Meeting ID: 259 300 099 997 953
Passcode: yw746Vp7

Cancer screenings save lives.

Join the NYC Health Department
for a presentation on colon
cancer screening and
prevention to raise awareness
about colon cancer.

The presentation will cover:

- Ways to lower cancer risk
- Risk factors
- Screening tests

We can all take action by
learning what steps to take in
reducing colon cancer risk and
detecting cancer early.

For more information, contact healthyaging@health.nyc.gov.

This webinar takes place in English, but ASL and interpretation in
your preferred language are available. For language services,
contact us at least 72 hours before the class.
