Mr. Marziliano called to meeting to order. The Committee reviewed items one through 17 on the capital priorities list. See attached update.

Mr. Budabin stated that at next the meeting there should be committee discussion on setting parameters for how long an item is on the list before reevaluating. The Committee also discussed whether items that have already been funded, but the project has not commenced, should remain listed. Mrs. Haider and Mrs. Miller said that long-term items have value to the community, and we need to be judicious about that.

The meeting adjourned.
