

Bivona Street & Reeds Mill Lane

Community Board 12

Spring 2023

Project Location

Bivona St and Reeds Mill Ln

- Project limits: Bivona St and Reeds Mill Ln
- Community request for safety improvements at Bivona St and Reeds Mill Ln due to unpredictable turning movements and visibility issues
- Residential land use
- Westchester Bee-Line W52 bus stop located at northwest leg of intersection
- P.S. 723 located nearby

Bivona St and Reeds Mill Ln

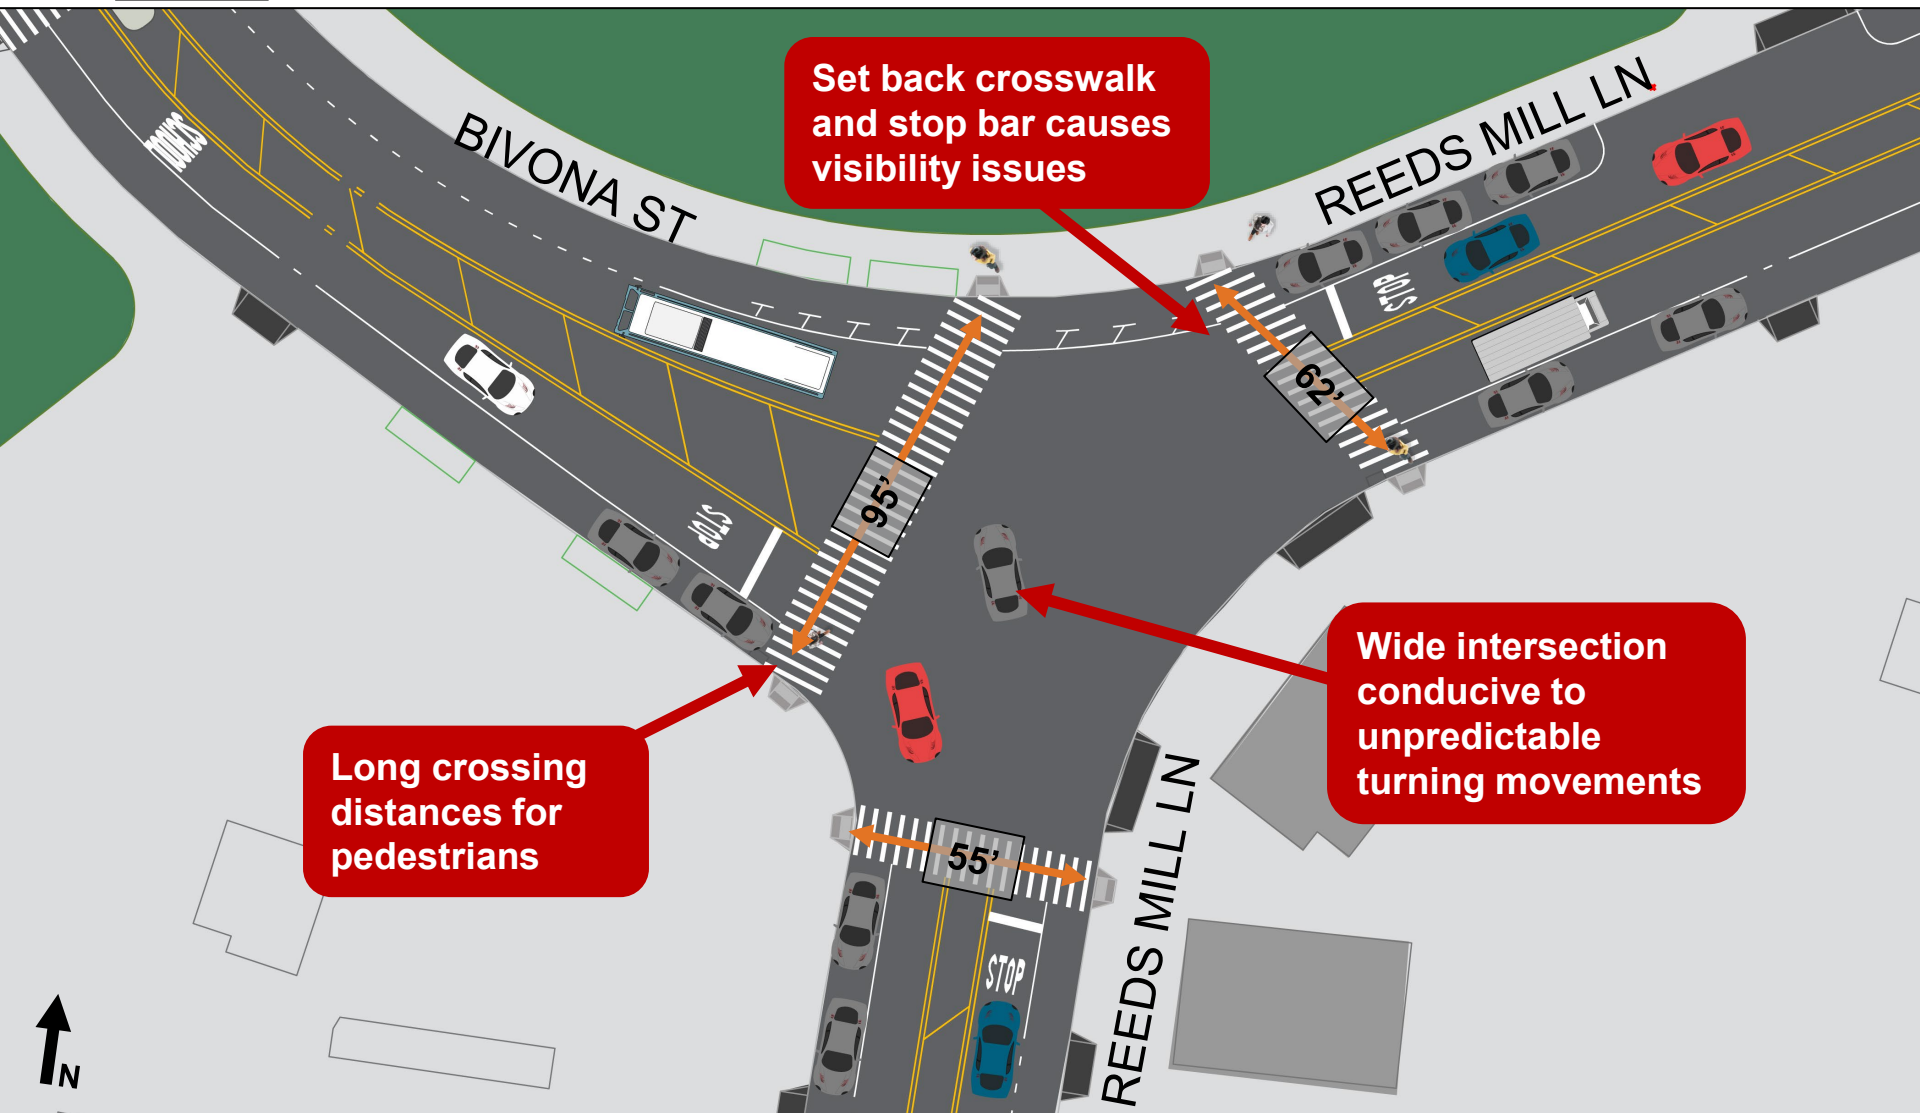

Existing Conditions

Bivona St and Reeds Mill Ln

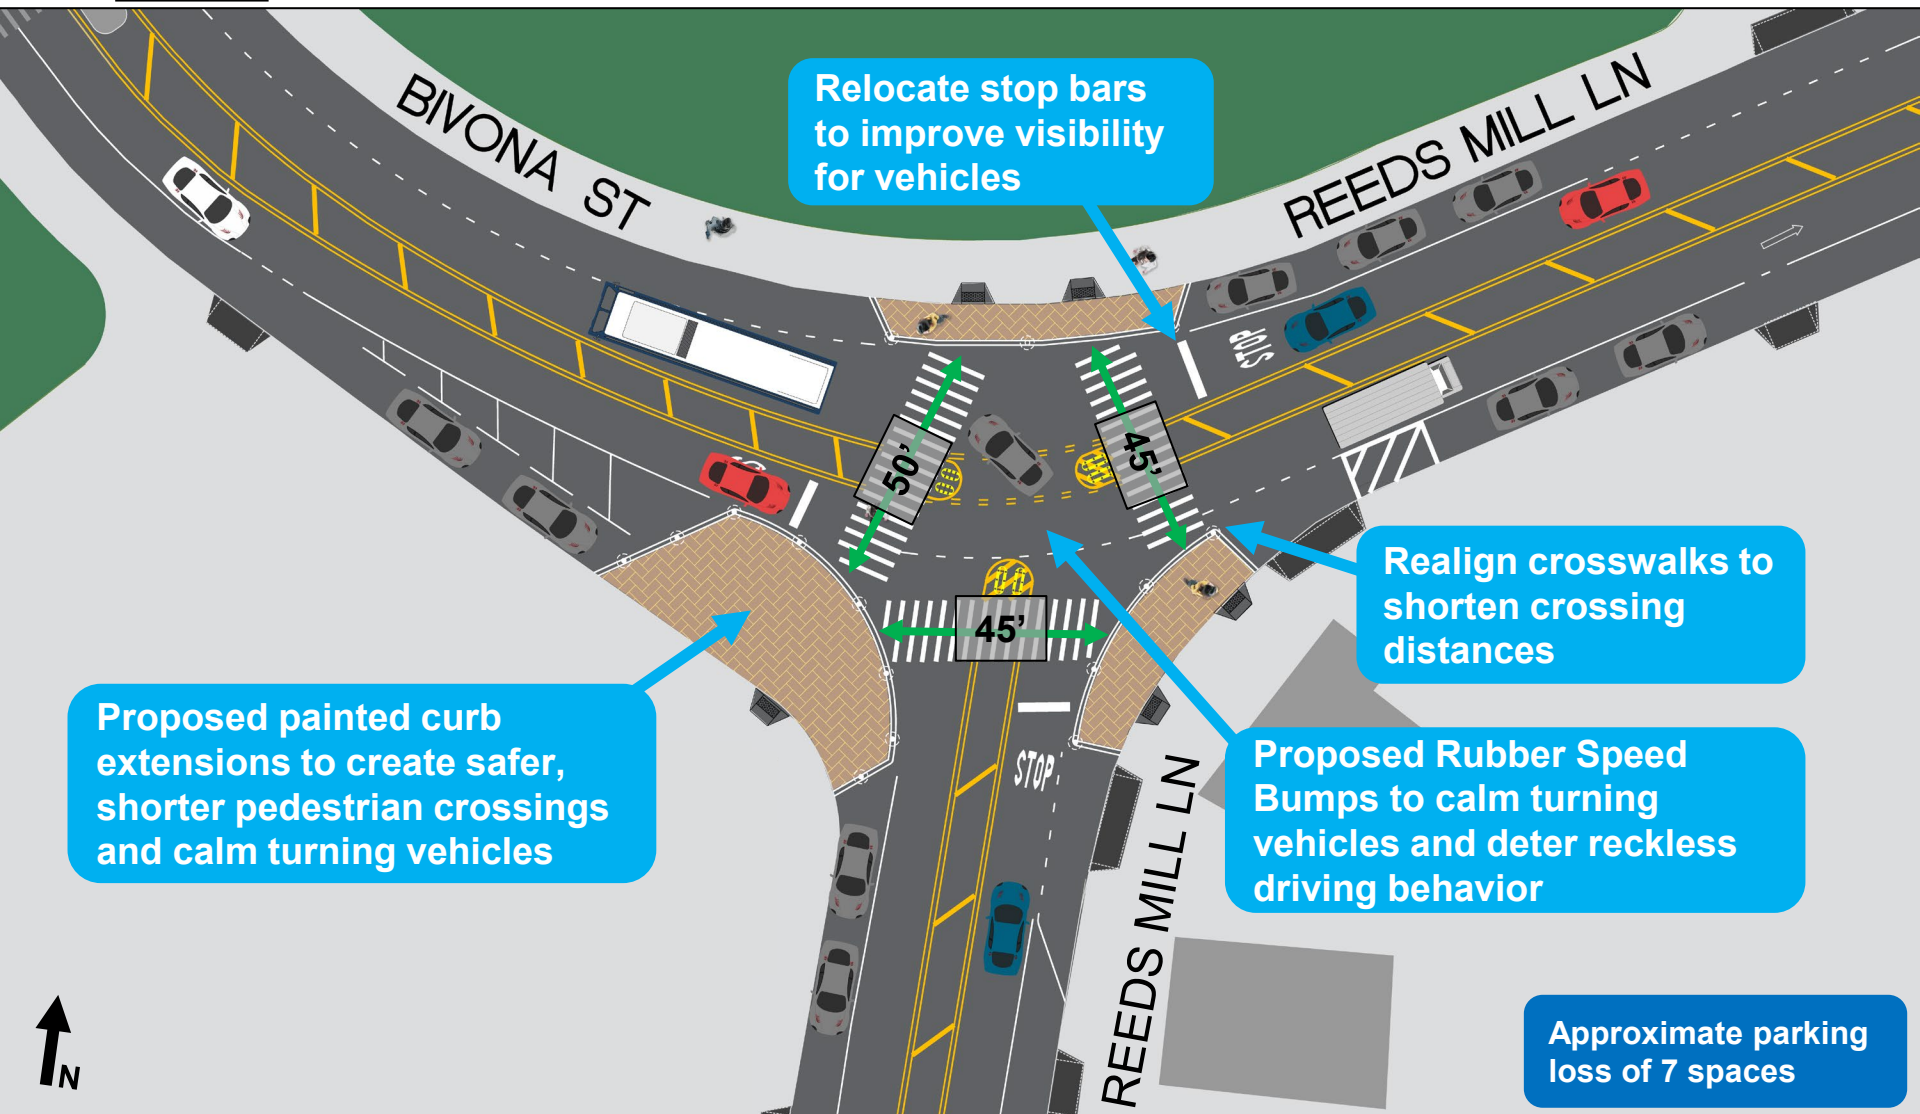

- Previous corridor safety improvements installed on Bivona St and Reeds Mill Lane between Boston Rd to Tillotson Ave in 2016 which included additional crosswalks, a flush median, and 2 midblock pedestrian islands
- Wide intersection and poor visibility result in open road conducive to unpredictable turning movements

Existing Conditions

Proposal

Project Benefits

- Reduces crossing distance by expanding pedestrian spaces
- Improves visibility for pedestrians and vehicles
- Creates slower, safer turns
- Upgrades existing pedestrian ramps to ADA compliance

Similar Configuration: Riverside Dr, Manhattan

Thank You!
