

LAND USE MEETING

JUNE 5, 2013

7:00 P.M.

BOROUGH HALL, RM. 125.

AGENDA

Borough President James Molinaro will be hosting a Land Use Meeting in conjunction with the Land Use Committees of Community Board's #1, #2 and #3.

The Department of City Planning will be making a presentation on the Department of City Planning Zoning Text Amendment No. N 130331 ZRY – Flood Resilience Zoning Text Amendment.

The zoning text amendment is to enable flood-resilient building construction throughout designated flood zones. The proposal is needed in order to remove regulatory barriers that would hinder or prevent the reconstruction of properties damaged by Hurricane Sandy. It is also needed to enable new and existing buildings to comply with new, higher flood elevations issued by the Federal Emergency Management Agency, and to new requirements in the Building Code.
