

***Statements of Community
District Needs
and
Community Board
Budget Requests***

Fiscal Year
2018

Submitted to:

NYC
PLANNING

January 2017

**Manhattan
Community District 08**

INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and Community Board Budget Requests (Budget Requests) are Charter mandates that form an integral part of the City's budget process. Together, they are intended to support communities in their ongoing consultations with city agencies, elected officials and other key stakeholders and influence more informed decision making on a broad range of local planning and budget priorities. This report also provides a valuable public resource for neighborhood planning and research purposes, and may be used by a variety of audiences seeking information about New York City's diverse communities.

HOW TO USE THIS REPORT

This report represents Manhattan Community Board 8's *Statement of Community District Needs and Community Board Budget Requests for Fiscal Year (FY) 2018*. This report contains the formatted but otherwise unedited content provided by the Community Board, collected through an online form available to community boards from September to November 2016.

Community boards may provide substantive supplemental information together with their Statements and Budget Requests. This supporting material can be accessed by clicking on the links provided in the document or by copying and pasting them into a web browser, such as Chrome, Safari or Firefox.

If you have questions about this report or suggestions for changes please contact:

CDNEEDS_DL@planning.nyc.gov

This report is broadly structured as follows:

a) Overarching Community District Needs

Sections 1 – 4 provide an overview of the community district and the top three pressing issues affecting this district overall as identified by the community board. Any narrative provided by the board supporting their selection of their top three pressing issues is included.

b) Policy Area- Specific District Needs

Section 5 is organized by seven distinct policy areas aligned with the service and program areas of city agencies. For each policy area, community boards selected the most important issue for their districts and could provide a supporting narrative. The policy area section also includes any agency-specific needs and a list of relevant budget requests submitted by the Community Board. If the community board submitted additional information outside of a specific policy area, it may be found in Section 6.

c) Community Board Budget Requests

The final section includes the two types of budget requests submitted to the City for the FY18 budget cycle; one list for capital and another for expense budget requests. For each budget request, community boards were able to provide a priority number, explanation, location, and supporters. OMB remains the definitive source on budget requests submitted to city agencies.

1. Community Board Information

Manhattan Community Board 8

Address: 505 Park Avenue, Suite 620

Phone: 2127584340

Email: Thompson@cb8m.com

Website: www.cb8m.com

Chair: Mr. James G. Clynes

District Manager: Latha Thompson

2. Community District Land Use

3. Overview of Community District

Roosevelt Island and the Upper East Side of Manhattan, from the north side of East 59th Street to the south side of East 96th Street between Fifth Avenue and the East River, comprise Manhattan Community District 8. In addition to our diverse population, we are home to dozens of diplomatic residences, world famous hospitals, medical research centers, and world-renowned museums.

According to the 2010 census, 229,688 people live on the Upper East Side of Manhattan, a 6.0% increase from 1990.

Prosperous economic times and a major building boom that began during the 1990's have added thousands of new dwelling units to the district. Today, the district continues to grow at an amazing pace. The 1999 median household income for the District was \$74,134. Based on data from the 2000 census 6.5% of the individuals in the district live below the poverty level.

There is also a large segment of the population with special needs. More than 14% of CB8's residents are senior citizens, with a high number of frail elderly. There is also a number of working poor living in the district. With affordable housing becoming increasingly scarce, commercial rent escalating, and the prices of goods and services dramatically rising, our middle class residents are struggling to meet their budgets. The influx of new residents, shoppers, and tourists has strained the delivery of municipal service.

4. Top Three Pressing Issues Overall

The three most pressing issues facing Manhattan Community Board 8 are:

- *Affordable housing*
- *Parks*
- *Schools*

Affordable housing-In response to New York City's (NYC) and the district's lack of sufficient affordable housing units; the Committee has voiced its overall support of retaining and increasing affordable housing in the district. Additionally, the Committee recommends rescinding the NYC Administration Code §26-511, C, 9 of the NYC Rent Stabilization Law of 1969, a law that has increased institutional expansion within the district. **Parks**-The aging East River Esplanade in the CB8M district has been crumbling, creating a dangerous situation for its many users. Repairing it is an urgent necessity. And by implementing the existing, proposed designs for the Esplanade's repairs and improvements, the City can create a vital and long-lasting public amenity. **Schools**-We need elementary, middle and high school seats because our district is woefully lacking in these now, and we are being overwhelmed with new high rise construction featuring 3,4, and 5 bedrooms, thus encouraging families to purchase. The increase in the number of school children in our district will further overwhelm the system and the crowding in the existing schools will diminish the quality of the education for everyone. Also, a good school system keeps families from moving out of the city, and these families form our tax base which is desperately needed so as to provide the other services that the city requires. School funding is a necessity in our district and will determine the fate of the city.

Main Issue Related to Health Care and Human Services

Services to reduce or prevent homelessness

CB8M remains strongly in favor of continued support for homeless services and supports public and private sector efforts to assist the diverse homeless population in our community. Given the Bloomberg administration's termination of the Advantage program, a top capital priority is increased funding for permanent affordable housing for homeless individuals and families. We are particularly concerned that with the city's homeless population at record setting levels, the Department for Homeless Services saw fit to promulgate, and persists in its attempts to implement, new shelter eligibility rules deemed likely to further swell the numbers of homeless single individuals. CB8M continues to support strongly the services and programs aimed at aiding those of our community who are in need;

Community District Needs Related to Health Care Facilities and Programming

The main programs for seniors are offered by Lenox Hill Neighborhood House (partially funded by the New York City Housing Authority (NYCHA), Stanley M. Isaacs Neighborhood Center (a NYCHA facility), Carter Burden Center for the Aging, Roosevelt Island Senior Center, and Search and Care. CB8M has advocated for maintaining NYCHA social service programs, including the NYCHA senior centers at Lenox Hill and Stanley Isaacs, congregate meal programs, and the youth, family, and after school programs. CB8M remains strongly in favor of continued support for homeless services and supports public and private sector efforts to assist the diverse homeless population in our community. Given the Bloomberg administration's termination of the Advantage program, a top capital priority is increased funding for permanent affordable housing for homeless individuals and families. We support the efforts of the faith-based organizations to maintain their homeless shelter beds and of the food pantries in and out of our district to continue their work of feeding our hungry. Overall, the area of homeless services continues to be one of loss and insufficiency. The absence of the services the Neighborhood Coalition for Shelter, Inc. (NCS) provided for almost two continues to be felt and underpins the urgent need for programs that address the needs of the homeless. In addition, we remain disappointed that homeless outreach services were consolidated in one central agency outside our district and outreach to CB8M street homeless individuals is no longer provided by a local organization.

Community District Needs Related to Facilities and Programming for Older New Yorkers

The population of our district includes the largest percentage of older adults, 60+, in Manhattan (20.8%). A significant percentage of these (21.5%) live below the poverty level, or are frail, or both. Contrary to popular perception, it also includes a varying but seemingly growing number of individuals without shelter. In addition, soup kitchens, food pantries, and other food programs are seeing growing numbers of people, including more women and children and families, turning to them to augment their diets. A primary and consistent concern for our board is protecting the senior centers and programs that provide services to seniors regardless of income. These centers and programs provide older members of the community with social interaction and nutrition, two elements vital to maintaining their long-term health and wellbeing. It is imperative that senior center budgets be included in the Mayor's budget, and we urge that in the future critical senior programs such as case management and elder abuse prevention be treated as essential budget items. The main programs for seniors are offered by Lenox Hill Neighborhood House (partially funded by the New York City Housing Authority (NYCHA), Stanley M. Isaacs Neighborhood Center (a NYCHA facility), Carter Burden Center for the Aging, Roosevelt Island Senior Center, and Search and Care. CB8M has advocated for maintaining NYCHA social service programs, including the NYCHA senior centers at Lenox Hill and Stanley Isaacs, congregate meal programs, and the youth, family, and after school programs.

Community District Needs Related to Facilities and Services for the Homeless

We are particularly concerned that with the city's homeless population at record setting levels, the Department for Homeless Services saw fit to promulgate, and persists in its attempts to implement, new shelter eligibility rules deemed likely to further swell the numbers of homeless single individuals.

5. Summary of Community District Needs and Budget Requests

Health Care and Human Services

Community District Needs Related to Services and Programming for Low-Income and Vulnerable New Yorkers

CB8M continues to support strongly the services and programs aimed at aiding those of our community who are in need; they remain critically important. CB8M urges the city to respond strongly to this growing segment of our city's population.

Capital Requests Related to Health Care and Human Services

Priority	Agency	Need	Request	Location
1/19	DHS	<i>Services for the homeless</i>	<i>Other request for services for the homeless</i>	
10/19	DFTA	<i>Facilities for seniors</i>	<i>Renovate or upgrade a senior center</i>	<i>Stanley Isaacs Senior Center</i>
CS	DHS	<i>Facilities for the homeless</i>	<i>Upgrade existing facilities for the homeless</i>	

Expense Requests Related to Health Care and Human Services

Priority	Agency	Need	Request	Location
3/25	DOHMH	<i>Animal and pest control services</i>	<i>Other animal and pest control requests</i>	<i>Second Avenue East 96th St East 63rd St</i>
6/25	DFTA	<i>Services for homebound older adults</i>	<i>Enhance home care services</i>	
8/25	DHS	<i>Services for the homeless</i>	<i>Expand street outreach</i>	
10/25	DOHMH	<i>Programs to address other public health issues</i>	<i>Other programs to address public health issues requests</i>	
15/25	DOHMH	<i>Health inspections</i>	<i>Increase health inspections, e.g. for restaurants</i>	
16/25	DFTA	<i>Elder abuse programs</i>	<i>Enhance programs for elder abuse victims</i>	
25/25	DHS	<i>Services for the homeless</i>	<i>Provide rental assistance/vouchers for permanent housing</i>	

5. Summary of Community District Needs and Budget Requests

Youth, Education and Child Welfare

Main Issue Related to Youth, Education and Child Welfare

School and educational facilities (Capacity)

Community Board 8 would like to see more school seats including Pre-K seats in all schools within the district.

Community District Needs Related to Educational Facilities and Programs

Community Board 8 applauds the DOE for finding permanent homes for PS 151 and 267, as well as starting a new elementary school PS 527 located in the former Our Lady of Good Council School. Community Board 8 is extremely concerned about the cutback in capital and expense funding which results in: overcrowding in our community district; conversion of cluster rooms to regular class rooms and a lack of specialty teachers for art, music etc. for the schools in our district. Community Board 8 is pleased to have a new middle school located in PS 158, which will open in September 2014. However, the community feels there is a great need for more Middle School seats in Community District 8.

Community District Needs Related to Services for Children and Child Welfare

The Board also recognizes the importance of providing adequate day care and after school facilities for our children. There are many Community Board 8 residents, especially single working parents, who need affordable day care and after school programs, but whose income slightly surpasses eligibility requirements. Additional Affordable programs are essential. We continue to request increased funding for childcare and after-school programs, including infant care. An important issue yet to be adequately addressed is the need for programs to prevent abuse and neglect. Community Board 8 feels that there is a need for strong evidence-based programs to provide intensive support to at-risk families. Such therapies will increase family functioning while reducing the need for unnecessary and costly out of home care.

Community District Needs Related to Youth and Community Services and Programs

The Board also recognizes the importance of providing adequate day care and after school facilities for our children. There are many Community Board 8 residents, especially single working parents, who need affordable day care and after school programs, but whose income slightly surpasses eligibility requirements. Additional Affordable programs are essential. We continue to request increased funding for childcare and after-school programs, including infant care.

Capital Requests Related to Youth, Education and Child Welfare

Priority	Agency	Need	Request	Location
CS	DOE	<i>Schools and educational facilities</i>	<i>Provide a new or expand an existing elementary school</i>	

Expense Requests Related to Youth, Education and Child Welfare

Priority	Agency	Need	Request	Location
1/25	DYCD	<i>After school programs</i>	<i>Provide, expand, or enhance after school programs for elementary school students (grades K-5)</i>	
2/25	DYCD	<i>Youth workforce development</i>	<i>Other youth workforce development requests</i>	
13/25	ACS	<i>Juvenile justice programs and preventive services</i>	<i>Provide, expand, or enhance preventive services</i>	

Public Safety and Emergency Services

Main Issue Related to Public Safety and Emergency Services*General crime*

CB8 maintains a close working relationship with the 19th Precinct, Manhattan North, the Central Park Precinct, and the 114th Precinct, which serves Roosevelt Island from Queens. CB8 continues to be concerned about the number of scams and fraud against the elderly and venerable as well as Grand Larceny and Pedestrian Safety cases.

Community District Needs Related to Policing and Crime

CB8 supports full funding for all fire and emergency medical services in our district and citywide. CB8 is particularly concerned about the loss of fire marshals in recent years, and we have requested the restoration of funding for these personnel.

Expense Requests Related to Public Safety and Emergency Services

Priority	Agency	Need	Request	Location
14/25	NYPD	NYPD staff and training resources	Assign additional traffic enforcement officers	
18/25	FDNY	FDNY programs and staffing	Provide more firefighters or EMS workers	
22/25	NYPD	NYPD staff and training resources	Assign additional uniformed officers	
24/25	NYPD	NYPD staff and training resources	Assign additional uniformed officers	

5. Summary of Community District Needs and Budget Requests

Core Infrastructure, City Services and Resiliency

Main Issue Related to Core Infrastructure, City Services and Resiliency

Cleanliness/trash collection

Community Board 8 (CB8) is responsive to residents' concerns about sanitation and the environment. We receive numerous complaints and are trying to be responsive to our residents and businesses about sanitation and the environment. We continue to be concerned about the lack of corner baskets and request additional baskets which should be emptied on a more frequent basis. We strongly urge additional enforcement of commercial property owners who fail to clean their sidewalk 18 inches from the curb into the street with emphasis on East 86th Street between Lexington and Second Avenues. We also need more garbage collections and street cleanings in an integrated approach to a cleaner community. We support more frequent sanitation inspections and efforts to consistently maintain presentable clean-swept sidewalks and streets.

Community District Needs Related to Water, Sewers and Environmental Protection

With regards to drinking water, CB8 passed a resolution in February 2012 in favor of DEP's proposal to build a bypass tunnel to facilitate repair of the Delaware Aqueduct in order to ensure that DEP can continue to deliver high quality drinking water every day to NYC, and further resolved that this support is contingent DEP minimizing and mitigating potential environmental impacts in the areas where the work is to be performed, and upon DEP having an adequate plan in place to supplement the water supply with high-quality drinking water during the shut-down phase of up to 6 to 15 months of the Delaware Aqueduct. The NYC Department of Environmental Protection (DEP) constructed a vertical water supply shaft, Shaft 33B, to bring water from City Tunnel No. 3 to the local water distribution system in East Manhattan and the Upper East Side in Manhattan. Construction of City Tunnel No 3, Stage 2 – Manhattan leg is currently proceeding beneath Manhattan. The shaft would be an unmanned underground facility capable of conveying water from the new City Tunnel No. 3 to the surface distribution system that serves East Midtown and the Upper East Side. The site is located on the northwest corner of E. 59th Street and First Avenue adjacent to the Queensboro Bridge in Community District 8. The Shaft 33B project would also involve water main construction required to connect the new shaft with the existing subsurface water distribution system that serves the East Midtown and Upper East Side areas. Two water main connections are to extend from the Shaft 33B Site beneath the City streets, connecting the shaft to a trunk-main at Third Avenue.

Community District Needs Related to Sanitation Services

Community Board 8 (CB8) is responsive to residents' concerns about sanitation and the environment. The cleanliness of our streets and neighborhoods is of great importance to our community and is related to successful business operations, to our well-being, and to the quality of life. In an integrated approach to a cleaner community, we support frequent sanitation inspections and efforts to consistently maintain presentable clean-swept sidewalks and streets.

Capital Requests Related to Core Infrastructure, City Services and Resiliency

Priority	Agency	Need	Request	Location
11/19	DSNY	Garbage collection and recycling	Provide more on-street trash cans and recycling containers	
18/19	DSNY	Garbage collection and recycling	Provide more on-street trash cans and recycling containers	

Expense Requests Related to Core Infrastructure, City Services and Resiliency

Priority	Agency	Need	Request	Location
19/25	DSNY	Garbage collection and recycling	Other garbage collection and recycling requests	

5. Summary of Community District Needs and Budget Requests

Land Use, Housing and Economic Development

Main Issue Related to Land Use, Housing and Economic Development

Affordable housing programs

We oppose the taking of any public space for private development making sure that NYCHA, HPD or any other developer program capital needs are met before breaking ground.

Community District Needs Related to Land Use

Zoning changes including R8-B enacted within the past fifteen years to protect the midblock, from massive structures and R10-A governing use of the plaza bonus and towers on a base for avenues and cross-town streets have only slightly moderated development. New 30-35 story buildings on some avenues, which currently are allowed, strain the infrastructure and municipal services. CB8 and local civic groups have urged the Department of City Planning to review the Community Facility provisions of the Zoning Resolution. CB8 is the only district where community facilities are entitled to a 5.1 FAR in the R8B mid-blocks. CB8 has proposed modifications to the Department of City Planning to change the current community facility in R8B areas from a 5.1 to a 4.0 FAR. CB8 seeks to preserve the Upper East Side's residential character. The C1 and C2 zoning (Local Retail Use) control commercial signage in the District. CB8 seeks to maintain a careful balance to prevent new buildings from detracting from CB8's historic districts. CB8 believes that new and more effective regulations, coupled with increased enforcement, would ease this problem. Roosevelt Island is undergoing major change with the addition of the Cornell Tech graduate center. The campus will occupy most of the southern part of the island. The graduate center is a boon for the community and city but the quality of life of the residents must be protected while the island undergoes major construction for the years to come.

Community District Needs Related to Housing Needs and Programming

Community District 8 is home to 161,142 households. Of those households 42,487 are owner households and 79,622 are renter households. Over 98 percent of owner households live in housing types classified as either a cooperative or a condominium. The Upper East Side rental vacancy rate is 2.8 percent. Approximately 52 percent of renter households pay rent in excess of 30 percent of their income; another 23 percent of renter households pay more than 50 percent of their income toward rent. The median monthly gross rent in 2009 was \$1,735. The district encompasses a wide range of housing forms including condominiums, cooperatives, market rate and rent regulated housing. Of renter households, 35 percent live in market rate. Regulated housing includes rent stabilization (54 percent of renter households), Mitchell-Lama, public housing, and rent control.

Community District Needs Related to Economic Development

CB8 works with the Madison Avenue Business Improvement District, the East Midtown Partnership and the DOE Fund on a range of issues. CB8 efforts on traffic and quality of life are critical to our local businesses.

Expense Requests Related to Land Use, Housing and Economic Development

Priority	Agency	Need	Request	Location
12/25	DOB	<i>Building code and zoning enforcement</i>	<i>Assign additional building inspectors (including expanding training programs)</i>	
20/25	NYCHA	<i>Public housing upgrades or renovations</i>	<i>Renovate or upgrade NYCHA community facilities or open space</i>	

Transportation

Main Issue Related to Transportation

Roadway maintenance

The streets are unsafe in their present condition for pedestrians, motorist and cyclist.

Community District Needs Related to Traffic and Transportation Infrastructure

Community Board 8 has consistently ranked funding for street repair and maintenance high on its list of priorities, and we applaud the NYC Department of Transportation's Manhattan Highway Maintenance Division on the job they do managing this substantial task, especially in light of its need for an additional pothole gang, that the Board strongly supports. Traffic Congestion has become an increasing problem in Community Board and will get worse with the additional hospital construction projects and the proposed Marine Transfer Station. We request that the proposed traffic study for the full length of York Avenue (paid for by CUNY MSK) be carried out as soon as possible. Large numbers of residents, daily workers and visitors contribute to traffic congestion, noise, pollution, and crowded streets and sidewalks. With only one subway line traveling the East Side, public transit continues to be overwhelmed. The MTA/NYC Transit must work with commuters and the Board to address service issues such as punctuality, bus bunching and dwell times.

Capital Requests Related to Transportation

Priority	Agency	Need	Request	Location
9/19	DOT	Transportation infrastructure	Provide new traffic or pedestrian signals	
12/19	DOT	Transportation infrastructure	Other transportation infrastructure requests	East 86th Street
13/19	DOT	Transportation infrastructure	Other transportation infrastructure requests	
CS	DPR	Transportation infrastructure	Rehabilitate bridges	81st Street Pedestrian Bridge

Expense Requests Related to Transportation

Priority	Agency	Need	Request	Location
9/25	DOT	Transportation infrastructure	Repair potholes (resurface roads)	
11/25	DOT	Transportation infrastructure	Rehabilitate bridges	

Parks, Cultural and other Community Facilities

Main Issue Related to Parks, Cultural and other Community Facilities

Other/Capital funding for Parks specifically full funding of the East River Esplanade and funding to create a year round park at the Queensboro Oval.

The aging East River Esplanade in the CB8M district has been crumbling, creating a dangerous situation for its many users. Repairing it is an urgent necessity. And by implementing the existing, proposed designs for the Esplanade's repairs and improvements, the City can create a vital and long-lasting public amenity. We oppose public space being taken for private use. Manhattan's populous Upper East Side has among the least parkland of any district in New York City and deprivatizing the Queensboro Oval and opening it to the public full-time would be an important step toward addressing the Upper East Side's severe shortage of public parkland. The City can soon make the Queensboro Oval a full-time public park, since its contract with a private tennis club expires in mid-2017. CB8M passed a resolution in 2015 strongly urging the City to return the Queensboro Oval Park to the public full-time and in conjunction with the Upper East Side community, has identified uses for a deprivatized Oval—such as soccer, softball, tennis and running—that would benefit a large portion of the public. CB8M wants a deprivatized Queensboro Oval Park to become a multi-use recreation area, available for such active sports as track, soccer, softball and tennis, with seating provided for passive relaxation.

Community District Needs Related to Parks and Recreational Facilities and Programming

The population density of Community Board 8 makes our parks and greenery a precious commodity. Although our district is adjacent to Central Park, open space in CB8M is woefully inadequate. According to results of a survey by the organization, New Yorkers for Parks, Manhattan's Upper East Side has among the least amount of open space of any New York City district. CB8M's Parks Committee has been working to protect and expand the community's limited parkland. Its on-going major projects include its Open Space initiative, launched in 2013 with a public forum on the Need for Open Space on Manhattan's Upper East Side, and its East River Esplanade project, to renovate and beautify the Esplanade. In addition, the Committee also has been addressing improvement projects in various parks, including Central Park, Ruppert Park, the Queensboro Oval and the Park Avenue Malls. In just the two years since it began, the Committee's Open Space initiative--designed to identify areas that could be converted to parks--has begun to bear fruit: Last year, at the Committee's urging, Hunter College opened its Poses Park to the public on spring, summer and fall weekends. This year, Hunter followed up by expanding public access to this space.

Community District Needs Related to Library Facilities and Programming

For more than a century, the New York Public Library has provided quality service to all New Yorkers. The branch libraries are an important public resource for local residents, especially senior citizens and students. CB8 supports the funding for the expansion of the Roosevelt Island Library branch of the New York Public Library (FY 10 #10 308200704C) and the renovation of the Carnegie Branch Library (FY 09 #7 308200601C). RIOC is discussing alternative spaces with the NY Library, which would be conducive to expansion and more centrally located as the island's population grows. The library budget must be maintained. CB8 urges the Mayor and the City Council to maintain funding for the operating costs to allow the continuation of 6 day a week service at all branches. We also urge increased funding for infrastructure, technological improvements and library materials, particularly increased funding for books, periodicals, and other information resources in all our branch libraries. The system-wide replacement of Checkpoint Book theft Detection System should be completed by 2011 in all branches and central units, costing \$1.2M. Funding should be found to allow libraries to operate at full hours (i.e. 10-5 Monday through Saturday) and expanded evening hours at least twice a week. As sources of information have evolved, the Library has kept pace, offering one of the only free points of access to the internet in New York City. CB8 believes that all New Yorkers should have free opportunities to use electronic resources. Since the recession of 2008, the libraries have become a resource to assist person seeking employment.

Parks, Cultural and other Community Facilities

Capital Requests Related to Parks, Cultural and other Community Facilities

Priority	Agency	Need	Request	Location
