QUEENS FAMILIES RECEIVE LATE OR NO PRENATAL CARE

**29%**

QUEENS LOW RISK PREGNANCIES ENDING IN A C-SECTION

**3.4**

QUEENS INFANT DEATHS UNDER 1 YEAR OF AGE

**Mission:** To establish a birth center in Queens, NY that serves as a model of comprehensive, safe, and evidence-based care—setting a new standard of support for new and growing families.

**Vision:** Our vision is a midwifery-led birth center that reflects the diversity of Queens—grounded in cultural humility and accessible to all. We aim to create a comprehensive community hub where families receive the wraparound services they deserve, reducing barriers to care. Together, we are building a future where every family has access to safe, local, and empowering birth and family care options.
