### About the Department of City Planning

The Department of City Planning plans for the strategic growth and development of New York City in collaboration with communities, public officials, and other government agencies. To help build healthier and more equitable neighborhoods, DCP supports public and private investments across the five boroughs. On DCP's website, you will find useful information on the city's population, economy, and physical environment. This includes Population FactFinder, which provides easy access to census data, as well as many other digital tools for New Yorkers to better understand and participate in public land use decision making.
