Queenssewerscd01@gmail.com

Field Office Address

116-06 Myrtle Avenue, Ste. 301
Richmond Hill, NY 11418

During non-working hours
please call 311 and provide
the Project ID: SEBLQX01

Intent/Scope

To improve safety and accessibility and upgrade essential infrastructure, including sewers and water mains.

Schedule

Winter 2025 - Winter 2027

Work Hours

Mon. - Fri.: 7 AM - 6 PM
Sat. - Sun.: 8 AM - 6 PM
(as necessary)

Construction Cost

\$14 Million

General Contractor

Maspeth Supply Company

R.E.I. Firm

CES Consultants

Management Agency

NYC Department of
Design and Construction (DDC)

Sponsor Agency

NYC Department of
Environmental Protection (DEP)

Project Information

We are reconstructing and upgrading sewers and water mains in the following neighborhoods across Queens: Long Island City, Astoria, Maspeth, East Elmhurst, Glendale, Richmond Hill, Jamaica, South Ozone Park and Rochdale. These upgrades will ensure a stable and secure supply of clean water with improved water pressure. Lead service lines will be replaced with copper. Fire hydrants will be replaced as needed and roadways restored and resurfaced where affected.

Community Outreach

- Advisory Notices will be distributed throughout the affected project work area as necessary, in advance of the anticipated project work.
- For project inquiries, concerns, please reach out to the project contact.

Lisa Alfred, CCL

Queenssewersccl01@gmail.com

Community Impacts

The DDC is committed to maintaining a project work site that is safe and well kept. However, dust, noise, and heavy equipment are common elements of construction and we ask for your patience during the project.

Individuals Needing Accommodations

- If you or someone you know may be uniquely impacted by this project, please contact the project CCL and/or RE, as soon as possible, to make them aware of your situation or concern.

Dust Control

- The contractor will maintain dust control measures by using/spraying water periodically or as needed, to minimize dust that may be produced from the work site.

Service Delivery Coordination

- The DDC staff will coordinate with related agencies and the community during the project to minimize inconveniences. e.g. Trash Collection, etc.

Rodent & Water Bug Control

- Baits are placed within the construction zone as required by the contract for rodent control.
- Specialists perform a Rodent/Water Bug Survey prior to construction.
- A professional specialist installs Rodent/Water Bug Control Stations.

Noise Code Regulations

- Certain operations produce noise, DDC monitors construction operations and works within the DEP Noise Code regulations.
- Certification of Equipment Noise Compliance.
- Noise Compliance Specialist.

Property Damage

- You are advised to contact the DDC and/or the General Contractor (GC), of any property damage that may have occurred as a result of the construction work. If the GC fails to respond within 10 days, you should inform the DDC Construction Director, in writing. If you intend to file a claim, you must do so within 90 days of occurrence with the NYC Comptroller's Office.

Water Service Interruption

- During the course of the project there will be service interruptions. To allow water main replacement, the existing water service must be shut off by closing the valves at either end of the section. Advance notice will be given for all planned interruptions. Water service will be restored at the end of the day.

Traffic Impacts

Traffic Regulations during construction are coordinated with the NYC DOT (OCMC)

- Emergency vehicle access will be maintained at all times.
- Merchant deliveries will be coordinated/allowed.
- Pedestrian access to buildings will be maintained at all times.
- Signs will be posted in advance where necessary in anticipation of any closures or traffic restrictions.

- Street or Travel Lane closures may be required. Detour traffic lane adjustments (maintenance and protection of traffic) may be made to maintain the safety of pedestrians, motorists and bicyclists during construction.
- Bus detour/relocation may be required.

- Driveway access may be temporarily restricted while streets are closed to through-traffic. (Coordination will be arranged on a case-by-case basis.)
- Parking of private vehicles on street, within construction work area is restricted.
- Parking may be temporarily restricted.
- The Contractor will comply with Embargoes, if applicable and as issued by the NYC DOT OCMC.

Zohran K. Mamdani
Mayor
