

## Soundview Park to Ferry Point Park Master Plan, 2000

### Overview:

The overall goal of this project is to enhance and connect linear waterfront parks and open spaces providing local residents and the general public with an opportunity to explore the waterfront from Soundview Park to Ferry Point Park.

More than just a recreational experience for joggers, in-line skaters, and nature lovers, the Soundview and Hutchinson River Greenways will result in new, non-motorized transportation routes. Residents who live and work within the community will have the pleasurable option of travelling on the Greenways, meandering through park land, and

traversing the waterfront.
