

70th Street Sewer Upgrades Project

70th Street Sewer Upgrades

DDC completes work at 70th Street.

The New York City Department of Design and Construction (NYCDDC) has substantially completed Project #SE859 - Replacement of Combined Sewers and Water Main in 70th Street.

The enhancement of the project includes upgrades to public utilities like the replacement of water mains, and installation of combined sewer. This also includes the installations of catch basins, and restoration of curbs, sidewalks, and streets. This was a \$101 Million-dollar capital investment project that made upgrades to the water main and sewer systems of this neighborhood to better facilitate the use of these utilities.

Work Completed:

- Micro tunneling Operation
- Completed construction of Special Manholes No. 1 through 8
- Completed installation of Catch Basins
- Completed Watermain and Sewer installation
- Installation of curb, sidewalk, and permanent asphalt placement on:
 - Calamus Avenue
 - 70th and 71st Street
 - 54th Avenue
 - Grand Avenue
 - Mazeau Street between Grand Avenue and Queens Midtown Expressway
 - 69th Street
- Installed 12' x 8' Box Sewer on 69th Street
- Construction of the New Chambers 1 & 2
- Pedestrian ramps reconstruction
- Restoration of sidewalks and streets

Thank you!

The Department of Design and Construction would like to thank the residents, businesses, elected officials, Community Boards 2 and 5 for their cooperation and patience throughout this project as we constructed upgrades to sewers and water main for this community to enjoy.

Project # SE859

Completed Restoration of Roadways – 69th Street between 47th Avenue and Queens Boulevard

Completed Upgrade to Sewer and Restoration of Roadways – 70th Street

Community Construction Liaison (CCL)
