

HOUSING NEW YORK: Zoning for Quality and Affordability

COMMUNITY DISTRICT PROFILE

Brooklyn CD 10

Basic Residential height changes

PURPOSE: In many instances, changing regulations and building practices have made it difficult to fit floor area already permitted today within existing building envelopes. Current regulations limit design flexibility and can result in buildings that lack the variation and texture of older apartment buildings. The proposal also provides minor increases in height to encourage housing production and increase design flexibility.

APPLICABILITY: Residential development in moderate and high density zoning districts and their commercial district equivalents.

Contextual Districts: Basic Residential changes

- In order to fit all permitted floor area and allow better design, maximum heights would be updated in the contextual districts shaded on the map.

Res. Equiv.	Zoning District	Existing Max Height	Basic Modifications	
			Basic Proposed (Stories)	Basic Height Difference
R6A	C4-2A	70'	75' (7)	5'
	R6A	70'	75' (7)	5'
R6B	R6B	50'	55' (5)	5'
R7A	R7A	80'	85' (8)	5'

Non-Contextual Districts: Basic Residential changes

- In Non-Contextual Districts, buildings have a “Quality Housing option” similar to the Contextual envelope.
- In order to match the Contextual envelope, the Quality Housing option will be updated in the shaded districts.

			Basic Residential Modifications	
Res. Equiv.	Zoning District	Existing Max Height	Basic Proposed (Stories)	Basic Height Difference
R6 (narrow)	C4-2	55'	55' (5)	0'
	R6	55'	55' (5)	0'
R6 (wide)	C4-2	70'	75' (7)	5'
	R6	70'	75' (7)	5'
R7-1 (narrow)	R7-1	75'	75' (7)	0'
R7-1 (wide)	R7-1	80'	85' (8)	5'

* In addition, developments in R6 through R10 districts could use the applicable Quality Housing option envelope.

Affordable Senior Housing height and floor area changes

PURPOSE: Older New Yorkers are a diverse and rapidly growing segment of the city's population. There is an increasing need for a range of housing and long-term care options for our seniors. The proposal encourages greater housing production and a greater variety of residential options for older New Yorkers.

APPLICABILITY: Affordable Independent Residences for Seniors (AIRS) and Long Term Care Facilities (LTCF) in R3-R10 zoning districts and their commercial district equivalents.

Affordable Senior Housing and Long Term Care: Contextual districts

- To fit permitted floor area, maximum heights would be updated in the contextual districts shaded on the map.

Res. Equiv.	Zoning District	Existing Height (stories)	Senior Modifications	
			AIRS and LTCF Proposed (Stories)	AIRS and LTCF Height Difference
R6A	C4-2A	75' (7)	85' (8)	10' (1)
	R6A	75' (7)	85' (8)	10' (1)
R7A	R7A	85' (8)	105' (10)	20' (2)

Affordable Senior Housing and Long Term Care: Non-Contextual districts

- Currently affordable senior housing developments in non-contextual districts may choose between a height factor building, without fixed height maximums, or a Quality Housing option, which creates a contextual envelope.
- Buildings providing affordable senior housing or long-term care facilities would be able to utilize the enhanced Quality Housing envelope applicable for that zoning district.

Transit Zone parking changes

PURPOSE: The cost of providing off-street parking can hamper the production of affordable housing. In transit-accessible neighborhoods, low-income households own many fewer cars, and often don't use the parking that has been provided. The proposal eliminates or reduces parking requirements for a range of affordable and senior housing units.

APPLICABILITY: Affordable and affordable senior housing in moderate and high density zoning districts where car-ownership is low.

Zoning Special Districts and Areas

PURPOSE: Where appropriate, the proposal will modify regulations in special zoning areas to promote the overall goals of the Zoning for Quality and Affordability text amendment. The proposal will not modify regulations that are essential to the character and purpose of the special areas.

APPLICABILITY: Special Districts, Waterfront Areas

Zoning Special Districts

- The **Special Bay Ridge District** is intended to maintain the neighborhood's existing scale and character.

ZQA proposes no changes to the special district's regulations.

ZQA's general changes to the underlying regulations are not modified by the Special District and would be applicable.

These include:

- Modifications to street wall and maximum heights in the R6B, R6A and R7B districts mapped in the Special District
- Provisions for design flexibility (such as court regulations)
- Provisions for constrained lots (such as shallow lot regulations)
- Parking requirements for affordable housing and affordable senior housing

Special Areas

Waterfront Area

Waterfront zoning is intended to maximize the public's access to the city's waterfront resources while enabling appropriate redevelopment along the shoreline. The district includes special regulations for use, bulk and urban design. ZQA proposes the following changes:

- ZR 62-323 – updates regulations for non-profit residences for the elderly to bring in line with rules Citywide for affordable senior housing and care facilities.
- ZR 62-341(d) – updates the base and maximum heights to reflect proposed changes to underlying contextual districts.
- ZR 62-354(f) – updates to the ground floor transparency and use requirements within Waterfront Access Plan to be consistent with rules Citywide.

ZQA's general changes to the underlying regulations which are not modified by Waterfront zoning would be applicable. These include:

- Provisions for design flexibility applicable in R6+ districts (such as court and density factor regulations)
- Provisions for constrained lots applicable in R6+ districts (such as shallow lot regulations)
