

We're Working Here!

**NYC DOT keeps
NYC moving.
Help keep our
crews safe.**

Be Patient

Milling and paving may temporarily disrupt your routine for a short period of time, but street improvements will last for years to come.

Be Kind

Our crews are delivering a much-needed public service. Treat us like your neighbor. Harassment and physical violence will not be tolerated. Violators can and will be prosecuted.

Be Safe

Crossing into a work zone area can create unsafe conditions for the public and our crews. Asphalt can reach temperatures of over 250 degrees Fahrenheit. Entering a work zone can damage personal property, or roadway, and ultimately delay work.
