Introduction

This report describes the City's efforts to ensure minority and women-owned businesses have greater access to public contracting opportunities. The reporting period covers program accomplishments for the first and second quarters of Fiscal Year 2016 (July 1, 2015 – December 31, 2015). As per the New York City Administrative Code §6-129(l)1, the report is jointly submitted by the Director of the Mayor's Office of Contract Services (MOCS) as City Chief Procurement Officer and by the Commissioner of the Department of Small Business Services (SBS).

This report summarizes program activity, prime contract, and subcontract utilization data for City-certified Minority and Women-owned Business Enterprises (M/WBEs) and Emerging Business Enterprises (EBEs), as well as additional data specified in Section 6-129 of the New York City Administrative Code. The report covers contracts that were registered and subcontracts approved in the first two quarters of FY 2016, including procurements that were solicited before LL 1 became effective and are subject to LL 129.¹ The City's M/WBE program is administered jointly by SBS and MOCS.

In addition to the requirement that the City find vendors responsible, State law also requires that most contracts be awarded to the lowest responsive bidder or the best proposer. SBS has worked aggressively to expand opportunities for minority and women-owned firms by connecting them to a comprehensive range of programs that provide procurement technical assistance and capacity building support, as well as other resources to help them navigate and compete in the public procurement marketplace. In the first six months of FY 2016 M/WBEs were awarded over \$237.8 million in prime contracts subject to the M/WBE program, and over \$58.5 million in eligible subcontracts.

Expanding the Base of Certified Firms

SBS continues to increase the participation of M/WBE firms in City contracting by expanding its base of certified businesses. During the certification process, a company's ownership and management structure is thoroughly reviewed to ensure the applicant performs the key functions of the business. Minority and women-owned firms who choose not to certify with the City are neither tracked nor measured in the City's performance reporting. To that end, SBS continues to work hard to simplify certification without

¹ LL 1 amended the law that created the City's M/WBE program, LL 129 of 2005. The new law took effect on July 1, 2013.

compromising review standards. The NYC Online Certification Portal (www.nyc.gov/certifyonline) that SBS launched in February 2015 is an online portal enabling M/WBE firms to certify and recertify online, check the status of applications, and update their business profiles to better promote themselves to buyers. In addition to the regular certification workshops, during the reporting period, SBS continued to hold one-on-one certification application review sessions. These sessions helped ensure that firms submitted complete and quality application packages, reduced back and forth and delays, and increased the chances of obtaining certification. During the first six months of FY 2016, SBS conducted 18 certification workshops and application review sessions for 187 businesses.

Various community partners help extend the reach of SBS' certification outreach efforts. Businesses receive assistance in applying for certification from these organizations, including the New York City Council-funded community-based groups that comprise the M/WBE Leadership Association, and the SBS network of Business Solutions Centers located throughout the five boroughs. This helps to ensure a higher quality application, making the submission and the certification review process easier and simpler. Between July 2015 and December 2015, SBS certified 363 new M/WBEs and recertified 157 M/WBEs, bringing the number of City-certified companies to 4,295 as of December 31, 2015. Our community partners help support the business growth of M/WBEs with marketing workshops, networking events, and business development services. During the reporting period, SBS collaborated with local development corporations, trade associations, industry membership organizations, and local chambers of commerce on 75 events to spread the word about the benefits of certification and the range of capacity-building services available citywide to help businesses grow.

Emerging Business Enterprise Program

Local Law 12 of 2006 created the Emerging Business Enterprise ("EBE") program directed at expanding procurement opportunities to disadvantaged businesses. Although similar outreach approaches and capacity-building initiatives were and continue to be undertaken by SBS to successfully implement the M/WBE and EBE programs (SBS often targets potential M/WBE and EBE groups simultaneously), the outcomes of such measures are quite different. Similar to the federal DBE program, eligibility for EBE certification under the City's program requires that applicants satisfy a two prong test of economic disadvantage and social disadvantage. Where social disadvantage is presumed for M/WBEs and further

evaluation of social or economic disadvantage criteria is not required for those individuals, the City's EBE program criteria relies on individual and specific determinations of an applicant's disadvantage. As of December 31, 2015, there are 3 certified EBE companies.

Unlike the M/WBE program, limited participation in the EBE program has made it difficult for City agencies to set goals on contracts. During the reporting period, EBEs were awarded a total of \$361,110 in all types of prime and subcontract awards.

SBS continues to strive towards increasing participation in the EBE program through a wide range of outreach efforts regularly conducted with businesses and community partners. Once increased participation in the EBE program is achieved, City agencies will have sufficient availability of certified EBE firms needed to set feasible contract goals.

Locally-based Enterprise Program

Although the Locally Based Enterprises (LBE) program is not referenced in Administrative Code §6-129, LBE is a certification category administered by SBS and the applicability of the LBE program in City procurement is impacted by the M/WBE program. As set forth in Administrative Code §6-108.1, the LBE program is designed to promote the growth of small construction firms through greater access to contracting opportunities with the City. Generally, the program requires agencies to utilize LBEs as a prime or subcontractor on specific construction contracts. However, the number of contracts subject to the LBE program has substantially decreased in recent years due to other goal-setting programs established by the City, State and federal governments. Under the LBE program rules, contracts are excluded from the program if they are federally or State funded and subject to their requisite goal programs. Federally funded construction projects are generally subject to the Disadvantaged Business Enterprise program and State funded contracts are subject to other goals requirements as well, including Article 15-A of the New York State Executive Law. As many City construction contracts are federally and State funded and subject to subcontracting goals under those programs, they are not covered by the LBE program. With the creation of the City's M/WBE program, M/WBE subcontracting goals are applied to City funded construction contracts in lieu of LBE goals. Accordingly, this further limits the applicability of the LBE requirements. With the support of the Council, we have worked to ensure that M/WBE goal requirements are attached to as many contract opportunities as possible.

During the first two quarters of FY 2016, SBS certified 9 firms as LBEs, bringing the total number of LBE certified firms to 29 as of December 31, 2015. Many of our LBEs are also certified as minority and women-owned businesses and can be considered for targeted subcontracting opportunities on City construction projects with M/WBE goals. During the reporting period, LBEs were awarded over \$1 million in all types of prime and subcontract awards.

Selling to Government

SBS offers selling to government services that help M/WBEs navigate the City's procurement system. Services are provided through a combination of workshops and one-on-one assistance. To be an effective bidder on City contracts, M/WBEs must understand the City's procurement rules, the types of contracts, contract sizes, and how to interpret and respond to solicitations. M/WBEs must also maintain the most up-to-date information on their profile in SBS' Online Directory of Certified Businesses (www.nyc.gov/buycertified) and other City procurement systems. In the first two quarters of FY 2016, SBS worked with 536 companies to help them understand the City's procurement rules, introduce them to NYC government contracting, explain the benefits of certification, and update their contact information and business profiles.

During the reporting period, 186 companies attended SBS' regularly scheduled workshop "Selling to Government", a monthly workshop open to the public that provides firms with the foundational basics of government contracting.

Through SBS' Technical Assistance Program, firms receive one-on-one assistance on submitting the most competitive bids and proposals for City contracting opportunities. In the reporting period, SBS held 122 one-on-one sessions. Additionally, in the first half of FY 2016, 216 companies attended SBS' "Technical Assistance" workshops that provided targeted M/WBE industry groups comprehensive techniques on government contracting.

SBS also works with the New York City Council through the M/WBE Leadership Association to provide certified firms with more capacity-building services, including help applying for loans and surety bonds, preparing bids and proposals, and marketing to both the public and private sector. In the first two quarters

of FY 2016, member organizations sponsored 52 events, provided 561 one-on-one assistance sessions, assisted with 129 loan applications, and awarded 49 loans to M/WBEs.

Capacity Building

SBS administers a set of capacity-building programs and services for M/WBEs and small businesses that are designed to help firms better bid on, win, and perform on City contracts.

Contract Financing helps address the challenges that small businesses have in funding initial expenses, or mobilization costs related to City contracts, such as labor and equipment costs. Short-term working capital loans are available to firms that are awarded City contracts through partnerships with New York Business Development Corporation and Business Outreach Center Capital. In the first half of FY 2016, SBS facilitated twenty loans totaling \$900,000 to 6 firms.

Bond Readiness provides M/WBE certified construction and trade companies with financial management skills to help them secure or increase surety bonds necessary to compete on City contracts. The program provides eight months of classroom training and one-on-one assistance, as well as introductions to a network of surety agents. Firms are encouraged to bid on City contract opportunities where appropriate. To date the program has graduated three cohorts of 109 participants from 101 unique firms. 38 firms were enrolled in the 2015-16 cohort that started in October 2015 and has an expected graduation date of May 2016.

NYC Construction Mentorship provides certified construction firms with greater access to City construction opportunities. Each firm receives eight months of classroom instruction and one-on-one mentorship, a business assessment, and a custom growth plan for their business. Firms are encouraged to bid on City contract opportunities where appropriate and are provided guidance by MOCS and City agency personnel who serve as subject matter experts. To date, the program has graduated three cohorts of 91 participants from 91 unique firms. 36 firms were enrolled in the 2015-16 cohort that started in October 2015 and has an expected graduation date of May 2016.

Through **NYC Teaming**, M/WBEs and other small businesses learn how to partner with other firms in order to be able to bid on larger or new market contract opportunities. In partnership with American Express OPEN, the division of American Express that provides assistance to small business owners, SBS offers a

series of workshops and webinars that review different types of teaming arrangements, financial and legal issues, responding to RFPs and bids, and marketing to potential partners. The series culminates in a matchmaking event that facilitates industry-specific networking, brings firms together with City agency procurement representatives and prime contractors, and provides open RFPs and bids for participants to review with potential partners. In the reporting period, SBS held two workshops attended by a total of 53 participants.

The **Corporate Alliance Program (CAP)** helps connect firms with contracting opportunities in the private sector in collaboration with 13 corporate partners. Becoming a supplier to a large corporation is a major step forward for any small business, providing not only income but credibility, stability, and business relationships that come with experience. With its CAP partners, SBS offers a workshop series that addresses key issues small businesses face when trying to break into the corporate supply chain. During the reporting period, CAP held three workshops as part of the Navigating the Corporate Supply Chain workshops series that instructed a total of 73 firms about corporate procurement and contracting opportunities. Additionally, two learning seminars were conducted for the 11 mentees and 8 mentors in the CAP/NYCEO M/WBE Mentorship Program for goods and services firms. This first cohort graduated in February 2016, and the second cohort is expected to begin in March 2016.

Strategic Steps for Growth is a nine-month executive education program designed for M/WBEs, offered in partnership with the Berkley Center for Entrepreneurship & Innovation at the NYU Stern School of Business. An industry-specific class is also offered for business owners in the media, entertainment, and technology fields. The program provides participants with a new professional network, including business experts, university professors, and other business owners, and offers guidance for every aspect of business operations as well as a focus on capacity-building for City and government contract opportunities for the enrolled M/WBEs and on private-sector opportunities for the enrolled media & entertainment firms. Participants learn the strategic skills needed to run a growing company and create a custom, three-year growth plan for their businesses. In the reporting period, twelve M/WBE firms are participating in the 2015-16 cohort, and have completed four of the thirteen total class sessions.

SBS and the Department of Housing Preservation and Development (HPD) are co-sponsors of HPD's new initiative, the **HPD Building Opportunity Program**, which aims to help M/WBE developers refine their skills, gather the information needed to navigate the complex arena of real estate development, connect them to

HPD and SBS resources, and ultimately compete for and execute HPD and other affordable housing real estate development projects. Twenty-eight firms graduated from the 2014-15 cohort of the HPD Building Opportunity Program in April 2015. Twenty-two M/WBEs and twelve non-profit organizations were enrolled in the 2015-16 cohort which began in October 2015 and has an expected graduation date of May 2016.

Program Compliance

To ensure that all agency staff responsible for purchasing activities are familiar with the M/WBE program and their agency's goals, SBS and MOCS conduct monthly agency training sessions at the Citywide Training Center and specific trainings at agency offices. During the first two quarters of FY 2016, 149 procurement professionals from 26 agencies attended seven training sessions. The topics included Local Law 1 implementation, strategies and best practices used to identify M/WBEs for contract opportunities, Online Directory training, and enhancing M/WBE procedures in all contract areas.

In the reporting period, SBS finalized the compliance audit of 5% of prime contracts subject to participation goals awarded in FY 2014, and 5% of subcontracts awarded to M/WBE firms during the same period. Twelve prime contracts and ten subcontracts were audited for the FY 2014 period. The findings from the audits were reviewed and shared with the selected agencies to ensure continued compliance with the program requirements by both City agencies and prime contractors.

As required by the law, in the reporting period, M/WBE Director Maya Wiley, held two quarterly compliance meetings with agency commissioners and M/WBE officers, to discuss utilization and agency initiatives to increase M/WBE performance. The first meeting was held on September 24, 2015, and was attended by 56 staff members representing 26 agencies. The second quarterly meeting was held on December 17, 2015, and was attended by 47 staff members representing 25 agencies.

Qualified Joint Venture Agreements

During the first two quarters of FY 2016, three certified companies participated in two joint venture agreements, in which the percentage of profit of the M/WBE partners exceeded 25% of the total profit. The joint ventures were awarded two contracts subject to the M/WBE program.

Contract Industry	Total Contract Value	Number of Contracts	Ethnicity	Value to M/WBE	Percent
Professional Services	\$12,000,000	1	MBE - Black	\$9,600,000	80%
			MBE - Asian	\$2,400,000	20%
Professional Services	\$12,000,000	1	MBE - Asian	\$8,400,000	70%

Efforts to Reduce or Eliminate Barriers to Competition

Since the implementation of the M/WBE program, the City continues to undertake a number of efforts to reduce barriers for M/WBEs and small businesses that are competing for contracts and currently doing business with the City. As mentioned above, SBS is operating a bond readiness program to help firms secure surety bonds for larger City construction projects, and recruited a fourth class for this program in the reporting period.

To make it easier to do business with the City, agencies are required to post all solicitation materials through the City Record Online, allowing vendors to identify opportunities and download relevant materials from one online location. SBS also continues to assist companies with expediting their payment requests from prime contractors and City agencies.

Prime Contract M/WBE Utilization

Table 1 below summarizes prime contracts awarded by City agencies during the first and second quarters of FY 2016. M/WBEs were awarded over \$237.8 million in prime contracts amounting to 11% of all such awards during this reporting period. The prime contracts in this table include industries and awards pursuant to methods subject to the M/WBE program.

Table 1 - FY 2016 Q1 to Q2 - Prime Contracts Utilization by Industry					
Industry/Size Group	M/WBE			Total	
	Count	Contract Value	%	Count	Contract Value
Construction Services	1,689	\$84,663,610	10%	3,992	\$888,811,380

>\$25M	0	\$0	0%	20	\$690,378,419

Agencies are not required to apply participation requirements to certain types of contracts. See, NYC Administrative Code § 6-129(q) (1)-(7). Table 1 above and the subsequent discussion of M/WBE performance includes those contracts that have been counted towards the City's M/WBE program.

As required by §6-129 of the Administrative Code, the M/WBE performance data (see Appendices – Tables A - J) is summarized separately for each of the following categories: MBE, WBE, minority women (certified as both MBE and WBE), and total M/WBE. MBEs include all minority-owned businesses, regardless of gender. WBEs include all women-owned businesses regardless of race.

In those areas of procurement where agencies have greater discretion to target procurements to M/WBEs, (i.e., micro purchases and small purchases), M/WBE utilization remains strong. In July of 2013, the Procurement Policy Board changed the micro purchase level from \$5,000 to \$20,000, increasing the value of contracts that agencies may award without competition. In the first and second quarters of FY 2016, M/WBEs were awarded over \$14.6 million worth of micro purchases, or 27% of the dollar value of all such awards. Additionally, for small purchases (purchases valued between \$20,000 and \$100,000) the M/WBE utilization rate was 30% of the dollar value of all such awards (over \$10.7 million awarded).

A total of 13,163 prime contracts were awarded during the first and second quarters of FY 2016. M/WBE utilization on prime contracts during the reporting period is detailed below. Highlights include M/WBEs being awarded:

- 19% of the value of contract awards valued between \$100,000 and at or below \$1 million (over \$12 million);
- 15% of the value of contract awards valued between \$1 million and at or below \$5 million (over \$48.3 million); and
- 15% of the value of contract awards valued between \$5 million and at or below \$25 million (nearly \$152 million).

Agency-by-agency and certification category details corresponding to Table 1 above are included in the Appendices to this report (Tables A - B).

Most prime contracts reflected in the data (except the professional services contracts, for example) are required by New York State law to be procured via competitive sealed bid. Under General Municipal Law

(GML) § 103, agencies must, for the majority of the contracts covered by the program, accept the lowest responsible bid and may not give a bidder preference because of its M/WBE status. City agencies' efforts to achieve their M/WBE participation goals through prime contract awards are thus limited to such means as increased outreach and training aimed at encouraging M/WBEs to bid successfully on various procurements. Even for procurements not covered by GML § 103, such as professional services contracts, GML § 104-b precludes agencies from pursuing social policy goals unrelated to the procurement of goods and services, including M/WBE status. Thus, the citywide goals for prime contract awards must be viewed as aspirational, and agencies' performance may only be evaluated in terms of their efforts to make progress toward achieving the goals in light of the limited tools available to them for that purpose.

Prime Contracts with M/WBE Participation Goals

Under the M/WBE program, larger prime contracts with anticipated subcontracting are subject to participation goals and must be reported on pursuant to §6-129(l)(b)(i). During the reporting period, agencies awarded 184 new prime contracts subject to M/WBE participation requirements with 13 percent of the value of those awards made to certified M/WBE firms.

Subcontract M/WBE Utilization

M/WBE utilization with respect to approved subcontracts during the reporting period is demonstrated in Table 2 below. As shown, of the 753 approved subcontracts related to contracts subject to the program, 337 were awarded to M/WBE firms. The approved subcontracts awarded to M/WBEs amounted to over \$58.5 million and represent 30% of the value of all qualifying subcontracts. For more details, see Appendices – Table G - J.

Table 2 - FY 2016 Q1 to Q2 - Subcontracts Utilization by Industry

Industry/Size Group	M/WBE			Total	
	Count	Value	%	Count	Value

>\$100K, <=\$1M	3	\$1,650,000	55%	6	\$2,973,000
Total	337	\$58,585,060	30%	753	\$192,866,624

Waivers

A vendor that plans to submit a bid or proposal in response to a solicitation for a contract that is subject to M/WBE participation goals may seek to request a reduction in the goals by filing a waiver request with the contracting agency during the pre-bid or pre-proposal stage. The agency and MOCS then evaluate the extent to which the vendor's business model and subcontracting history is consistent with this request. In order to qualify for a waiver, a vendor must show both the capacity to execute the contract with less subcontracting than projected and legitimate business reasons to do so. A vendor that receives a full waiver has demonstrated that they would be able to fully self-perform the contract without using subcontractors if awarded the contract. A vendor that obtains a partial waiver has demonstrated that they will subcontract at a lower amount than the participation goal established by the agency.

During the reporting period, vendors sought a total of 67 requests for waivers of the M/WBE participation requirements. Of those requests, 17 were denied, while 19 were approved as full waivers and 31 were

approved as partial waivers, see Appendices – Table K. Since waivers may be granted only to vendors that demonstrate both the capacity to perform the prime contract without subcontracting and a prior contracting history of doing similar work without subcontracting, some of the waivers that were granted involved repeated requests from the same firms, as they sought multiple bidding opportunities. Thus, the 50 full and partial waivers were granted to a total of only 26 individual firms. Waivers are determined during the pre-bid stage of the procurement. Thus, most of the vendors that received waivers did not ultimately win the contracts for which they were competing.

During the reporting period, a total of 18 contracts were registered where a winning vendor obtained either a full or partial waiver of the total participation goal. For more details, see Appendices – Table L.

Large-Scale Procurement Approvals

Prior to soliciting procurements with an anticipated value of over \$10 million, City agencies are required to seek MOCS approval to determine whether it is practicable to divide the proposed contract into smaller contracts and whether doing so would enhance competition among M/WBEs. During the reporting period, there were 94 registered contracts for which MOCS conducted large-scale procurement reviews. A full list is shown in Appendices Table M. The value of the 94 approved contracts shown in Appendices Table M is over \$2.1 billion.

Over 53% of the value of the large scale approvals in the first and second quarters of FY 2016 were either single indivisible projects or multiple sites. These approvals were for projects in which separate and smaller contracts would not enhance M/WBE opportunities. For more details, see Appendices – Table M.

Complaints, Modifications and Noncompliance

There were no complaints, modifications or findings of noncompliance during the reporting period.

APPENDIX - MINORITY AND WOMEN-OWNED BUSINESS ENTERPRISE (M/WBE) PROGRAM – First and Second Quarters of Fiscal Year 2016

Appendix List of Tables
