

## Greener Greater Buildings Plan Digest, Vol. 14

### ANNOUNCEMENTS

- **LL87 – Input Tool to be used for submission**
  - Compliance with LL87 requires the submittal of an Energy Efficiency Report (EER) to the DOB. The EER will likely consist of an electronic form for data & DOB forms. The City is collaborating with NYSERDA to develop the input tool to collect the data for Local Law 87, Audits & Retro-Commissioning. The input tool will be an easy to use Excel spreadsheet with similar reporting features as the NYSERDA Multifamily Performance Plan ERP Tool. The exact method and forms for LL87 submission will be finalized early in 2013, and we will distribute details as soon as they are available.
