

Bicycle Crash Data – 2025

Local Law 13 of 2011 requires the NYC Department of Transportation (NYCDOT) to compile the total number of bicycle crashes that are reported to city agencies beginning October 1, 2011. As a result of reporting changes in the NYPD collision data, beginning in 2021, this report now includes, as a separate category, crashes involving ‘Motorized Two-Wheelers’ (E-bike, Moped, Off Road, Motorcycle, Stand-up Scooter, and Other Motorized devices).

Beginning June 1, 2012 and annually thereafter, NYCDOT must provide a report on the total number of reported bicycle crashes. This document contains the number of reported crashes, disaggregated by those involving solely bicycles, between bicycles and motorized vehicles, and between bicycles and pedestrians, including the number of injuries and fatalities resulting from such crashes; and further disaggregated by borough and by police precinct, for the reporting period of January 1, 2025 to December 31, 2025. NYCDOT has further disaggregated crashes involving only bicycles or Motorized Two-Wheelers to include crashes between bicycles/motorized two wheelers and crashes involving a single bicycle/motorized two wheelers. A summary is also provided of injuries and fatalities involving motor vehicles during the same time period. During this period, there were 46,559 injuries and 191 fatalities involving motor vehicles.

The number of crashes involving motor vehicles is tabulated from police accident reports (MV-104 reports), which are reported to NYCDOT by the NYC Police Department (NYPD). The number of crashes involving bicycles/ Motorized Two-Wheelers, but not involving motor vehicles, is also tabulated from MV-104 reports filed by NYPD in response to incidents that do not involve a motor vehicle and reported to NYCDOT by NYPD.

To improve data accuracy, in June 2025, NYPD changed the labeling system for some vehicle types in the Motorized Two-Wheeler category. This caused an abrupt shift in the mix of vehicle types relative to prior years, most notably in the moped category. However, continuously evolving vehicle use patterns it is difficult to isolate the impact of the labeling modification. Any comparison of crash numbers involving Motorized Two-Wheelers over time must be treated with caution.

2025 Pedestrian, Bicyclist, Motor Vehicle Occupant, Motorized Two Wheelers Injuries and Fatalities

Source: NYPD

Source for fatalities: NYPD/NYCDOT Reconciled Fatality Database

Note: Motor Vehicle Occupants include drivers and passengers of Car, SUV and Other MVO.

Motorized Two Wheelers include drivers and passengers of E-bike, Moped, Off Road, Other Motorized, Motorcycle and Stand-up Scooter.

For crashes not involving motor vehicles, there should be no motor vehicles (car/suv/van/truck/bus) involved, but the crash must involve at least one bicyclist or motorized two-wheeler.

As of 04/15/26

2025 Pedestrian, Bicyclist, Motor Vehicle Occupant, Motorized Two Wheelers Injuries and Fatalities

Source: NYPD

Note: Motor vehicle occupants include drivers and passengers of car, suv and other mvo.

Motorized two wheelers include drivers and passengers of e-bike, moped, off road, other motorized, motorcycle and stand-up scooter.

For crashes involving motorized two-wheelers/bicyclists, there should be at least 1 motorized two-wheelers/bicyclist involved and no motor vehicles (car/suv/van/truck/bus) involved.

Crashes involving both bicycles and motorized two-wheelers will appear in both Crashes Involving Bicyclists and Crashes Involving Motorized Two-Wheelers tables.

Crashes involving more than one vehicle type are counted in all relevant tables.

(e.g., a crash between a bike and a moped appears in both the Crashes Involving Traditional Bicycle and Crashes Involving Motorized two-wheeler tables).
