

Traffic Device Maintainer

Apply now to take the Traffic Device Maintainer exam!

We're looking for hands-on, skilled tradespeople to join our team as Traffic Device Maintainers (TDMs). TDMs keep this city moving by building, installing, and fixing critical transportation infrastructure, such as:

- Traffic signs (including machine shop work and silk screening)
- Parking meters
- Bike racks
- and more

TDMs also operate specialty vehicles and equipment like bucket trucks, paint liners and barrier transfer machines.

Salary starts at \$51,317, with overtime opportunities and raises after years 3, 4 and 5. New York City employees enjoy benefits like generous pension and retirement plans, excellent health benefits including dental and vision coverage, parental and family leave, paid holidays, commuter benefits, union membership, training and professional development, and more.

A high school diploma is not needed – if you have the relevant experience, you are encouraged to apply!

The application period for this exam ends on January 4, 2023, with tests expected to start on April 3, 2023. Learn if you qualify and apply at <https://bit.ly/tdm22>.
