BE HEARD

Queens Community Board 2 Annual District Needs Survey

Help shape the future of our district! Your input on local priorities guides how city resources are allocated to our community.

Queens CB2 District Needs Survey flyer and QR code.

Respond Before District Needs Survey Closes

Name what you think are the most pressing issues facing our district and how the city should allocate resources. If you live, work, or own a business in Queens Community Board District 2, this is your opportunity to directly influence the budget process. Survey closes August 31. **If you already responded, please share with at least two relatives, friends, and/or colleagues in the neighborhood—and thank you!**

Influence E-Bike Policy

NYU and NYC DOT are studying the link between e-biking and heart health, and how cycling infrastructure influences the choices you make. They want to better understand where you ride, what feels safe, and what keeps you off the road. Option to sign up to be considered for a paid focus group and/or fitness tracker study for a week this fall.

Identify Crisis Needs in Queens

The Preparedness and Recovery Institute (PRI) and the Queens Resilience Network are asking people who live, work, learn, and spend time in Queens to help identify what makes our communities prepared, safe, and strong. Help shape the Queens Stoop Index and guide future preparedness investments across the borough.

Advance Warning System

Report Property Damage

The NYC Housing Recovery Operations (HRO) has activated the damage report portal for New Yorkers who experienced property damage from the thunderstorms on Thursday, August 20. The City will use responses to report on the impact of the storms to State and Federal agencies and connect eligible New Yorkers to disaster recovery assistance.

Special Land Use Committee Meeting

The Land Use & Housing Committee will hold a special, fully online meeting on September 3, 2026 at 6 pm to deliberate and vote on several rezoning applications and a potential Board of Standards and Appeals (BSA) application. Agenda and Zoom link forthcoming at the meeting entry on our calendar.

CB2 MEETING CALENDAR

ABOUT CB2

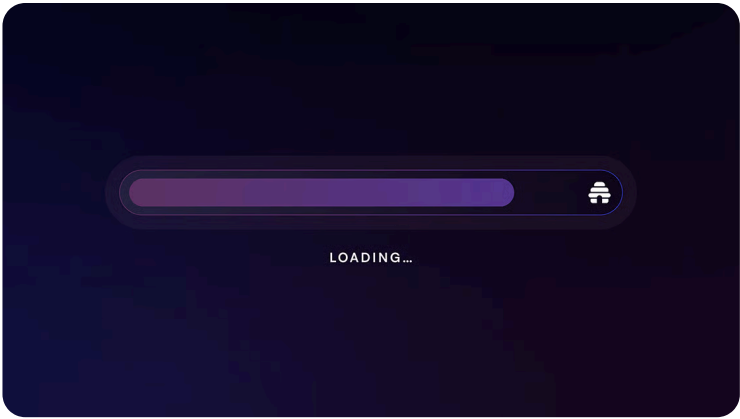

New York City is divided into 59 community districts, each with its own community board. Queens CB2 represents the western edge of the borough, reaching from the East River across Long Island City, Sunnyside, and Woodside, then south into Blissville and part of western Maspeth. The board has up to 50 members, all volunteers who live in, work in, or have other strong ties to the district. A small professional staff runs the district office, helping residents and working with city agencies.

Contact the District Office

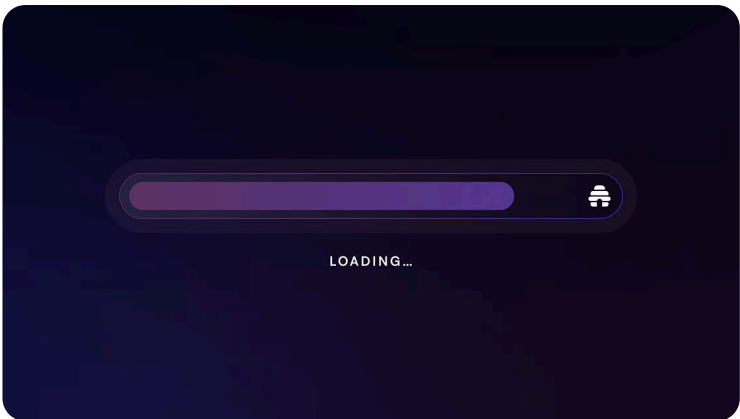

The District Office is where to turn when a city service breaks down. For an unfilled pothole, an unsafe building, a missed pickup, a dangerous crossing, or a persistent noise disturbance, the staff can point you to the right agency and file or track a request. For many problems the first step is to call 311; when a report stalls, the Office can press the agency and help move it along.
