources.....23-8
 Urban Design & Visual Resources23-9
 Natural Resources.....23-9
 Hazardous Materials23-9
 Water & Sewer Infrastructure.....23-9
 Solid Waste & Sanitation Services23-10
 Energy.....23-10
 Transportation.....23-10
 Air Quality.....23-10
 Greenhouse Gas Emissions & Climate Change.....23-11
 Noise.....23-11
 Public Health23-11

Neighborhood Character.....23-11
 Construction.....23-12
E. BSA Resiliency Special Permit23-12
 Land Use, Zoning, & Public Policy23-12
 Socioeconomic Conditions23-13
 Community Facilities & Services23-13
 Open Space23-13
 Shadows.....23-14
 Historic & Cultural Resources.....23-14
 Urban Design & Visual Resources23-14
 Natural Resources.....23-15
 Hazardous Materials23-15
 Water & Sewer Infrastructure.....23-15
 Solid Waste & Sanitation Services23-15
 Energy.....23-15
 Transportation.....23-15
 Air Quality23-16
 Greenhouse Gas Emissions & Climate Change.....23-16
 Noise.....23-16
 Public Health23-16
 Neighborhood Character.....23-16
 Construction.....23-17

Chapter 24: Unavoidable Adverse Impacts

A. Introduction24-1
B. Principal Conclusions.....24-2

Chapter 25: Growth-Inducing Aspects

A. Introduction25-1
B. Principal Conclusions.....25-2

Chapter 26: Irreversible & Irretrievable Commitment of Resources

A. Introduction26-1
B. Principal Conclusions.....26-2
C. Preliminary Screening.....26-2
B. Conclusions.....26-3

Chapter 27: Response to Comments27-1

APPENDICES

- Appendix A: Prototypical Analysis Site Narratives and Illustrative Renderings*
- Appendix B: Zoning Comparisons: Underlying vs. 2013 Flood Text/2015 Recovery Text vs. Proposed Action*
- Appendix C: Map of Existing Nursing Homes in New York City*
- Appendix D: Waterfront Revitalization Program (WRP) Consistency Assessment Form (CAF)*
- Appendix E: Agency Correspondence*
- Appendix F: Written Comments on the DEIS*

LIST OF TABLES

		<u>Page</u>
1-1	Number of Lots and Buildings in the Floodplain	1-3
1-2	Prototypical Site Selection	1-30
2-1	Existing Land Uses within the 1% Annual Chance Floodplain.....	2-4
2-2	Existing Land Uses within the 0.2% Annual Chance Floodplain.....	2-5
2-3	Prototypical Analysis Sites – Existing Conditions	2-6
2-4a	Prototypical Analysis Sites – No-Action Condition: 1% Annual Chance Floodplain.....	2-14
2-4b	Prototypical Analysis Sites – No-Action Condition: 0.2% Annual Chance Floodplain.....	2-15
2-5a	Prototypical Analysis Sites – With-Action Condition: 1% Annual Chance Floodplain.....	2-29
2-5b	Prototypical Analysis Sites – With-Action Condition: 0.2% Annual Chance Floodplain.....	2-30
4-1	Preliminary Screening Analysis Criteria	4-3
4-2	No-Action DUs vs. With-Action DUs on the Prototypical Analysis Sites.....	4-4
5-1	Workers Generated by the Proposed Action	5-3
6-1a	Prototypical Analysis Sites – With-Action Condition: 1% Annual Chance Floodplain.....	6-5
6-1b	Prototypical Analysis Sites – With-Action Condition: 0.2% Annual Chance Floodplain.....	6-6
6-2	Duration of With-Action Shadows on Sunlight-Sensitive Resources (Incremental Shadows by Prototype).....	6-7
7-1	No-Action vs. With-Action Lot Coverage on the Prototypical Analysis Sites.....	7-5
8-1a	Building Heights in the 1% Annual Chance Floodplain	8-6
8-1b	Built Densities in the 1% Annual Chance Floodplain	8-6
8-2a	Building Heights in the 0.2% Annual Chance Floodplain	8-7
8-2b	Built Densities in the 0.2% Annual Chance Floodplain	8-8
8-3	Prototypical Analysis Sites – Existing Conditions	8-9
8-4a	Prototypical Analysis Sites – No-Action Condition: 1% Annual Chance Floodplain.....	8-11
8-4b	Prototypical Analysis Sites – No-Action Condition: 0.2% Annual Chance Floodplain.....	8-12
8-5a	Prototypical Analysis Sites – With-Action Condition: 1% Annual Chance Floodplain.....	8-26
8-5b	Prototypical Analysis Sites – With-Action Condition: 0.2% Annual Chance Floodplain.....	8-27
8-6a	No-Action vs. With-Action Condition: 1% Annual Chance Floodplain	8-28
8-6b	No-Action vs. With-Action Condition: 0.2% Annual Chance Floodplain	8-28
9-1	No-Action vs. With-Action Lot Coverage on the Prototypical Analysis Sites.....	9-6
10-1	No-Action vs. With-Action Lot Coverage on the Prototypical Analysis Sites.....	10-4
11-1	Prototypical Analysis Site Sizes and CEQR Thresholds Requiring Further Analysis	11-4
12-1	Workers Generated by the Proposed Action	12-2
12-2	1% Annual Floodplain Scenario Solid Waste Generation by Prototypical Analysis Site	12-3
13-1	Average Annual Whole-Building Energy Use in New York City.....	13-2
13-2a	1% Annual Chance Floodplain Annual Energy Use per Prototypical Analysis Site.....	13-3
13-2b	0.2% Annual Chance Floodplain Annual Energy Use per Prototypical Analysis Site.....	13-4
14-1a	RWCDS of Prototypical Analysis Sites in the 1% Annual Chance Floodplain	14-3
14-1b	RWCDS of Prototypical Analysis Sites in the 0.2% Annual Chance Floodplain	14-3
15-1	Exhaust Stack Parameters and Emission Rates	15-4
15-2	Maximum Background Pollutant Concentrations	15-5
15-3	Prototypical Analysis Sites 3 and 11 Maximum Modeled Pollutant Concentrations from Heating and Hot Water Systems ($\mu\text{g}/\text{m}^3$).....	15-6
22-1a	Prototypical Analysis Sites – No-Action Alternative: 1% Annual Chance Floodplain.....	22-3
22-1b	Prototypical Analysis Sites – No-Action Alternative: 0.2% Annual Chance Floodplain.....	22-4
