

14th Street Update

Manhattan Community Board 2 – Thursday May 2, 2019

Background

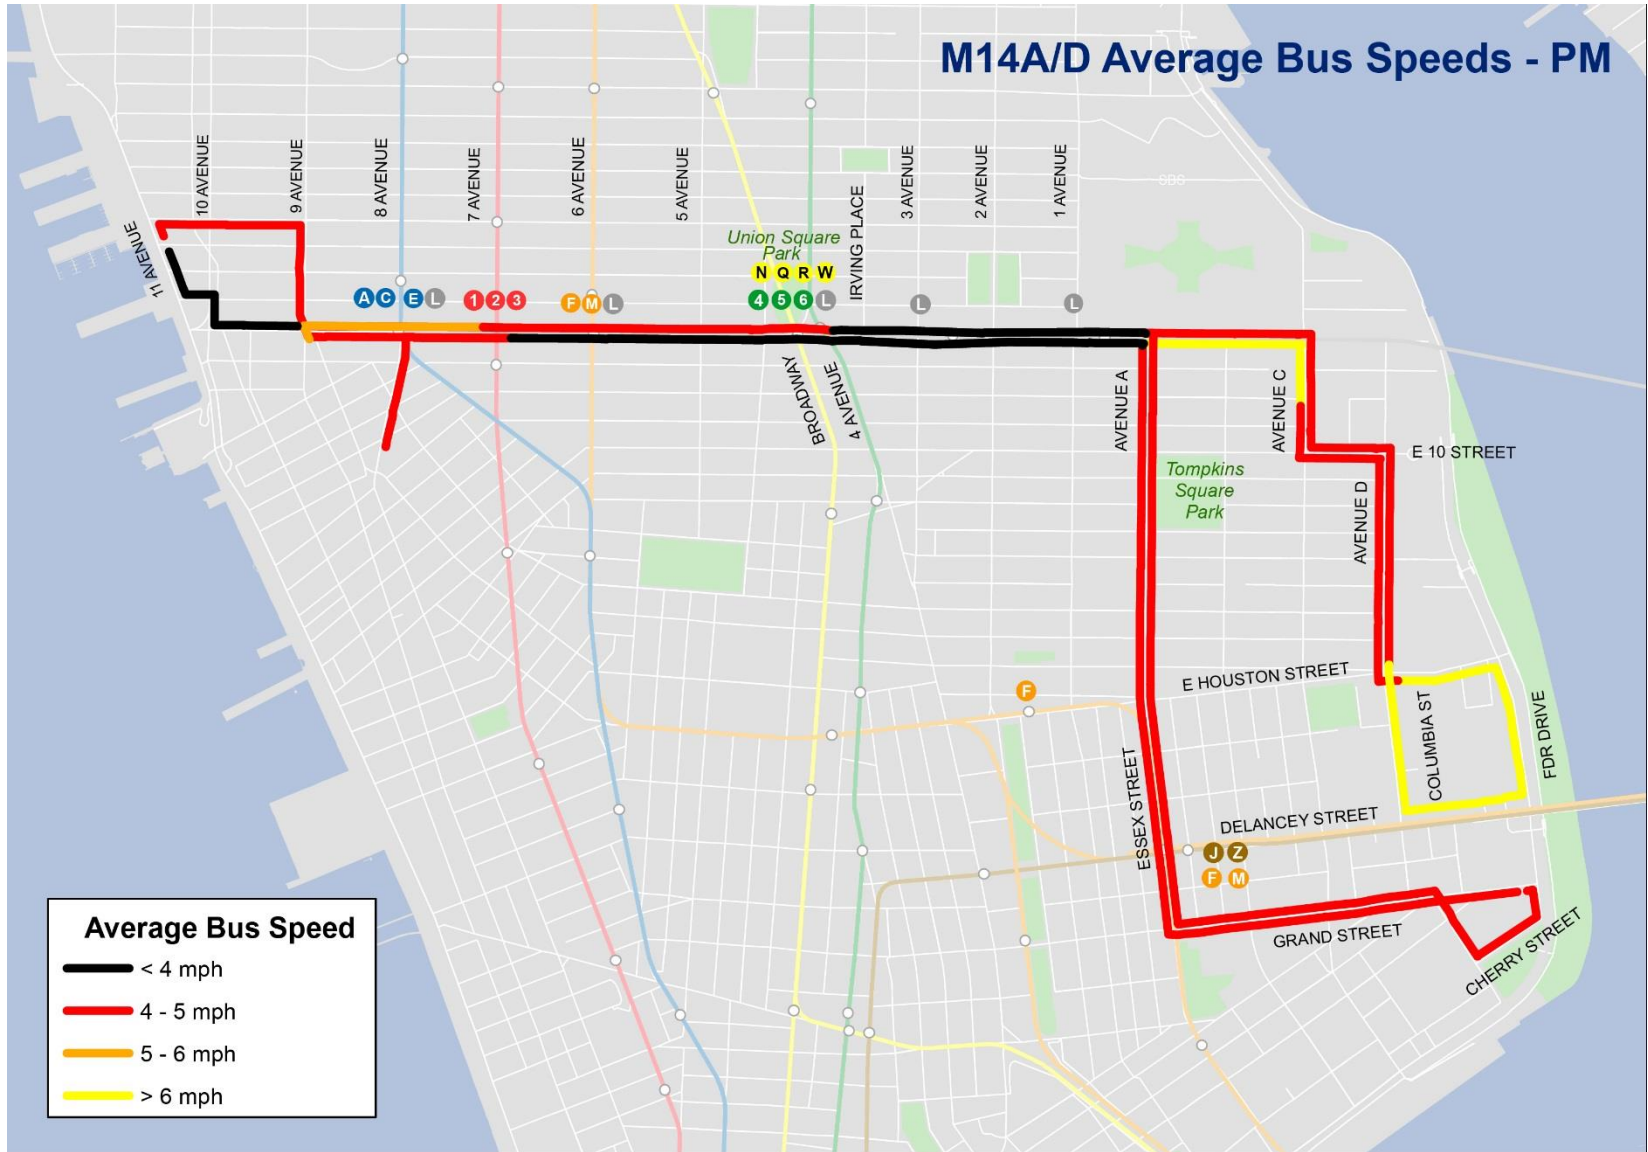

- M14A/D is second-busiest bus route in Manhattan (27,000 daily riders) and second-slowest in NYC
- 14th St identified as a Select Bus Service priority corridor since 2010
- 14th Street is a **Vision Zero Priority** corridor with seven priority intersections
- Extensive public outreach helped to refine 14th St design in preparation for full Canarsie Tunnel closure
- 14th Street markings and SBS fare machines were partially installed in Fall 2018

● Priority Intersection — Priority Corridor ■ Priority Area

M14A/D Ridership

M14 Travel Speeds

M14A/D Performance

PM Peak – May 2018

- Average Speed
 - M14A: 4.2 mph
 - M14D: 4.6 mph
- M14 routes spend almost **60%** of their trip at bus stops or stopped in traffic

14th Street Outreach Takeaways

What We Heard From The Community

Design should meet the needs of 14th Street during night and weekend L train service reductions and regular traffic at other times

14th St residents:

- concern about curb access that was removed in Fall 2018
- concern about potential restriction of curbside bus lane in alternate design proposed by DOT in March 2019

Side street residents:

- concern about through traffic, especially trucks, on adjacent residential streets

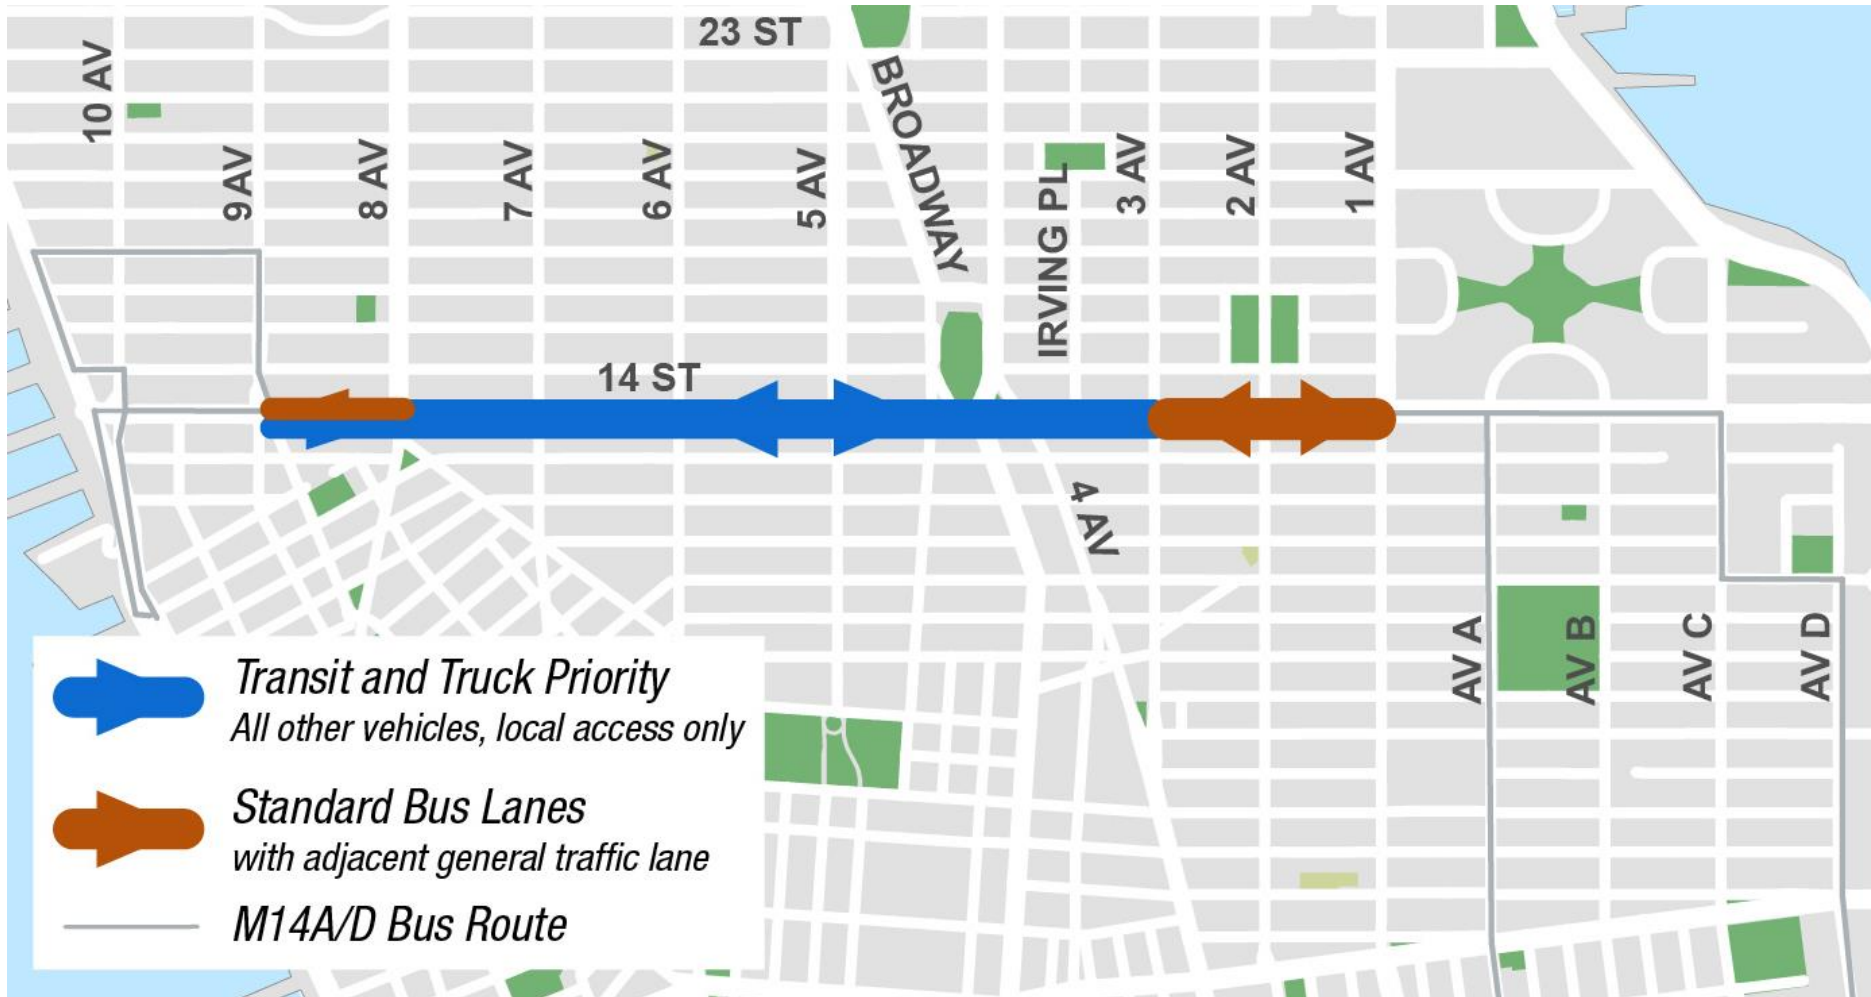

14th St crosstown bus riders:

- Concern about slow bus speeds as a result of traffic congestion

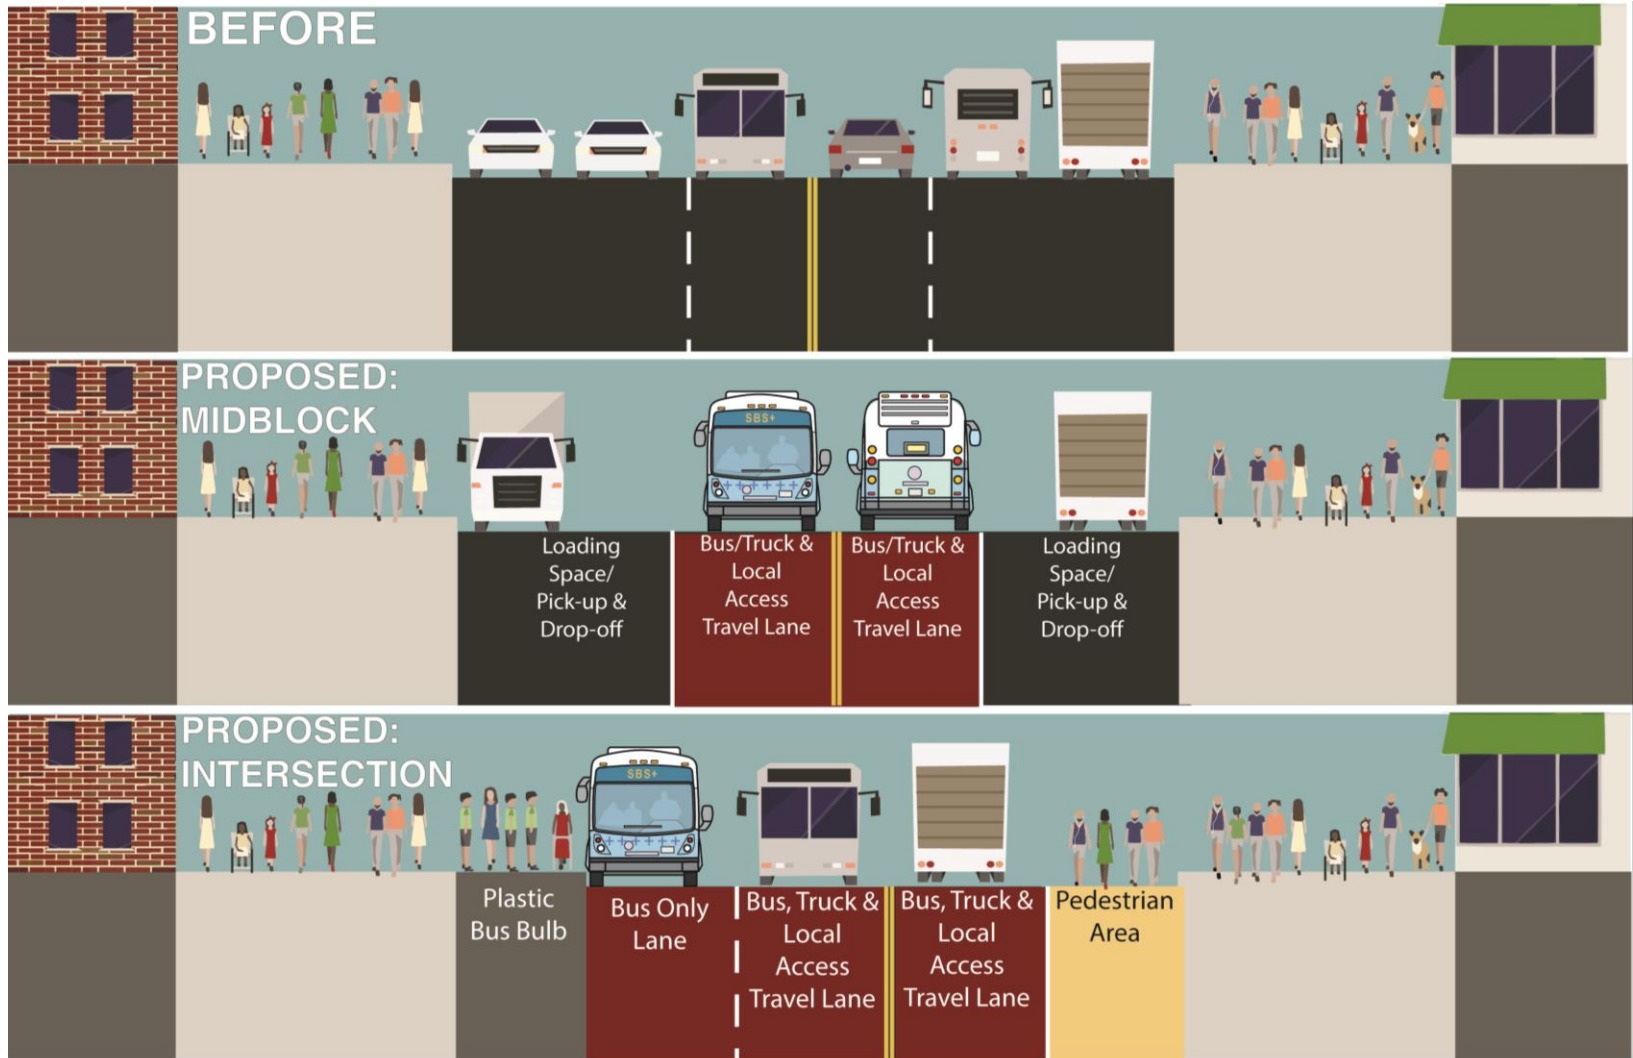

14th Street Plan

A Transit and Truck Priority Street: 18 month pilot

14th Street Plan

A Transit and Truck Priority Street

14th Street Plan

A Transit and Truck Priority Street

How it works:

- **Buses, trucks and emergency vehicles** can make through trips between 3rd and 9th Avenues, observing all turn restrictions

14th Street Plan

A Transit and Truck Priority Street

How it works:

- **Buses, trucks and emergency vehicles** can make through trips between 3rd and 9th Avenues, observing all turn restrictions
- All vehicles are permitted to load/unload, pickup/drop-off and access garages

14th Street Plan

A Transit and Truck Priority Street

How it works:

- **Buses, trucks and emergency vehicles** can make through trips between 3rd and 9th Avenues, observing all turn restrictions
- All vehicles are permitted to load/unload, pickup/drop-off and access garages
- General traffic must make the next right turn

14th Street Plan

A Transit and Truck Priority Street

How it works:

- **Buses, trucks and emergency vehicles** can make through trips between 3rd and 9th Avenues, observing all turn restrictions
- All vehicles are permitted to load/unload, pickup/drop-off and access garages
- Cars must make the next right turn
- Bus lane cameras will issue violations against vehicles that do not turn, after a 60 day warning period.
- New curb regulations will prioritize short-term loading and passenger pickup activity

Transit and Truck Priority Street

9th to 8th Ave

Transit and Truck Priority Street

Transit and Truck Priority Street

6th to 5th Ave

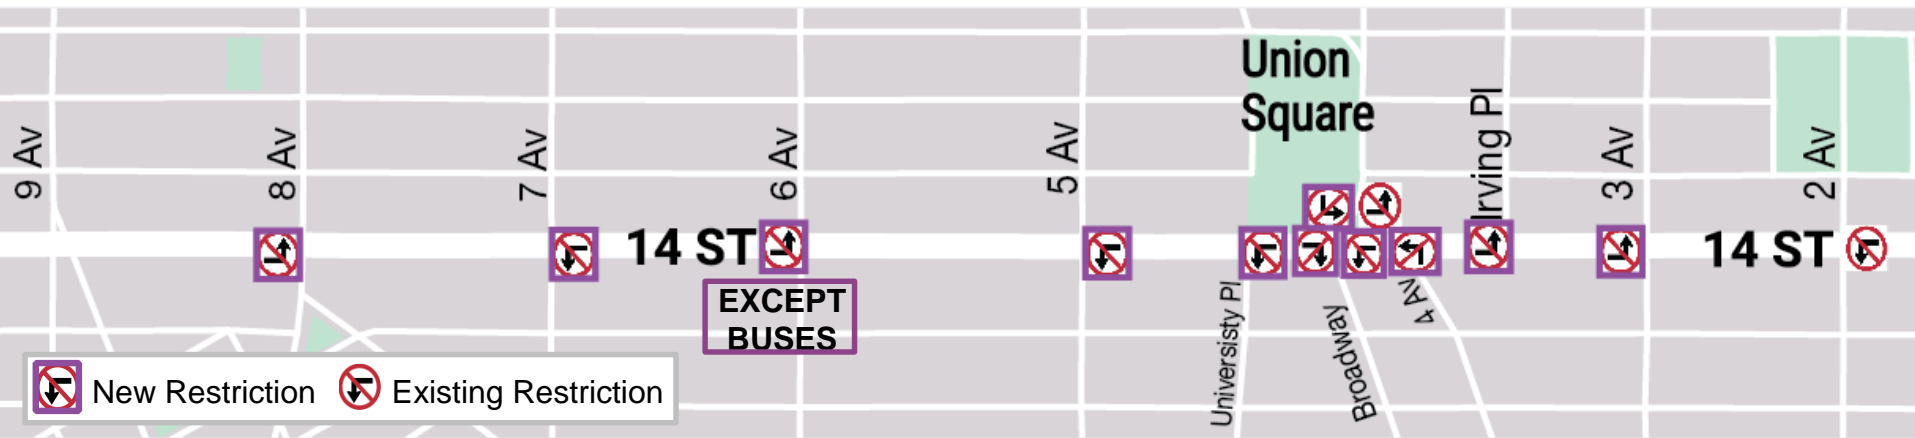

Transit and Truck Priority Street

5th Ave to 4th Ave

14th Street Turn Restrictions

Left turn restrictions from 14th Street

- Eastbound 8th Av
- Westbound 7th Av
- Eastbound 6th Av:
“Except Buses” rider will be added to allow M7 turn
- Westbound 5th Av
- Westbound University Pl
- Westbound Broadway
- Eastbound Irving Pl
- Eastbound 3rd Av
- Westbound 2nd Av

Right turn restrictions from 14th Street

- Eastbound Broadway

Turn restrictions onto 14th Street

- Left turn from Broadway
- Left from 4th Av

Transit and Truck Priority Street

Benefits of TTP

14th St prioritizes frequent, high ridership buses:

- Buses will run up to 30% faster

Improves pedestrian safety:

- Turn restrictions
- Sidewalk expansions to shorten crossing distances

Allows through moving trucks:

- Keeps trucks on designated route and off primarily residential side streets

Maintains curb access:

- Commercial loading will accommodate needs of local businesses
- Designated pick-up/drop-off ensures residents and visitors can access curb

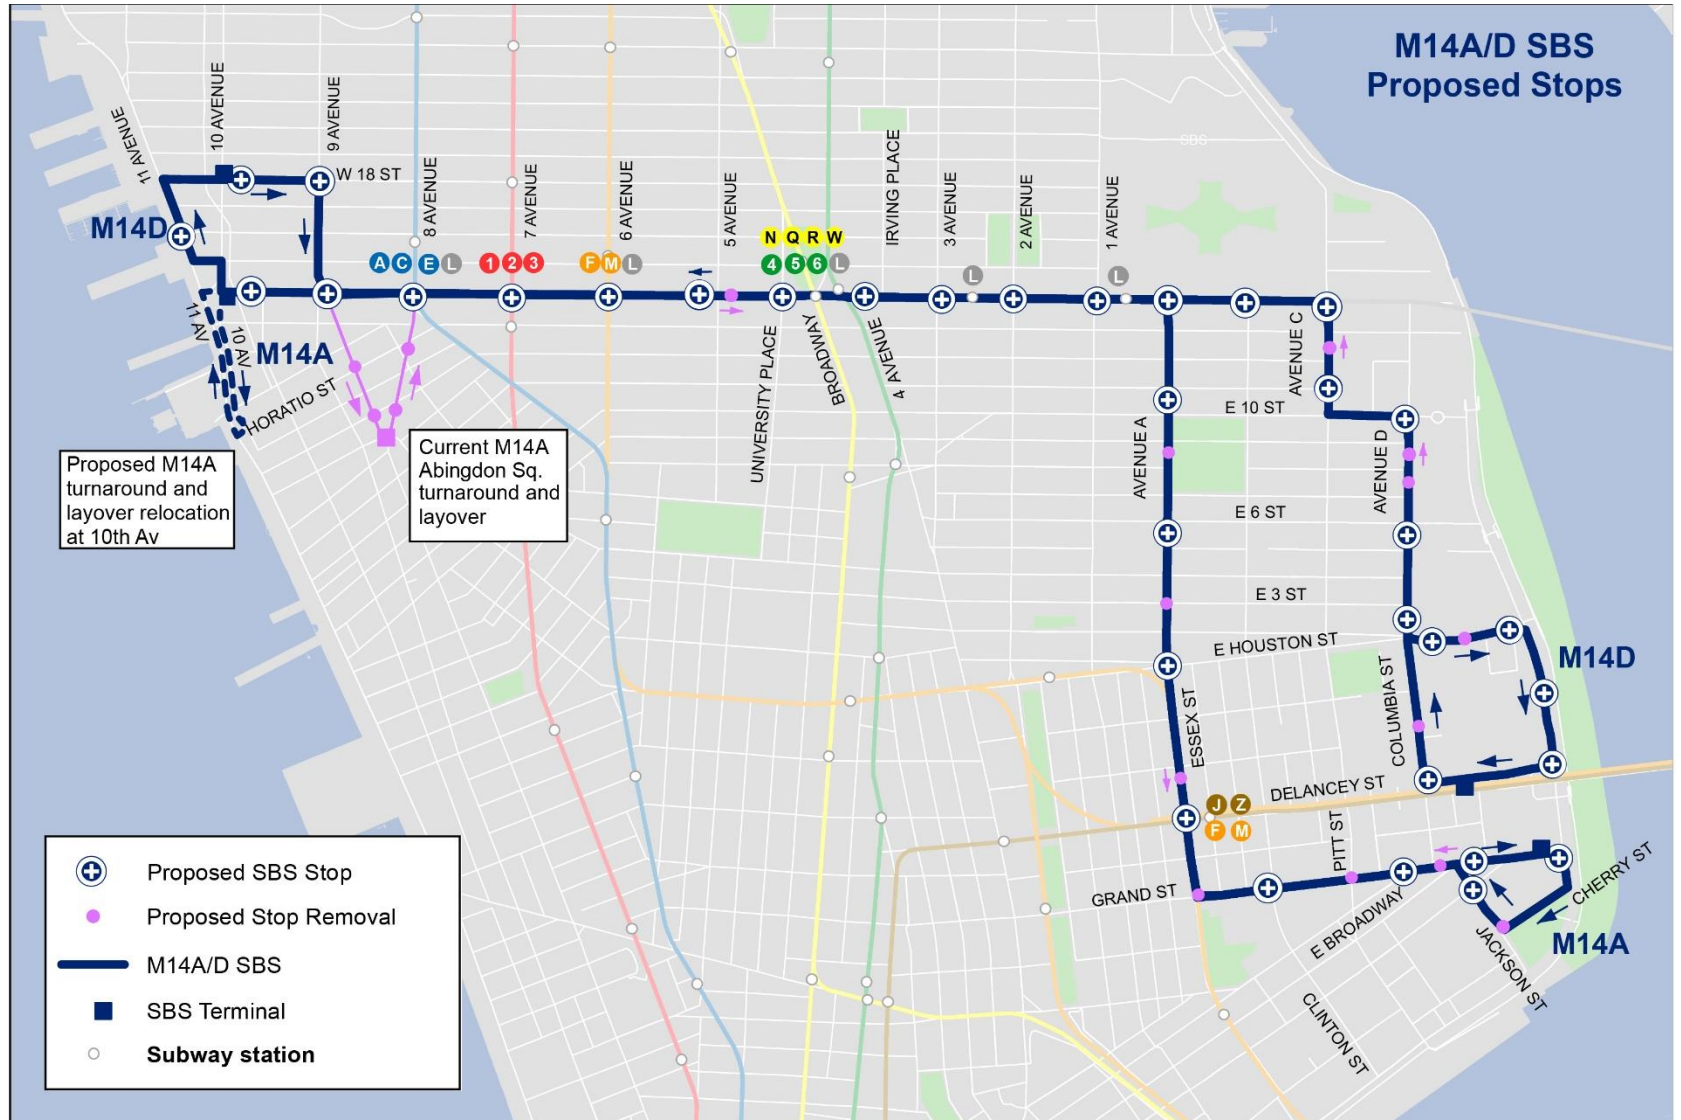

Transit and Truck Priority Street

Pilot Project Monitoring Plan

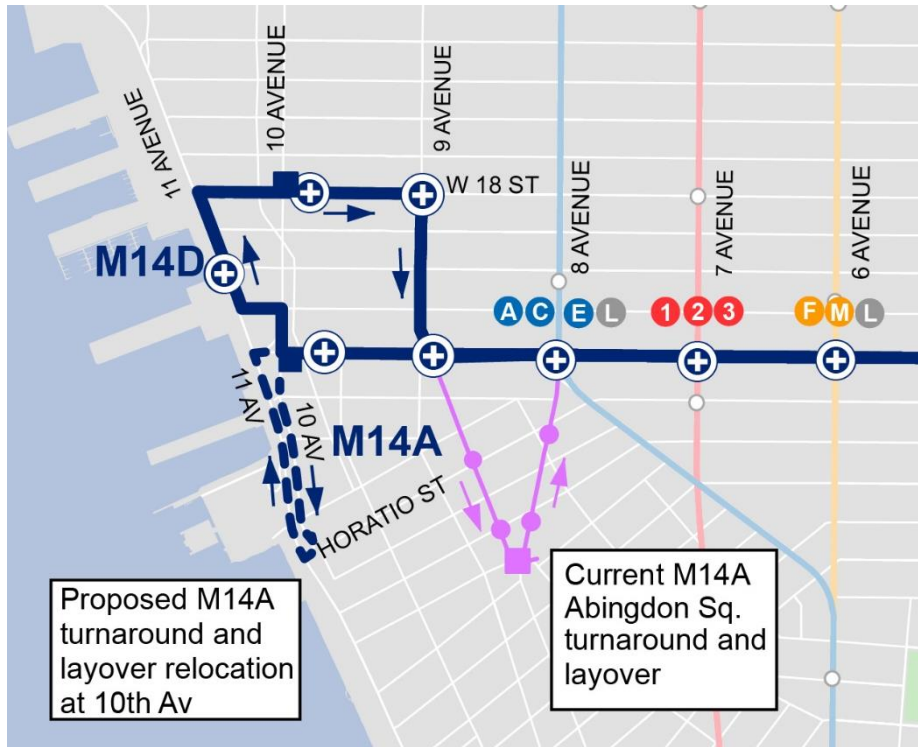

- **Bus performance**
 - Travel times
 - Ridership
- **Traffic volumes**
 - 14th Street
 - Adjacent streets
 - Trucks
- **Curb activity**
 - Commercial loading
 - Pick-up/Drop-off access
- **Enforcement**
 - Through movements on 14th
 - Trucks off designated routes
- **Safety**

Proposed Service Plan

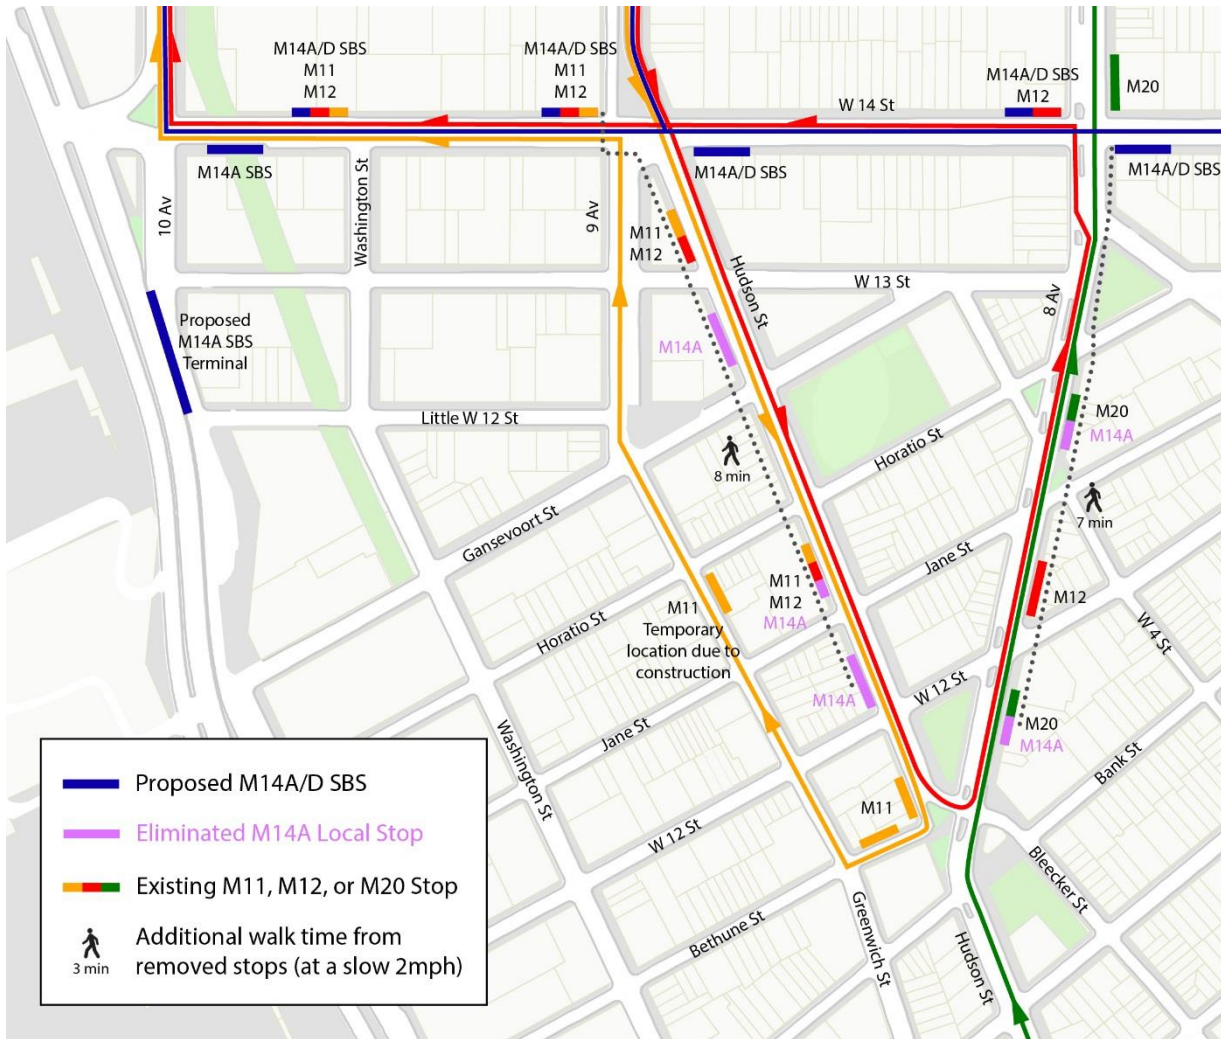

West Side M14A Adjustment

- M14A loop through Abingdon Square requires tight turns and disruption to narrow streets.
- Proposal removes M14A from Abingdon Square and extends it to 10 Avenue, providing more service on the primary corridor of 14 Street.
- Abingdon Square stops have 1/12 the ridership of the 14 St stops at 8 and 9 Aves.

West Side M14A Adjustment

- Abingdon Square area is served by 3 other bus routes connecting to 14 St: the M11, M12, and M20
- Combined frequency of these routes is 6 min northbound, 8 minutes southbound
- M11 by itself has almost the same frequency as M14A

Union Square Area Bus Stops

5 Av and University Pl eastbound stops relocated to new stop at southwest corner of 14 St & University Pl

 M14A/D Proposed SBS Stops

 M14A/D Relocated Stops

Next Steps

- Outreach to Community Boards 3, 4, 5 and 6 and other stakeholders in May, fulfilling Major Transportation Project requirements
- Coordination with City agencies
- Transit and Truck Priority implementation in early summer
