

NYC DOT Autonomous Vehicle Testing Permit

Appendix C.1: AV Permit Narrative Data Reporting

In addition to submitting the Appendix C data report in the provided format, permitted entities are required to report to NYC DOT on how well test vehicles are complying with safety-critical traffic laws, irrespective of whether a citation is received. This report may take the form of a narrative description, but must include, at minimum, the following summary statistics:

1. The number of incidents in which a test vehicle disobeyed signals or stop signs;
2. The number of incidents in which a test vehicle made an improper turn (ignoring a turn ban, not signaling, or turning from the wrong lane);
3. The number of incidents in which a test vehicle failed to yield to a pedestrian in a crosswalk; and
4. The amount of time (in seconds) during which the test vehicles were operating above the posted speed limit as specified below:
 - a. Amount of time operating at any speed above the posted speed limit;
 - b. Amount of time operating 0-5 miles per hour above the posted speed limit;
 - c. Amount of time operating 5-10 miles per hour above the posted speed limit;
 - d. Amount of time operating 10-20 miles per hour above the posted speed limit; and
 - e. Amount of time operating 20 or more miles per hour above the posted speed limit.

Reports are due quarterly on the following schedule:

1. Testing January 1 – March 31: Report due the last business day of April
2. Testing April 1 – June 30: Report due the last business day of July
3. Testing July 1 – September 30: Report due the last business day of October
4. Testing October 1 – December 31: Report due the last business day of January

If Entity begins testing during the last month of a quarter, Entity may transmit the data for that month with the following quarterly report (e.g., if testing begins mid-March, the first transmission could occur on the last business day of July, covering data for March-June).
