AQUEDUCT REDEVELOPMENT

Community Workshop Set 2

**Join us as we continue to imagine
Aqueduct's next chapter!**

The second set of community workshops will reflect on what you shared during the first set, and move into the next round of interactive activities.

During this session, you'll be asked to share how you move through your neighborhood - your walking paths, commutes, and daily routines - what types of housing are important to you, and to weigh in on the site's design elements including streets and open space.
