As a result of new policies in New York and a change in Federal rules, Deferred Action for Childhood Arrivals (DACA) recipients are now eligible for subsidized coverage through the Essential Plan (starting August 1, 2024) and Qualified Health Plans (starting November 1, 2024).

Providers and community organizations are important partners in helping DACA recipients find affordable and comprehensive coverage through the Marketplace, including access to tax credits that allow Qualified Health Plan coverage to be more affordable.

How You Can Help

- Inform your staff about this change - especially those interacting with the public like front office staff or outreach workers.
- Conduct outreach to immigrant populations and/or populations who prefer a language other than English.
- Utilize NY State of Health's [Essential Plan Expansion Communications Tool Kit](#) and other materials available on the [NY State of Health website](#).
 - › For example, print fact sheets and display them in your office, or send an email message informing relevant contacts and community partners about the change.
- Reassure this population that information shared with NY State of Health and its enrollment assistors is private. Information individuals share regarding immigration status will only be used to determine health insurance eligibility. It will not be used for any other purpose.
