Agenda

Robert Olivari and Jennifer Rodriguez from Con Edison received questions from the committee regarding wires, poles, transformers, infrastructure, and connection with Battery Energy Storage Systems. Some concerns were raised regarding low-hanging wires and leaning poles. They will research these issues and respond to the committee. Additionally, Jennifer attends most of the events held by our elected officials and educates the public on various topics such as HEAP and other cost-reduction measures.

Old Business

- Regarding a topic that was previously discussed, the paint that is being used in the bus lanes is flaking away.
