

# VETERAN VOICES

## ABOUT THE VETERAN VOICES PROJECT

The Veterans Voices Project, VVP, is an oral history initiative designed by the New York City Department of Veterans' Services' to capture and share the stories of the city's veterans, bridge generational gaps, preserve our city's rich military history, and foster an appreciation for service. More importantly, it gives our veterans a chance to connect with the community and each other.

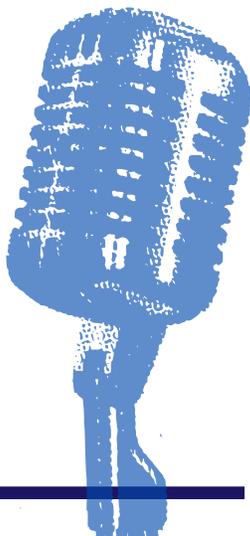

## HOW WE DO THIS:

Artifact, a digital services company, will assign you a story guide who will help you record your history, and pay tribute to those you love. Artifact then edits your conversation into studio-quality episodes. DVS then uploads the recording, delivers it to you, and with your permission to NYC Municipal Archives and the U.S. Congress.

## SHARE YOUR STORY:

If you or someone that you know would like to participate please reach out to [norlando@veterans.nyc.gov](mailto:norlando@veterans.nyc.gov). Learn more about VVP at [nyc.gov/vetvoices](http://nyc.gov/vetvoices).
