

FAITH-BASED ORGANIZATION HOUSING DEVELOPMENT CLASS SERIES

Building Stronger Communities Through Affordable Housing

In recent years NYC has seen increased interest in developing affordable housing on land owned by faith-based organizations (FBOs) and other mission-driven organizations (MDOs).

These series of classes are designed to walk participants step-by-step through the development process and help them establish necessary connections within relevant government agencies.

OUR GOAL

To educate FBOs about the housing development process, explain how City agencies are involved in that process, outline what to expect when working with various City agencies, and provide support and available resources.

WHO SHOULD ATTEND?

Leaders and representatives from faith-based and mission-driven organizations.

WHAT TO EXPECT

Expert presentations, interactive Q&A, resources, and networking opportunities.

YOUR PARTNER IN THE PROCESS

We are here to support you every step of the way.
