Basic Residential height changes

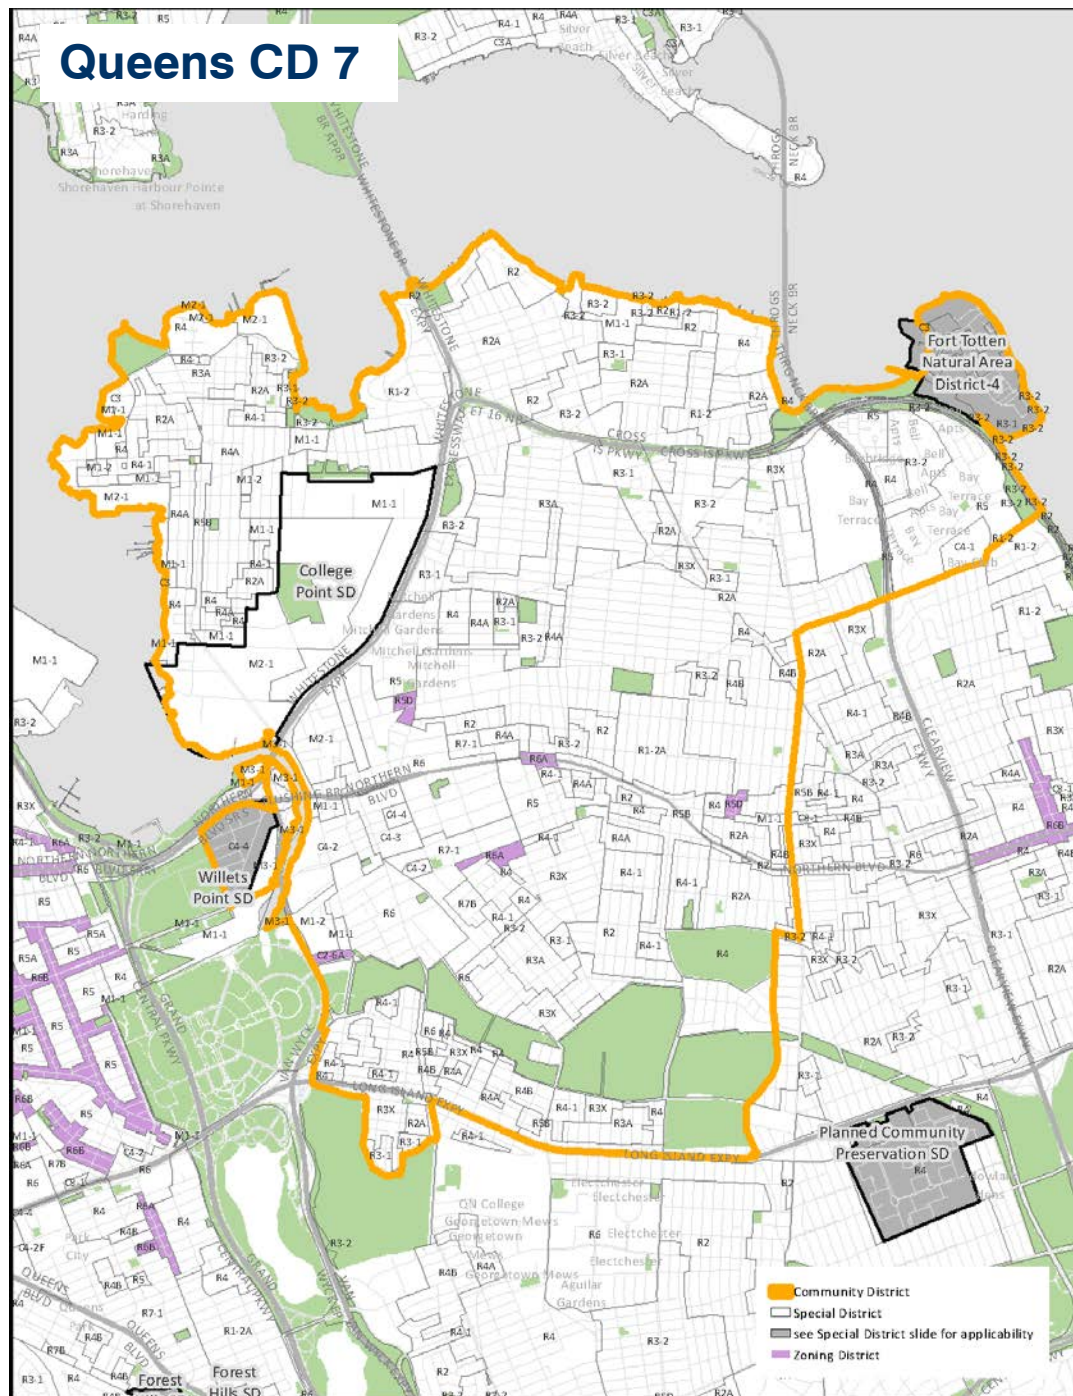

PURPOSE: In many instances, changing regulations and building practices have made it difficult to fit floor area already permitted today within existing building envelopes. Current regulations limit design flexibility and can result in buildings that lack the variation and texture of older apartment buildings. The proposal also provides minor increases in height to encourage housing production and increase design flexibility.

APPLICABILITY: Residential development in moderate and high density zoning districts and their commercial district equivalents.

Contextual Districts: Basic Residential changes

- In order to better accommodate the floor area already permitted today and allow better design, maximum heights would be updated in the contextual districts shaded on the map.

Res. Equiv.	Zoning District	Existing Max Height	Basic Modifications	
			Basic Proposed (Stories)	Basic Height Difference
R5D	R5D	40'	45' (4)	5'
R6A	R6A	70'	75' (7)	5'
R7A	C2-6A	80'	85' (8)	5'

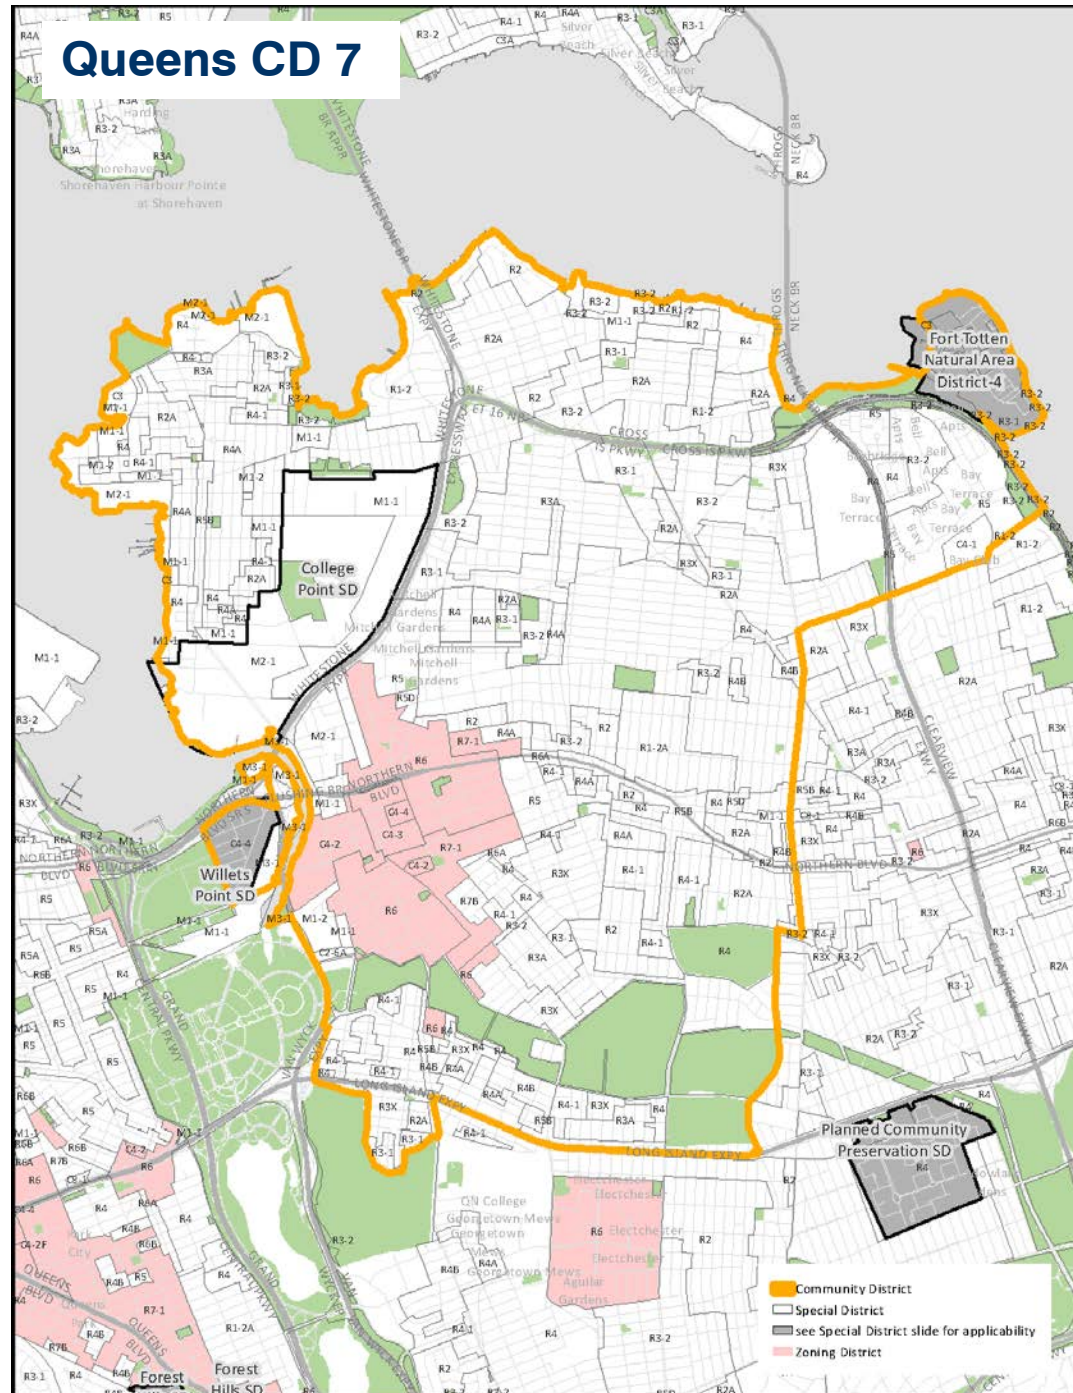

Non-Contextual Districts: Basic Residential changes

- In Non-Contextual Districts, buildings have a “Quality Housing option” similar to the Contextual envelope.
- In order to match the Contextual envelope, the Quality Housing option will be updated in the shaded districts.

			Basic Residential Modifications	
Res. Equiv.	Zoning District	Existing Max Height	Basic Proposed (Stories)	Basic Height Difference
R6 (narrow)	C4-2	55'	55' (5)	0'
	C4-3	55'	55' (5)	0'
R6 (wide)	R6	55'	55' (5)	0'
	C4-2	70'	75' (7)	5'
R7-1 (narrow)	C4-3	70'	75' (7)	5'
	R6	70'	75' (7)	5'
R7-1 (wide)	R7-1	75'	75' (7)	0'
R7-2 (narrow)	R7-1	80'	85' (8)	5'
R7-2 (wide)	C4-4	75'	75' (7)	0'
	C4-4	80'	85' (8)	5'

* In addition, developments in R6 through R10 districts could use the applicable Quality Housing option envelope.

Affordable Senior Housing height and floor area changes

PURPOSE: Older New Yorkers are a diverse and rapidly growing segment of the city's population. There is an increasing need for a range of housing and long-term care options for our seniors. The proposal encourages greater housing production and a greater variety of residential options for older New Yorkers.

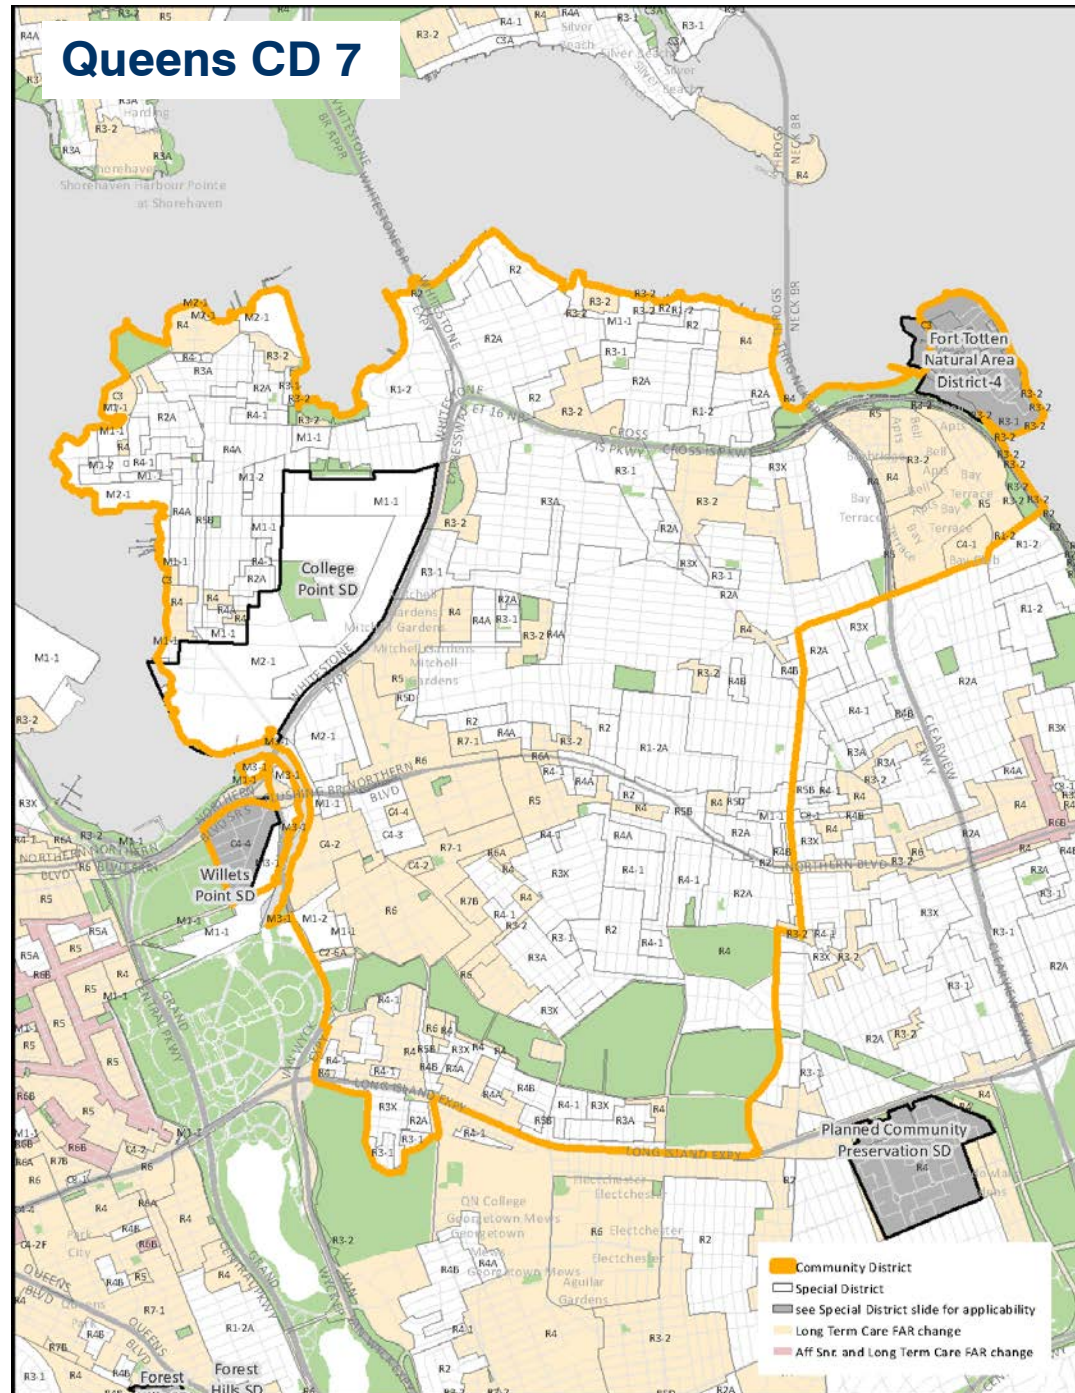

APPLICABILITY: Affordable Independent Residences for Seniors (AIRS) and Long Term Care Facilities (LTCF) in R3-R10 zoning districts and their commercial district equivalents.

Affordable Senior Housing and Long Term Care Floor Area

- Floor area ratio maximums would be updated for certain types of affordable senior housing and long term care facilities in the districts shaded on the map.

Affordable Senior Housing and Long Term Care: Contextual districts

- To better accommodate floor area already permitted today, maximum heights would be updated in the contextual districts shaded on the map.

Res. Equiv.	Zoning District	Existing Height (stories)	Senior Modifications	
			AIRS and LTCF Proposed (Stories)	AIRS and LTCF Height Difference
R6A	R6A	75' (7)	85' (8)	10' (1)
R7A	C2-6A	85' (8)	105' (10)	20' (2)

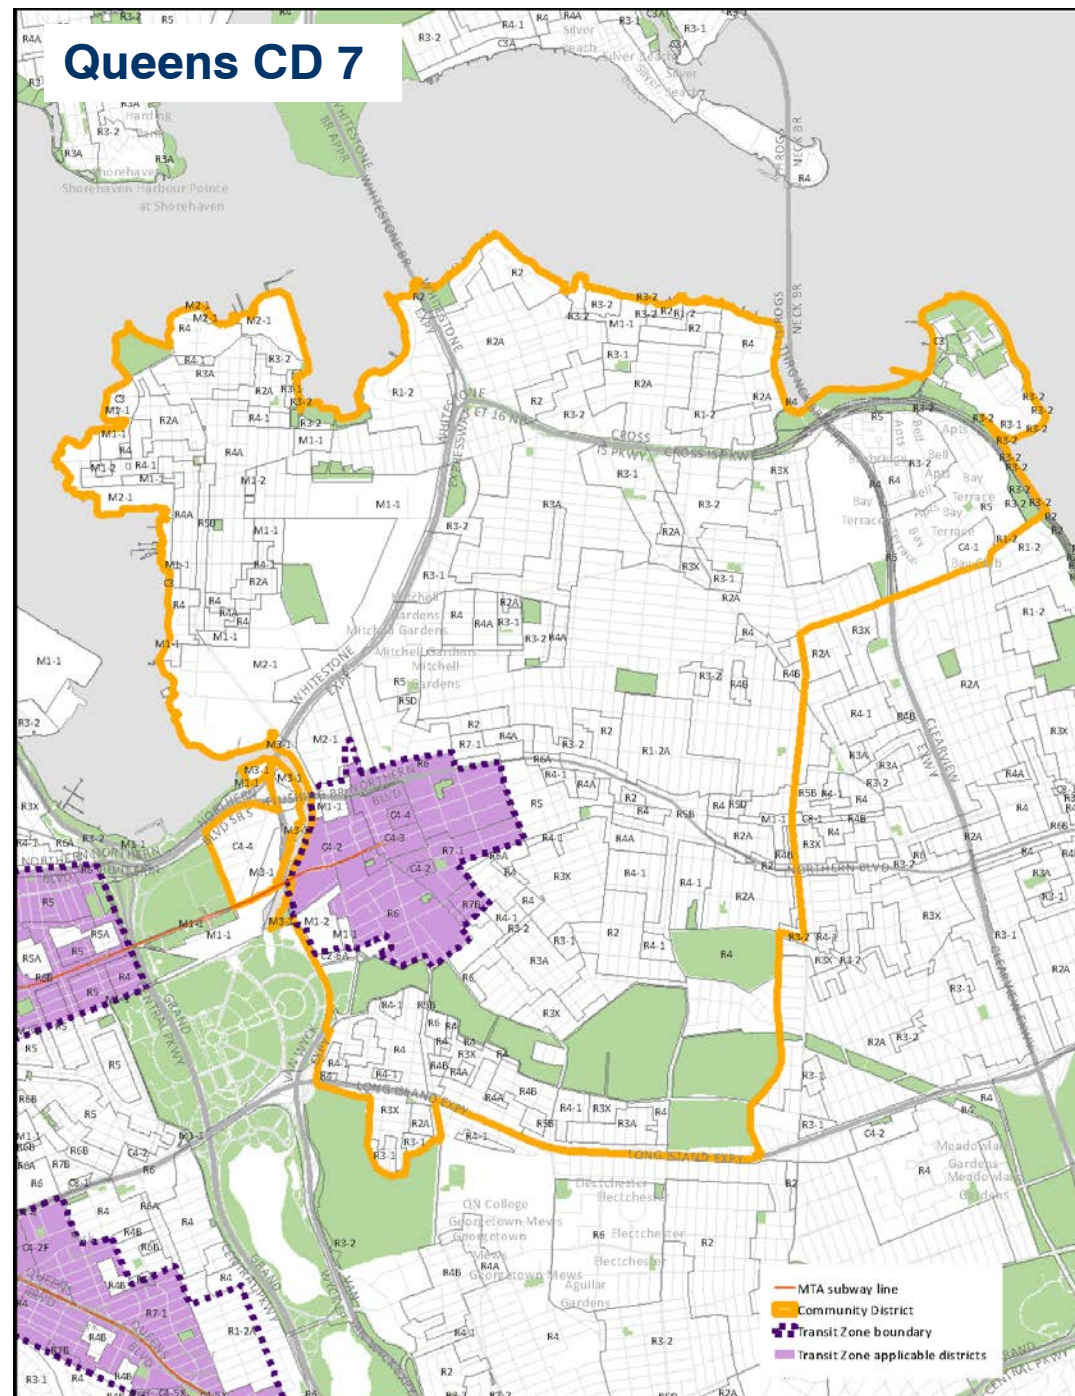

Transit Zone parking changes

PURPOSE: The cost of providing off-street parking can hamper the production of affordable housing. In transit-accessible neighborhoods, low-income households own many fewer cars, and often don't use the parking that has been provided. The proposal eliminates or reduces parking requirements for a range of affordable and senior housing units.

APPLICABILITY: Affordable and affordable senior housing in moderate and high density zoning districts where car-ownership is low.

Transit Zone: Off-street parking requirements

- Portions of Queens CD7 are located in the proposed Transit Zone.
- To encourage senior and affordable housing, parking requirements would be eliminated for new affordable and senior units in the Transit Zone shaded on the map.
- Outside the Transit Zone, parking requirements for new senior and affordable housing will be simplified and in some cases reduced.

Zoning Special Districts and Areas

PURPOSE: Where appropriate, the proposal will modify regulations in special zoning areas to promote the overall goals of the Zoning for Quality and Affordability text amendment. The proposal will not modify regulations that are essential to the character and purpose of the special areas.

APPLICABILITY: Special Districts, Waterfront Areas

Zoning Special Districts

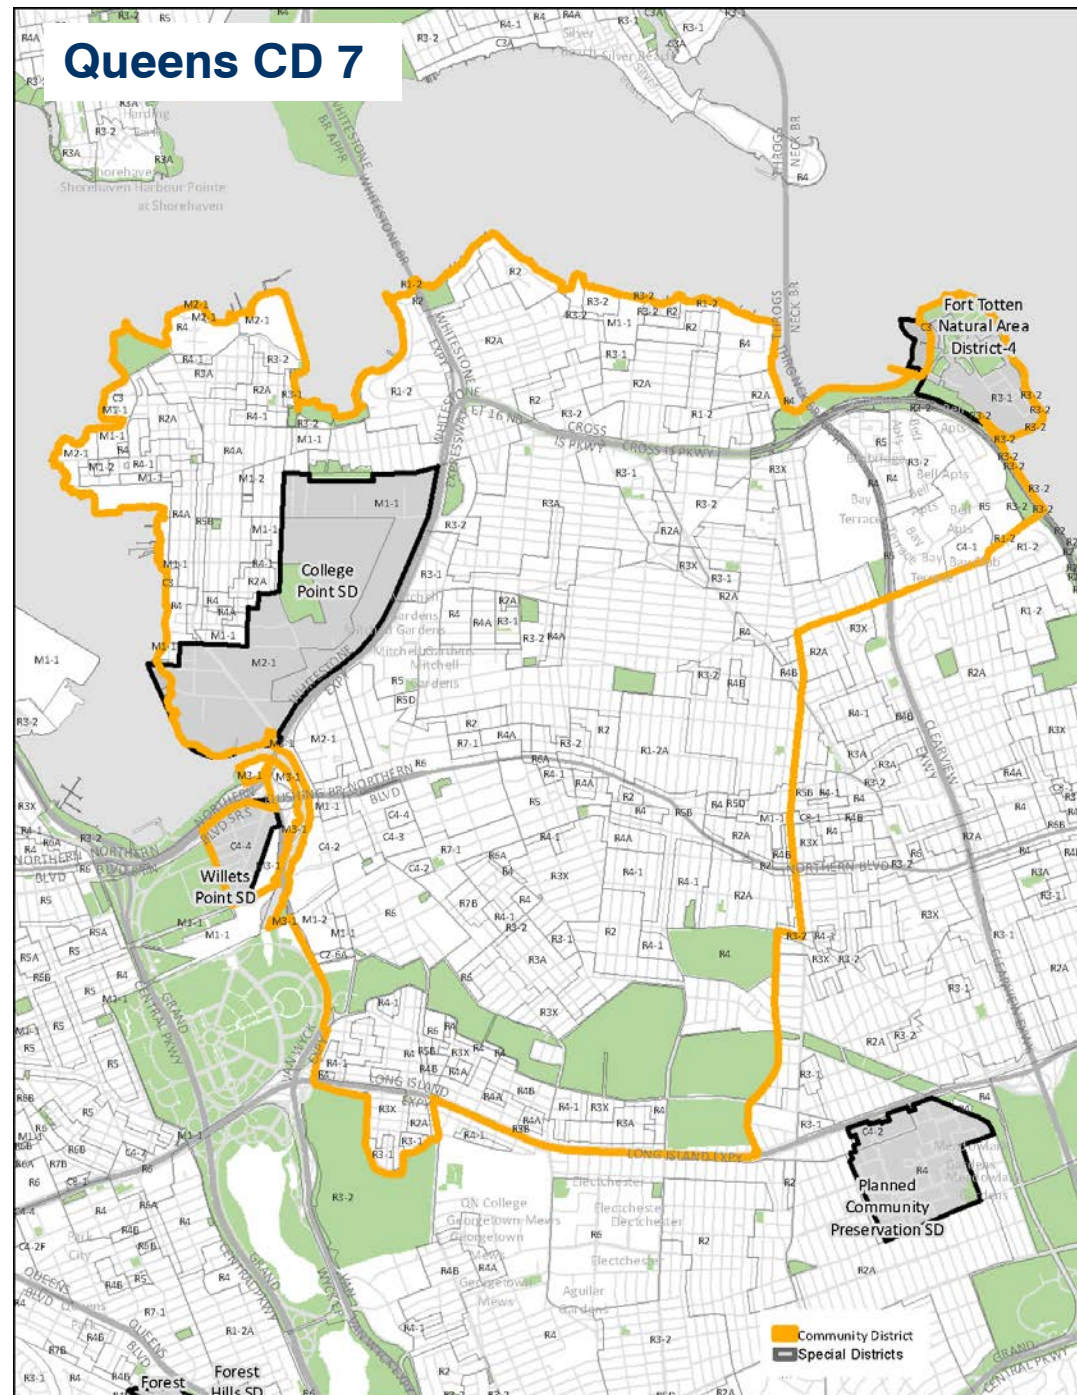

The **Wilets Point Special District** is part of a comprehensive redevelopment strategy aimed at transforming the area into lively, mixed-use community. The district includes special regulations for use, bulk, improvements and parking. ZQA proposes the following changes:

- ZR 124-11 – corrects use location provisions to bring in line with underlying regulations that allow residential and community facility uses on the same floor
- ZR 124-112, -14 – updates to the ground floor transparency and use requirements to bring in line with rules Citywide.
- ZR 124-51 – updates to the special parking design requirements to allow greater flexibility in the location of parking.

All other regulations in the special district would be unchanged. ZQAs general changes to the underlying regulations are not modified by the Special District and would be applicable. These include:

- Provisions for design flexibility applicable in R6+ districts (like court and density factor regulations)
- Provisions for constrained lots applicable in R6+ districts (like shallow lot regulations)
- Parking requirements for affordable housing and affordable senior housing

Community District
Special Districts

Zoning Special Districts

The **College Point Special District** is intended to maintain an attractive well functioning business park and no residential uses are permitted.

ZQA proposes no changes to the special district's regulations.

Special Districts

Zoning Special Districts

The **Natural Area Special District** is intended to guide new development and site alterations in areas endowed with unique natural characteristics. ZQA proposes no changes to the special district's regulations which include special building and site plan regulations. ZQAs general changes to the underlying regulations are not modified by the Special District and would be applicable.

Queens CD 7

Special Areas

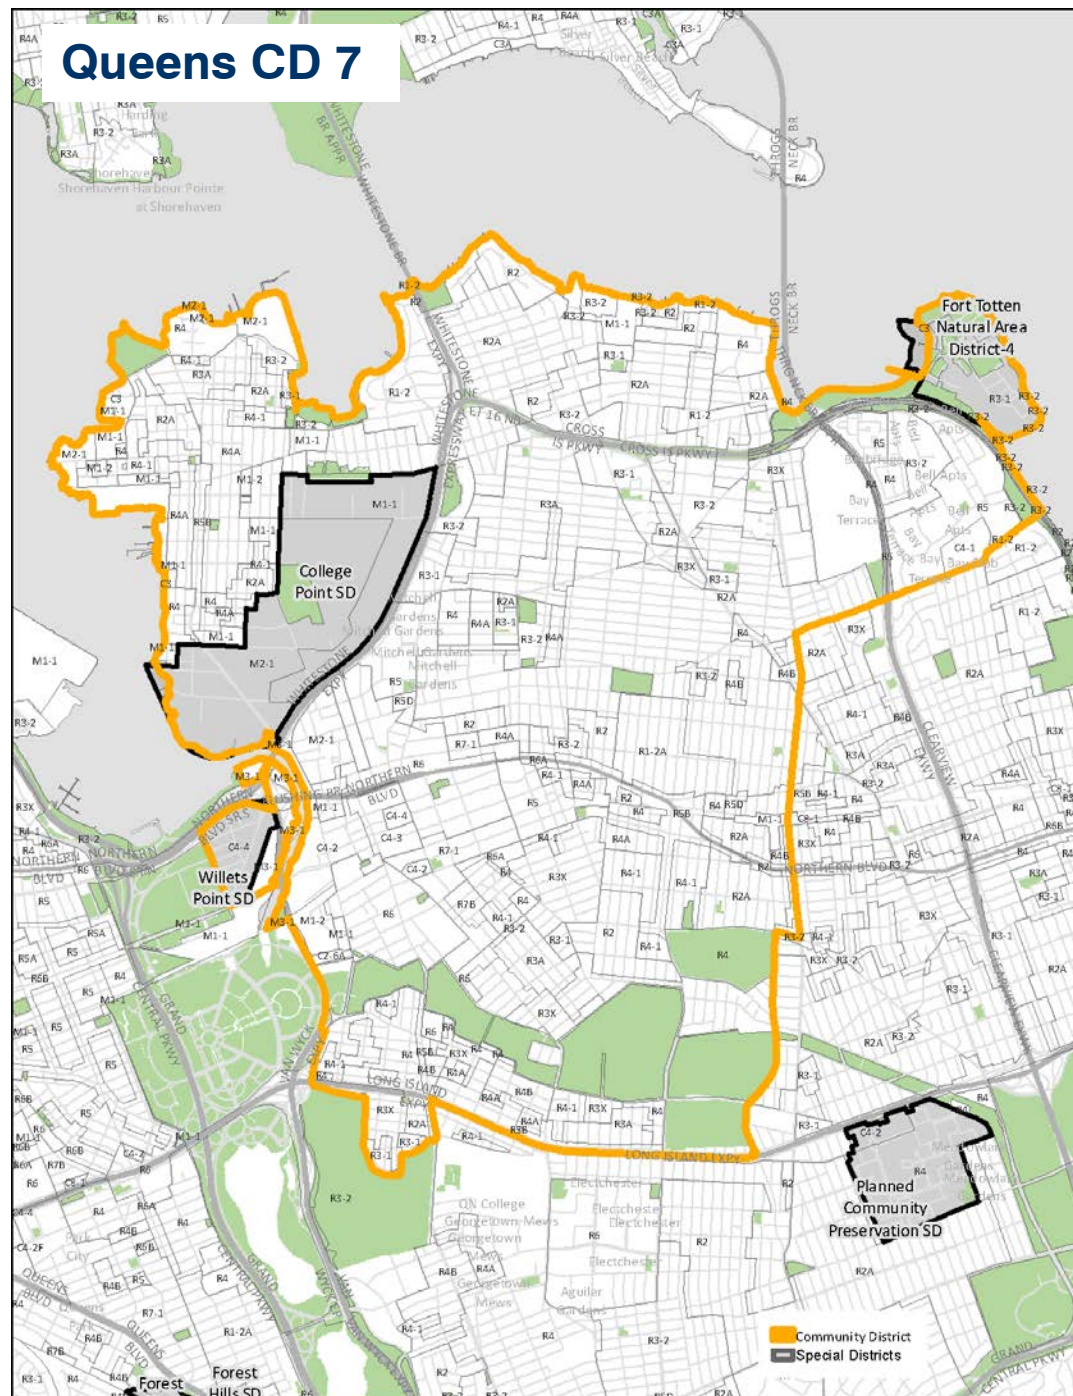

Waterfront Area

Waterfront zoning is intended to maximize the public's access to the city's waterfront resources while enabling appropriate redevelopment along the shoreline. The district includes special regulations for use, bulk and urban design. ZQA proposes the following changes:

- ZR 62-323 – updates regulations for non-profit residences for the elderly to bring in line with rules Citywide for affordable senior housing and care facilities.
- ZR 62-341(d) – updates the base and maximum heights to reflect proposed changes to underlying contextual districts.
- ZR 62-354(f) – updates to the ground floor transparency and use requirements within Waterfront Access Plan to be consistent with rules Citywide.

ZQA's general changes to the underlying regulations which are not modified by Waterfront zoning would be applicable. These include:

- Provisions for design flexibility applicable in R6+ districts (such as court and density factor regulations)
- Provisions for constrained lots applicable in R6+ districts (such as shallow lot regulations)

Other Reference Maps

For informational purposes we are providing reference maps for other areas in this Community District.

Special Areas

Historic Districts

- The proposal will not alter Landmark Preservation Commission (LPC) review of all modifications and new buildings in historic districts. No additional height would be permitted without public input and LPC approval.

Queens CD 7

Special Areas

Flood Zones

- Maximum heights will increase with underlying districts and continue to be measured from the Flood Resistant Construction Elevation (FRCE).
