Requesting a Vendor PASSPort Account

PASSPort
Procurement and Sourcing Solutions Portal

Creating a vendor PASSPort account for your organization is a two-step process:
(1) **Registering a NYC.ID**, and
(2) **Submitting a PASSPort account request to MOCS for review.**

Before creating a PASSPort account, please be aware that the vendor contact submitting the account request on behalf of the organization automatically becomes a **Vendor Admin** with full PASSPort account administrator privileges, including updating business information and adding additional system users and contacts to the account. The Vendor Admin receives all PASSPort email notifications at the email address that was used when submitting the vendor PASSPort account request.

1. Registering a NYC.ID

A NYC.ID (often referred to as "Nice-ID") is a secure, single sign-on that provides access to online services at multiple N government agency websites, including PASSPort. Not to be confused with IDNYC, registering a NYC.ID essentially means registering a vendor contact's work email address and creating a password which become the vendor contact's login credentials to access PASSPort.

Attention HHS Accelerator system users: You may skip this step and proceed to (2) Requesting a PASSPort Account as you have already created a NYC.ID. The same NYC.ID (registered email address and password) can be used to log in to PASSPort and HHS Accelerator.

1. Navigate to the [PASSPort page](#) on MOCS website and click the navy **Register NYC.ID** button.
