Guests

Mariya Borodina, NYS DOT R-11
Agyenim Oti NYS DOT R-11
Amir Siddiqui, SIMCO Engineering
Syed Parvez, SIMCO Engineering
Carol Donovan, Richmondtown-Clarke Avenue Civic Association

Public Contact

Carol Donovan spoke about the projected Arthur Kill Road Widening project. She said the community is not in favor of the project.

Agenda

The New York State Department of Transportation (NYSDOT) is progressing a capital project to rehabilitate the northbound and southbound bridge structures carrying the West Shore Expressway over Woodrow Road (Project PIN X096.34). The scope of this project includes the replacement of the bridge deck and approaches, structural repairs as well as replacement of various elements including barriers, lighting and signage.

Project Purpose and Objectives

- **Improve** the overall condition of the bridge structures
- **Preserve** and **prolong** the service life of the bridge structures
- **Reduce** the need for future maintenance repairs on the bridge structures for many years, including associated lane closures necessary to perform maintenance or emergency repairs

- **Reduce** the life cycle maintenance costs for the bridge structures
- **Enhance** the safety of the traveling public

Discussion

There was much concern regarding the duration of the project. It was also requested that the work take place in the overnight hours as this is a heavily trafficked road during rush hours.

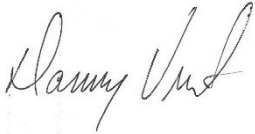

Old Business

None

New Business

- MTA/SIRR – stretch of tracks needs cleaning.
- Richmond Hill Road Westbound at Forest Hill Road, needs a left turn arrow
- Arthur Kill Road northbound at Ellis Street needs a left turn arrow

Respectfully submitted,
