

GRAND CONCOURSE

Transformed

Grand Concourse 2008

Lou Gehrig Plaza/E. 161st Street Intersection & Grand Concourse North to E. 166th Street

- Inspired by 1999 Safety Demo on Concourse E. 165th to 170th Street
 - Narrowed service road, on-street bike lanes, and landscaping
- Captured opportunity of bridge project to enhance the Bronx
- Relocated parking to create the plaza
 - New parking along southbound service road
- Tightened intersection:
 - Shortened crosswalks, relocated service/main line merges to mid-block, extended corners to slow turning vehicles
