

# TLC OpenData Mine – Date-Sensitive Search Using One or More Filters (using a search on ‘Medallion Vehicles – Authorized’ dataset list)

The Medallion Vehicles – Authorized list is a list that contains historical data. In order to determine whether a particular medallion appears on the active list for the current day, first locate the dark blue ‘Filter’ button as shown below.

The screenshot shows the NYC OpenData interface for the 'Medallion Vehicles – Authorized' dataset. At the top, there is a banner for '1100+ Datasets Available'. Below the header, a search bar is present with the text 'Find in this Dataset'. The main content area features a toolbar with several interactive buttons: 'Manage', 'More Views', 'Filter', 'Visualize', 'Export', 'Discuss', 'Embed', and 'About'. A yellow arrow points to the 'Filter' button, which is circled in orange. Below the toolbar is a table with the following columns: License Number, Name, Type, Current Status, and DMV License. The table contains 23 rows of data, all of which are 'MEDALLION' vehicles with a 'CUR' status.

Next, click where it says “Add a New Filter Condition”.

The screenshot shows the NYC OpenData website interface. At the top, there is a logo for "NYC OpenData" and a yellow banner that says "1100+ Datasets Available". Below the banner, there is a search bar and a navigation menu with icons for Manage, More Views, Filter, Visualize, Export, Discuss, Embed, and About. The main content area displays a table with columns for License Number, Name, and Type. The table lists various taxi companies and their license numbers. On the right side, a "Filter" panel is open, showing options for "Sort & Roll-Up" and "Filter". The "Filter" section contains the text "Filter this dataset based on contents." and "No conditions defined yet." Below this text is a button labeled "+ Add a New Filter Condition", which is circled in orange. A yellow arrow points from the table area towards this button. At the bottom of the page, there is a footer with the text "© 2013 The City of New York" and links for "Contact Us", "FAQs", "Privacy Statement", "Terms of Use", and "Site Map".

You should now see an empty text box with an empty unchecked check-box next to it. Click on the blue-colored text labeled, "License Number" if you would like to apply a filter for something other than the medallion license number.

The screenshot shows the NYC OpenData interface for the 'Medallion' dataset. At the top, there is a banner for '1100+ Datasets Available'. The dataset description states: 'This list contains information on the status of current medallion vehicles authorized to operate in New York City.' The interface includes a search bar, social media icons, and a toolbar with options like 'Manage', 'More Views', 'Filter', 'Visualize', 'Export', 'Discuss', 'Embed', and 'About'. A table with columns 'License Number', 'Name', and 'Type' is displayed. A yellow arrow points to the 'License Number' column header. On the right, a 'Filter' panel is open, showing a dropdown menu with 'License Number' selected and circled in orange. Below the dropdown is an empty text input field and an unchecked checkbox. A button '+ Add a New Filter Condition' is visible. At the bottom of the page, there is a footer with copyright information and links for 'Contact Us', 'FAQs', 'Privacy Statement', 'Terms of Use', and 'Site Map'.

You will now see a pop-up box that contains a listing of column names that you can use to filter the list. In this example, we want to look for a particular medallion license number, so select “License Number”, if it wasn’t selected already, and then click outside of the pop-up box to close that box.

The screenshot shows the NYC OpenData interface for the 'Medallion' dataset. At the top, there is a logo for 'NYC OpenData' and a badge indicating '1100+ Datasets Available'. Below the header, there is a search bar and a table of data. The table has columns for 'License Number', 'Name', and 'Type'. A 'Filter' pop-up box is open on the right side of the table, showing a list of columns to filter by. The 'License Number' column is selected. A yellow arrow points from the 'License Number' column in the table to the 'License Number' option in the filter pop-up box. The filter pop-up box also shows a search bar and a 'Filter' button.

Next, enter a relevant search parameter for that selected column name. In this example, we enter a medallion license number into the text box.

The screenshot shows the NYC OpenData interface for the 'Medallion...' dataset. A 'Filter' panel is open on the right side of the screen. The panel has a 'Sort & Roll-Up' section and a 'Filter' section. The 'Filter' section contains a dropdown menu for 'License Number' and a text input field containing '7C71'. A yellow arrow points to the '+ Add New Filter Condition' button. The main table displays a list of medallion records with columns for 'License Number' and 'Name'. The first few rows are:

Make sure that the filter condition has a check mark in the box next to the text box to activate the “Filter by Medallion License Number” and to start the search.

The screenshot shows the NYC OpenData interface. At the top, there is a logo for "NYC OpenData" and a badge indicating "1100+ Datasets Available". A search bar is present with the text "Find in this Dataset". Below the search bar, there is a "View" dropdown menu with options like "Save As...", "Revert", and "Based on Medallion Vehicles - Authorized This list". A toolbar contains buttons for "Manage", "More Views", "Filter", "Visualize", "Export", "Discuss", "Embed", and "About".

The main content area displays a table with the following columns: License Number, Type, and Current Status. The table contains 26 rows, all with "MEDALLION" as the Type and "CUR" as the Current Status. The License Number column contains the value "7C71" for all rows.

On the right side, there is a "Filter" panel. It has a "Sort & Roll-Up" section and a "Filter" section. The "Filter" section contains the text "Filter this dataset based on contents." and a filter condition: "License Number is 7C71". A checkmark is visible in a box next to the "7C71" text box. A yellow arrow points to this checkmark. Below the filter condition is a button labeled "Add a New Filter Condition". At the bottom of the filter panel, there is a link: "Never created a filter before? Watch a short tutorial video [here](#)."

The results are promptly displayed and filtered by the medallion. Note that the search results now all contain the same medallion number as our filter criteria.

The screenshot displays the NYC OpenData interface. At the top, the NYC OpenData logo is on the left, and a yellow badge indicates "1100+ Datasets Available". A search bar on the right contains the text "Find in this Dataset". Below the header, there is a yellow "Unsaved" notification and a "View" dropdown menu. The main data table has columns for "License Number", "Type", and "Current Status". The "License Number" column is highlighted with an orange box, and a large yellow double-headed arrow points from this column to the filter panel on the right. The filter panel shows a filter condition for "License Number" with a checked checkbox and the value "7C71" entered in the input field. Below the filter panel, there is a button to "Add a New Filter Condition" and a link to a tutorial video.

The main content area features a data table with the following columns: License Number, Type, and Current Status. The table contains 26 rows, all with a License Number of 7C71 and a Current Status of CUR. The Type column is currently empty. To the right of the table is a "Filter" panel. The panel has a "Sort & Roll-Up" section and a "Filter" section. The "Filter" section contains two filter conditions. The first condition is for "License Number" with a checked checkbox and the value "7C71". The second condition is for "Type" with an unchecked checkbox and an empty text box. A yellow arrow points to the "Type" label in the second filter condition. Below the filter conditions is a button labeled "Add a New Filter Condition". At the bottom of the filter panel, there is a note: "Never created a filter before? Watch a short tutorial video [here](#)."

The main content is a data table with columns: License Number, Type, and Current Status. The table contains 26 rows of data, all with License Number "7C71" and Type "MEDALLION".

A "Filter" panel is open on the right side of the table. It has a "Sort & Roll-Up" section and a "Filter" section. The "Filter" section contains two filter rules: "License Number is 7C71" and "Type is". A pop-up menu is overlaid on the "Type is" filter, showing a list of columns to filter by: "Model Year", "Medallion Type", "Agent Number", "Last Updated Date", and "Last updated Time". The "Last Updated Date" option is circled in orange. A large yellow arrow points from the table towards the pop-up menu.

Enter a date into the empty text box. In this example, we would like to know if the medallion 7C71 was authorized to operate on 12/11/2013.

The screenshot shows the NYC OpenData interface. At the top, there is a logo for NYC OpenData and a badge indicating '1100+ Datasets Available'. Below this, there is a search bar and a 'Find in this Dataset' button. The main content area features a table with columns for License Number, Type, and Current Status. The table contains 27 rows of data, all with License Number '7C71' and Type 'MEDALLION'. The Current Status is 'CUR' for all rows. To the right of the table is a 'Filter' panel. The filter panel has a 'Sort & Roll-Up' section and a 'Filter' section. The 'Filter' section contains two filter conditions: 'License Number is 7C71' and 'Last Updated Date is 12/11/2013'. A yellow arrow points to the date '12/11/2013' in the second filter condition. Below the filter panel, there is a '+ Add Filter Condition' button and a link to a tutorial video.

Make sure that the filter condition has a check mark in the box next to the text box to enable the “Filter by License Number” and to start the search.

The screenshot shows the NYC OpenData interface. At the top, there is a logo for NYC OpenData and a badge indicating "1100+ Datasets Available". A navigation menu is visible in the top right corner. Below the header, there is a search bar labeled "Find in this Dataset". A yellow notification banner at the top left says "Unsaved" and shows a "View" dropdown menu with options like "Revert". A toolbar contains buttons for "Manage", "More Views", "Filter", "Visualize", "Export", "Discuss", "Embed", and "About".

The main content area displays a table with the following data:

License Number	Type	Current Status
7C71	MEDALLION	CUR

On the right side, a "Filter" panel is open. It contains the following filter conditions:

- License Number is 7C71 (checked)
- Last Updated Date is 12/11/2013 (checked)

A yellow arrow points to the checkmark in the "Last Updated Date" filter condition. Below the filter conditions is a button labeled "Add a New Filter Condition". At the bottom of the filter panel, there is a link: "Never created a filter before? Watch a short tutorial video [here](#)."

The result shows that medallion number '7C71' from this example was indeed current and authorized to operate on 12/11/2013.
