

## 31 Ave, Astoria Bike Network and Public Realm Planning

Public Workshop

September 14, 2023

# **Workshop Overview**

### Introductions (20 min)

- Elected Officials Welcome
- DOT's Commissioner

### Presentation (20 min)

- Background
- Community Outreach
- Vision & Goals
- Toolkit

### **Breakout Stations (40 min)**

- Community Feedback
- Group Share Back

### Conclusion (10 min)

Summary & Next Steps

Ydanis Rodriguez Commissioner

Assembly Member JESSICA GONZÁLEZ-ROJAS

## **Workshop Goals**

### **Focus Area**

The purpose of this workshop is to **gather feedback and ideas** that will help NYC DOT:

- Improve safety and circulation for all road users
- Create an east-west protected bike lane route
- Understand community preferences for street improvement designs to promote cycling and walking in the neighborhood

Feedback gathered from the workshop will be used to inform future DOT's future street improvement projects in the area

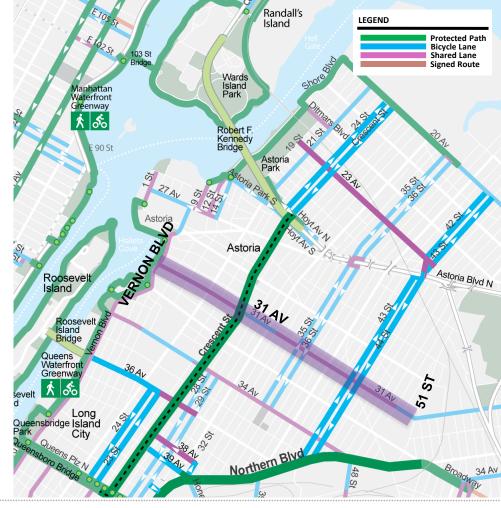

# **Workshop Area**

### **Focus Area**

- Vision Zero Priority Area, High Youth Injuries, Sidewalk Width Deficiency
- No east-west protected bike lane facilities; blocked bike lanes
- Need for greater public realm amenities to add more open space
- Local truck and cut-through traffic (31<sup>st</sup> Ave is not a Truck Route)
- Curb access issues for commercial deliveries, visitors, and residents

Background

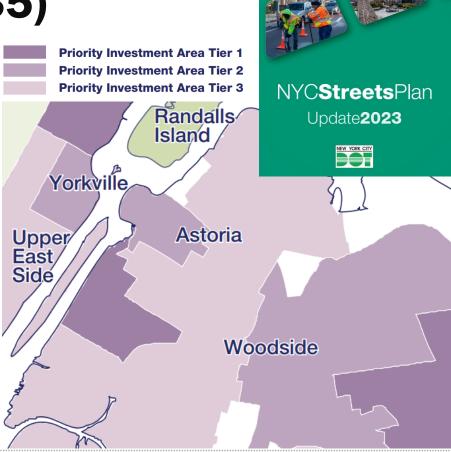

# NYC Streets Plan (LL185)

### Vision:

NYC will be a place where everyone has access to reliable and environmentally friendly transportation options and to safe and welcoming streets and public spaces. Cars and trucks will be substantially fewer and cleaner

### Goals:

- To enhance street safety for all street users incorporating equity into DOT's programs and projects
- Build out the protected bike lane network. Increase sustainable travel modes by reconfiguring streets and making more attractive choices available
- Allow all New Yorkers to have access to safe, welcoming and attractive public spaces close to where they live

## **Safety and Crash Statistics**

# **VISION ZERO** Solution Sector City

### **Summary of Total Injuries:**

### **Vision Zero Priority Area**

 $31^{st}$  Ave from Vernon Blvd to  $51^{st}$  St

• 1 cyclist killed, 264 total injuries (2016-2020)

Mode	Total Injuries	Severe Injuries	Fatalities	KSI
Pedestrian	58	6	0	6
Bicyclist	45	2	1	3
Motor Vehicle Occupant	161	8	0	8
Other Motorized	0	0	0	0
Total	264	16	1	17

Source: Fatalities: NYCDOT, Injuries: NYSDOT KSI" Persons Killed or Severely Injured

Please Note: Starting in 2019, the National Highway Safety Administration (NHTSA) mandated that all jurisdictions follow the Model Minimum Uniform Crash Criteria (MMUCC) 4th Edition guidelines for collecting Serious Injury crashes. They did this to standardize what data is being collected across the country. Accordingly, the New York State Department of Motor Vehicles (DMV) changed their definition of severe, "A" type injuries. As a result of this change, some injuries not previously attributed to the serious injury classification are now included. This change has made data from that year difficult to compare to previous years. Any increase in severe injuries may reflect the change in the formula and not an actual change in the trend of severe injuries

## **Cycling in Numbers**

**NETWORK EXPANSION** 

1,500+ miles of bicycle

facilities

regularly

644 of protected bike lanes

DAILY **CYCLING**  880,000 ride a bike

550,000 of daily commuter trips

2022)

890,000+

of trips in CB 8

(03, 2022)

**EAST RIVER** BRIDGES

24,000+ cyclists cross the ERB daily growth in cycling Increase on the **QBB** on all ERB (2019-Br (2019-2022)

**BIKE SHARE** 

**29.5** million of Citi Bike trips in 2020

15% of NYers use bike share (2018)

## **28.5** miles of protected bike lanes installed in 2022 104% increase in daily cycling (2011-2021) 18.5% 35%

## **Past Work**

### **Public Realm Improvements:**

Painted Bike Corral:

 In coordination with the DOT Art Program, DOT installed a curb extension on 31<sup>st</sup> Ave and 34<sup>th</sup> St. featuring a new public art installation, and bike parking

**Open Streets** 

• Ongoing Open Streets on 31<sup>st</sup> Ave since 2020

### **Bike Network Expansion:**

Bike Lane Projects:

- 2021: Astoria Bike Network, Northern Blvd
- 2020: Crescent St.
- 2017: Hoyt Ave N
- 2016: Shore Blvd, 20<sup>th</sup> Ave Upgrade, 31<sup>st</sup> Ave
- 2015: Vernon Blvd.

Since 2015, DOT has installed over **16.5 lane miles of protected bike lanes, and 21 lane miles of standard bike lanes and shared lanes** in the area.

<sup>&</sup>quot;Kaleidoscope" by Queens artist Talisa Almonte

## **Open Streets**

### **Open Streets:**

- Transforms streets into public spaces open to all
- Permanent program per 2021 legislation
- DOT required to evolve successful sites as shared streets, plazas, bike boulevards, etc.

#### 31st Ave (33rd St - 35th St) Open Street

- Active on Saturday & Sundays, from 12 PM 8 PM
- Programming, markets, and new public space in the Astoria neighborhood

### **Community Partner:**

**31<sup>st</sup> Ave Open Streets Collective,** a community-based organization manages the Open Street providing safe space for outdoor dining, community events, markets, and other activities

- Learn more at the Collective official website:
  - <u>www.31staveopenstreet.org</u>

@31staveopenstreet

Community Outreach Overview

# Outreach Efforts to Date

### Spring/Summer 2023:

- Community Feedback Survey: 2,000+ responses received
- **Pop-up Workshops:** four events along 31<sup>st</sup> Ave for one-on-one conversations to gather community feedback
- Merchant Survey: DOT's Street Ambassadors surveyed local businesses along the corridor

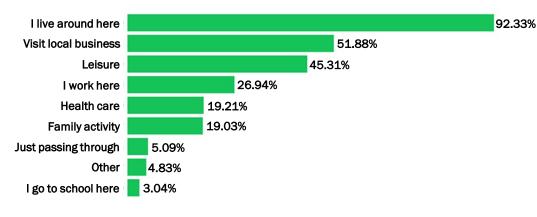

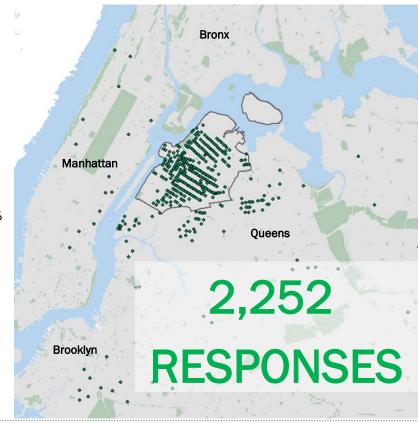

## **Community Feedback Survey**

### **Survey Overview**

 Community feedback survey launched in Spring 2023 to collect community feedback and ideas to improve 31<sup>st</sup> Ave and identify new north/south bike lane opportunities

#### Relationship to the Neighborhood:

# **Community Survey**

Safety Concerns: Most Frequently Mentioned Issues

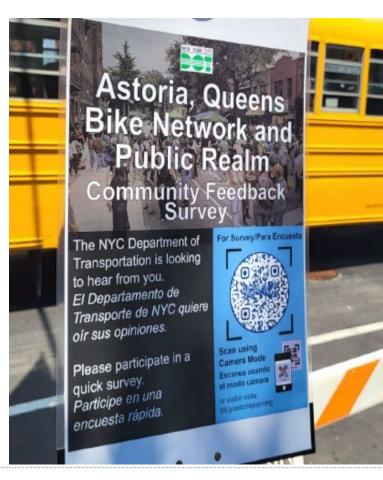

**400+** vehicles disregard traffic signals

**1 250+** double parking for extended periods

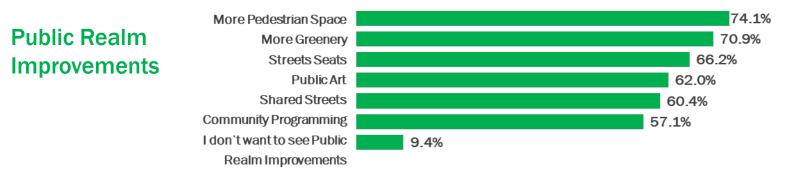

180+ excessive vehicular speeding

**150+** unsafe intersection crossings

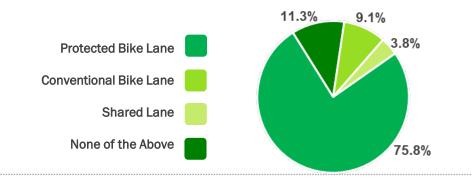

## **Community Survey**

### **Opportunities:** Most Frequently Mentioned Improvements

## **Pop-up Workshops**

### **Community Feedback**

#### Post-it Quotes:

- "I love Crescent St We need a similar bike lane going east-west"
- "Include dedicated loading zones, especially between 31 St and Steinway St"
- "Kids should feel safe walking to school! Please pedestrianize areas by schools".

#### Intersections with most comments:

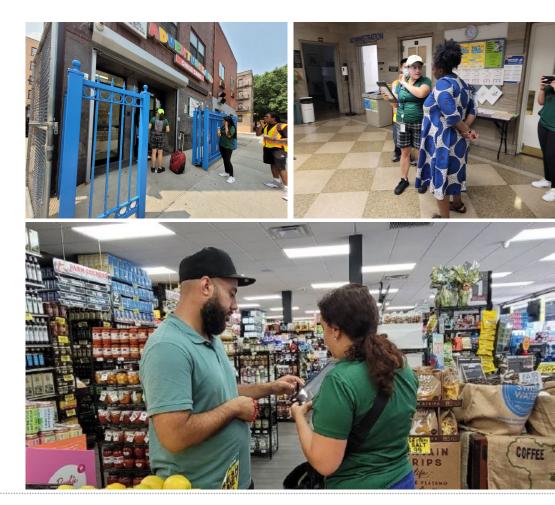

- 1. Newtown Rd, 31 Ave and 43 St
- 2. Vernon Blvd and 31 Ave
- 3. 31 St and 31 Ave
- 4. Crescent St and 31 Ave
- 5. 33 St and 31 Ave

## **Merchant Survey**

### **Merchant Feedback**

- 99 businesses along the 31<sup>st</sup> Ave corridor were visited by DOT's Street Ambassador Team
- Asked questions related to loading, deliveries, parking, and other business-related uses
- DOT will use this merchant feedback and data to inform project development

## Vision & Goals

## **Process**

### **Project Basis and Process**

#### Data and Analysis:

- Vision Zero
- NYC Streets Plan
- Bicycle Network Connectivity & Ridership
- Public Realm Needs

#### **Community Requests:**

Elected Officials,
 Members of the Public

Community Outreach, Feedback Gathering:

- Online Survey
- Pop-up Workshops
- Merchant Survey

#### Public Workshop:

- Present
  Conceptual Idea
- Gather Additional Community Feedback

#### Next Steps:

- Project
  Development
- Presentation to
  Queens CB 1
- Project
  Implementation

## Vision

### **Prioritize People on Foot and on Bikes**

Public Space nyc.gov/dot

#### Street furniture (planters, bike parking, etc)

## Goals

#### **Traffic Calming:**

- Speed and Volume Management: slow vehicle speeds; low or reduced vehicle volumes, divert cut-through traffic
- Street Crossings: safe and convenient pedestrian and cyclist crossings; reduce cyclist delay

#### **Bike Network:**

- Route Selection: direct, calm route; access to neighborhood destinations
- Facility Type: comfortable for all ages and ability levels
- Signs, Wayfinding, and Pavement Markings: easy to find and follow

#### **Public Realm:**

- Open Space: add programmable public space that supports the community in diverse ways
- Street Furniture: opportunities for bike parking, movable furniture, greenery, and more

#### **Vehicular Access:**

- Route Selection: reduce cut-through traffic while maintaining neighborhood access
- Curb Access: encourage turn-over, reduce double parking, improve overall curb access

## **Considerations: Geometric Constraints**

### **Street Space Reallocation** and **Tradeoffs**

A. One-way Conversion Example: Loring Ave, Brooklyn, 2017

**B. Remove One** Lane of Parking Example: Vernon Blvd, Queens, 2013

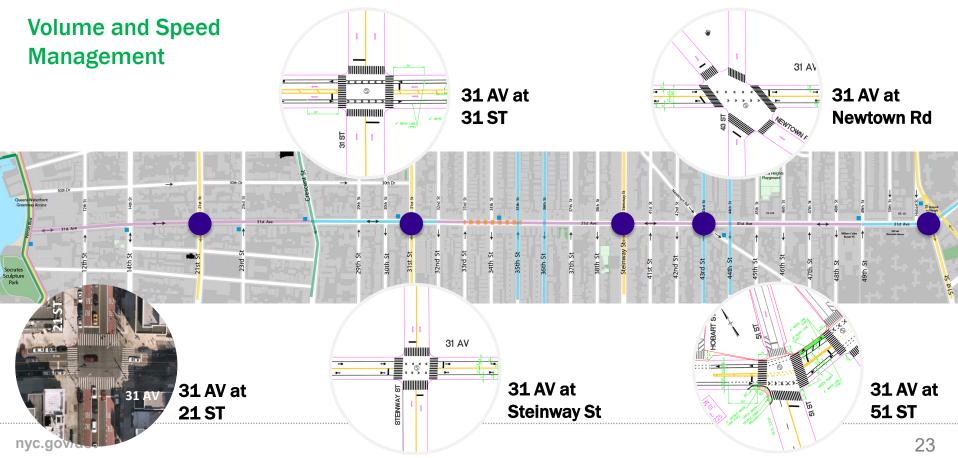

**C. Reduce Travel** Lanes Example: 111<sup>th</sup> St, Queens, 2017

## **Considerations: Geometric Constraints**

## **DOT Toolkit**

### **Public Realm and Bike Facilities**

**Bike Boulevards** 

**Protected Bike Lane** 

#### **Conventional Bike Lane**

**Curb Management** 

**Traffic Diverters** 

**Pedestrian Space** 

Shared Street

Street Furniture & Greenery

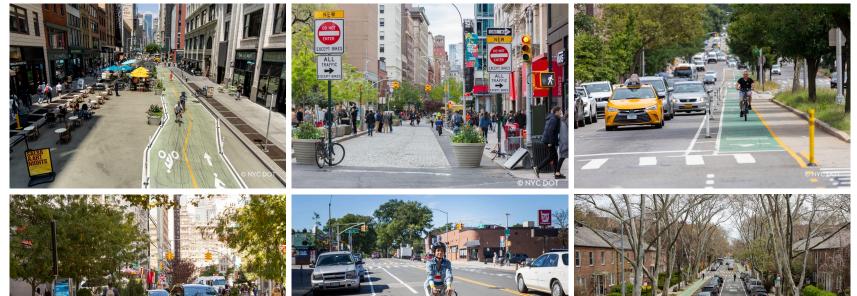

Public Art

Community Programming

## **Examples of Street Redesign**

### **Design Elements: Improvements for People Walking and Biking**

## **Existing Conditions**

## **Existing Conditions**

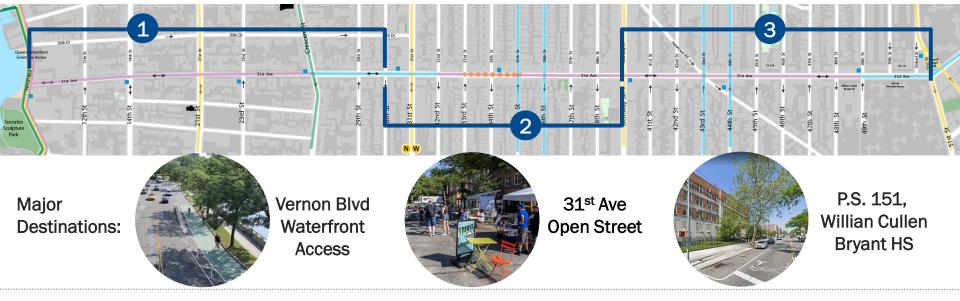

- Vernon Blvd to 30<sup>th</sup> St
- Mostly residential area
- Gateway to the waterfront and parks

- Commercial land uses
- 31 Ave Open Street in effect Saturdays and Sundays from 12-8 PM

- 3
  - Steinway St to 51<sup>st</sup> St
  - Residential and autooriented businesses
  - Elementary and high schools

# **Existing Conditions**

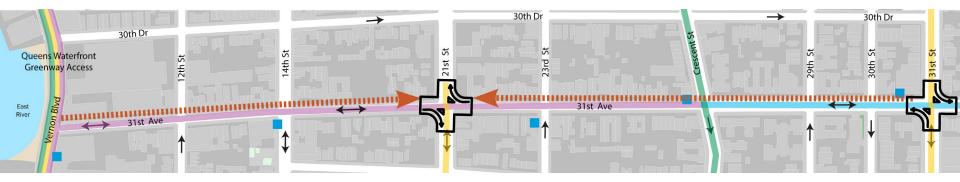

### **Existing Conditions & Issues:**

- Vision Zero Priority Area, High Youth Injuries, Sidewalk Width Deficiency
- No east-west protected bike lane facilities; bike lanes often blocked
- Local truck and cut-through traffic (31<sup>st</sup> Ave is not a Truck Route)
- Curb access issues for commercial deliveries, visitors, and residents

## **Focus Area 1**

Vernon Blvd to 30<sup>th</sup> St

**Bus Routes** 

Existing Conventional Bike Lane

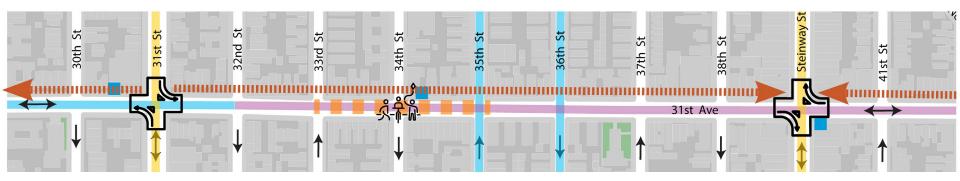

Existing Shared Bike Lane Existing Protected Bike Lane

Suggested Vehicular Traffic Direction (Westbound) Suggested Vehicular Traffic Direction (Eastbound) Suggested Traffic Diverter

## Summary & Next Steps

## **Summary & Next Steps**

### **Project Timeline**

SPRING/SUMMER 2023		SUMMER/FALL 2023		SPRING/SUMMER 2024
SURVEY Open to the public, received 2,000+ responses	<b>POP-UP WORKSHOPS</b> Four locations along the corridor to collect community feedback	MERCHANT SURVEY DOT'S Street Ambassadors to survey business along the 31st Ave corridor	WORKSHOP Summary of feedback from first round of outreach; presentation of scope, and design elements	<b>COMMUNITY BOARD</b> Presentation of refined scope and design

### **Future Planning**

• DOT will continue to collect feedback for future planning processes and projects in Astoria

## **Feedback Session**

### **Breakout Groups to Discuss Issue Areas:**

- 1. Vernon Blvd to 30<sup>th</sup> St
- 2. 30<sup>th</sup> St to Steinway St
- 3. Steinway St to 51<sup>st</sup> St

### **Reminders:**

- Be sure everyone at your table has a chance to speak
- Keep discussion respectful, even if you disagree with a neighbor

## Thank You!
