**INCOME AND EXPENSE SCHEDULE FOR
COOPERATIVE AND CONDOMINIUM PROPERTY**
FORM TC203 INSTRUCTIONS FOR 2026/27

**TC203INS
2026/27**

Attachment to application. Form TC203, is an attachment to an application for correction for class two or four cooperatives and condominiums, which must be filed by March 2. It is not valid if submitted separately. If the assessed value is \$750,000 or more and Form TC203 is not available in time to attach to the original application, it must be attached to a supplemental application, Form TC150, and filed between March 2 and 24, 2026.

Who should use this form? Use Form TC203 to report income and expenses from operation of residential, commercial and mixed-use condominium properties and cooperatives, including cooperative corporations owning and operating one or more residential condominium units (cond-ops).

Form TC203 should not be used by a sponsor of a cooperative or condominium who still holds all the units. If the sponsor operated the property as a rental last year, use Form TC201.

What income and expenses should be reported? Report all operating income received or accrued by the cooperative or condominium in connection with the property. Report only actual operating expenses. Do not report projections or reserves. Income from unit owners must be segregated from outside income. A copy of the condo's or coop's financial statement is not an acceptable substitute for a completed Form TC203. Income from leases of commercial space with the sponsor or a related person must be itemized in Part 8. Income and expenses should be reported to the nearest whole dollar amount for 2025. If you use a fiscal year, report figures for the most recent fiscal year ending on or before December 31, 2025. If 2025 information is unavailable, the Tax Commission will accept income and expense information for 2024 but only if 2024 information was not reported with an application for correction of assessment filed in 2025.

Part 3 - Units owned by the coop or condo. If the coop or condo owns units other than a superintendent's apartment, specify the number of occupied and vacant residential units and the number of occupied and vacant commercial units. Any income from renting these units must be reported in Part 8. They should not be counted as unsold units in Part 4.

Part 4 - Sponsor information. Part 4 calls for information about monthly rents from units held by the sponsor or other holder of unsold units. This information must be provided to the best of the applicant's knowledge and must be the most recent information available. Part 4 may be completed and submitted at the hearing, attached to Form TC159. When available, a detailed rent roll of the unsold units should be submitted. Rents for unsold units may be available from filings with the Attorney General or DHCR, information supplied in connection with mortgage applications or information disclosed in litigation against the sponsor. However, your application may be reviewed without that information if you show that the information cannot be

obtained and is not material, for example, if the sponsor holds fewer than **15%** of the units or the unsold units are in a different tax class from the units under review. **In any event, the applicant must state the number of unsold units.**

Part 5 - Cooperative corporation shares allocated to professional/commercial space. If information regarding the number of shares allocated to professional or other nonresidential units is not available by the March filing deadline, it may be submitted at the hearing, attached to Form TC159.

Part 6 – Total rental and other income. Part 6 must be complete at the time Form TC203 is filed to report total rental and non-rental income, and cannot be submitted at the hearing.

Do not straight-line lease rent. In reporting rental income in Part 6 on the accrual basis where the reporting entity's leases provide scheduled increases in rent, do not straight-line rental income as may be required by Financial Accounting Standard No. 13.

Part 7 - Amortization. Amortized costs of common area improvements having a useful life of more than one year may be included as other expenses in Part 7, if you itemize these amortized costs on an attachment and the amount is amortized over the useful life of the item. Common area improvements include replacements of the existing building components, major repairs, and installation of safety and health systems. Examples of replacement costs are replacements of boilers, roofs, elevators, and residential kitchen appliances and cabinets. Examples of safety and health systems are brick pointing, fire safety systems, and environmental remediation.

Parts 8 and 9 - Itemizing rental and other income. Rental income from commercial and residential space must be itemized in Part 8 by area, use and by master or direct lease and must be consistent with the information reported in Part 5. Other non-rental income must be itemized in Part 9. Parts 8 and 9 may be submitted at the hearing attached to Form TC159.

DEFINITIONS

Related persons. Related persons include individuals related by blood, marriage or adoption, individuals and the business entities they control, business entities under common control, and fiduciaries and the beneficiaries for whom they act. A person includes a corporation or other business entity.

Floor area. Where gross floor area is called for in Part 8, state the approximate gross floor area, to the best of your knowledge and ability. The measurement should be from exterior wall to exterior wall for each floor.
