ATTENDEES

COMMITTEE MEMBERS

Vincent Calamia, MD, Committee Chair

Ramanathan Raju, MD, President

Josephine Bolus, RN

Amanda Parsons, MD (representing Health Commissioner, Mary Bassett, MD, in a voting capacity)

OTHER BOARD MEMBERS

Emily A. Youssouf

HHC CENTRAL OFFICE STAFF:

Sharon Abbott, Assistant Director, Corporate Planning and HIV Services

Machelle Allen, MD, Deputy Chief Medical Officer, Office of Health Care Improvement

Janette Baxter, Senior Director, Risk Management

Jen Bender, Associate Director, Media Relations

Gary Belkin, MD, Senior Director, Office of Behavioral Health

Suzanne Blundi, Deputy Counsel, Office of Legal Affairs

Nicholas V. Cagliuso, Assistant Vice President, Office of Emergency Management

Louis Capponi, MD, Chief Medical Informatics Officer

Eunice Casey, Senior Management Consultant, Corporate Planning

Deborah Cates, Chief of Staff, Board Affairs

Maria Arias-Clarke, Assistant Director, Corporate Budget

Paul Contino, Chief Technology Officer

Nelson Conde, Senior Director, Office of Professional Service & Affiliation

Megan Cunningham, Associate Director, Accountable Care Organization

Robin Dasilva, Associate Director, Quality Performance and Innovation

Barbara Deiorio, Senior Director, Internal Communications

Christine Desrosiers, Office of Legal Affairs

Joel Font, Consultant, Enterprise IT Service (EITS)

Denise Dudley, Director/Affiliation Administrator, NYU Affiliation

Juliet Gaengan, Senior Director, Clinical Affairs

Marisa Salamone-Greason, Assistant Vice President, EITS

Sal Guido, Assistant Vice President, Infrastructure Services

Terry Hamilton, Assistant Vice President, Corporate Planning Services

Mark Hartman, Senior Counsel, Legal Affairs

Lauren Haynes, Assistant System Analysis, President Office

Lydia Isaac, Assistant Director HIV

Caroline Jacobs, Senior Vice President, Safety and Human Development

Lauren Johnston, Senior Assistant Vice President/Chief Nursing Officer, Patient Centered Care

Christina Jenkins, MD, Senior Assistant Vice President, Quality, Performance and Innovation

Mei Kong, Assistant Vice President, Patient Safety

Patricia Lockhart, Secretary to the Corporation

David Larish, Director Procurement, Operation

Ronald Low, MD, Senior Director, Office of Statistic and Data analysis

Katarina Madej, Director, Marketing

Ana Marengo, Senior Vice President, Communications & Marketing

Antonio D. Martin, Executive Vice President/Corporate Chief Operating Officer

Karen Mattera, Director, Office of Emergency Management

Kathleen McGrath, Senior Director, Communications & Marketing

Andreea Mera, Director, Office of Healthcare Improvement

Charlotte Neuhaus, Senior Management Consultant, Corporate Planning Services

Deirdre Newton, Office of Legal Affairs
Praveen R. Pannala, Associate Director, Research Office
Joseph Quinones, Senior Assistant Vice President, Operations
Bert Robles, Senior Vice President, Chief Information Officer
Deborah Rose, Director, Medical and Professional Affairs
Salvatore Russo, Senior Vice President & General Counsel, Legal Affairs
Loru Schomp, Senior Consultant MIS
David Shi, Senior Director, Primary Care/Medical and Professional Affairs
Pat Slesarchik, Assistant Vice President of Labor Relations
David Stevens, MD, Senior Director, Office of Healthcare Improvement
Nicholas Stine, MD Chief Medical Officer, Accountable Care Organization
Yolanda Thompson, Asst. Director, IT
Diane Toppin, Director, Acting M&PA Divisional Administrator
Steven Van Schultz, Director, IT Audits
Joyce Wale, Senior Assistant Vice President, Office of Behavioral Health
Rick Walker, Chief Finance Officer, North Bronx Health Network
Tony Williams, Director of Information Services

FACILITY STAFF:

Steve Alexander, Executive Director, Bellevue Hospital Center
Ernest Baptiste, Executive Director, King County Hospital Center
David Baksh, Assistant Executive Director, Queens Hospital Center
Yolanda Bruno, Medical Director, Coler-Carter Specialty Hospital
Joseph Carter, Associate Director, Bellevue Hospital Center
Chris Constantino, Senior Vice President, Queens Health Network
Elizabeth Gerdts, Chief Nurse Executive, North Central Bronx Hospital
Robert Hughes, Executive Director, Coler –Carter Specialty Hospital
George Leconte, Assistant Executive Director, Queens Hospital Center
John Maese, MD, Medical Director, Coney Island Hospital Center
Terry Mancher, Chief Nurse Executive, Coney Island Hospital
Seth Marine, Coordinating Manager, Bellevue Hospital Center
Ellen O'Connor, Chief Nurse Executive, Jacobi Medical Center
Lillian Rodriguez, Finance Associate Director, Bellevue Hospital Center
Richard Stone, MD Medical Director Metropolitan Hospital
Arnold Saperstein, MD, Executive Director, MetroPlus Health Plan
Anushka Dufresne, Special Assistant to the President, MetroPlus Health Plan
Marie Elivert, Senior Assistant Executive Director, Queens Hospital Center
Rajiv Pant, MD, Assistant Medical Director, Woodhull Medical and Mental Health Center
Denise Soares, Senior Vice President, Generations+/No. Manhattan Network, Harlem Hospital Center
Arthur Wagner, Senior Vice President, Southern Brooklyn/Staten Island Network
Marcellus Walker, MD Medical Director East New York D&TC
Meryl Weinberg, Executive Director, Metropolitan Hospital
Maurice Wright, MD, Medical Director, Harlem Hospital Center

OTHERS PRESENT

Moira Dolan, Senior Assistant Director, DC37, Research & Negotiations Department
Simon Herelle, EMC Corporation
Scott Hill, Account Executive, QuadraMed
Gerald Cohen, MD NYC Department of Mental Health
Richard McIntyre, Siemens
Thomas J. Petrone, President of Petrone Associates Medical Physicists
Samantha ReBurne, Assistant Administrator, NYU
Lori Schomp, OMB

MEDICAL AND PROFESSIONAL AFFAIRS/
INFORMATION TECHNOLOGY COMMITTEE
Thursday, May 8, 2014

Dr. Calamia, Chair of the Committee, called the meeting to order at 12:00 noon. The minutes of the April 10, 2014 Medical & Professional Affairs/IT Committee meeting were adopted.

CHIEF MEDICAL OFFICER REPORT

Ross Wilson MD, Senior Vice President/Corporate Chief Medical Officer, reported on the following initiatives:

HHC Doctors Day Celebration

On May 1st, HHC recognized 23 physicians who were nominated as honorees by their facilities. Award presentation was performed by Dr Raju at our Doctors Day celebration at Baruch College. Honorees were well supported by executive leadership from their facilities, especially from Chief Nurse Executives. The honorees will have a presence on the HHC intranet site in the near future.

HHC ACO

CMS has confirmed that we have successfully met all 2013 ACO reporting requirements and will not be subject to audit.

In an effort to improve our provision of actionable quality performance data, the ACO is collaborating with IT partners to produce facility-level reports at least quarterly on all ACO measures that can be reliably queried from the clinical data warehouse. The first round of facility-level data will be distributed this month. Based on a retrospective review pilot of 2013 high-utilizers carried out at each hospital and D&TC, facility leadership are currently implementing a process of ACO High-Risk Patient Reviews. At these standing meetings, an interdisciplinary team reviews quality and utilization data on their most vulnerable patients, develops care plans, and tracks progress toward performance measures. These discussions will guide any improvements in care coordination or care management that may be helpful to these patients.

Teen Health Program

HHC held its first HHC Teen Health Improvement Conference on April 9, with 134 attendees from across HHC and key external partners in the field of teen health and wellness. Presenters focused on the social, cultural, and biological determinants of health in teens as well best practices for attracting and retaining teens in care, and shared best practices for quality of care.

The Teen Health program received confirmation for a continuation of funding for FY '15, and attracted a CTSI grant to study the impact of physician training with standardized patients on "real" patient satisfaction, engagement and commitment to effective contraception

Pediatric Obesity

Childhood obesity prevalence and screening data reports are now being generated and shared with our pediatric practices. The corporate-wide screening rate is 97.9% and is consistent across all age groups and sites. HHC-wide obesity rate is 21.0% (ranging from 18.6 at CIH to 24.5 at Belvis. The observed HHC "overweight plus obese" was 38.7%, ranging from 34.8% at Harlem to 41.7% at Belvis.

We are now developing reports to identify high risk patients who have not been seen for follow-up on their weight in over 6 months. In addition, on-site training in healthy weight counseling, including motivational interviewing, for all clinical pediatric staff across HHC is occurring across HHC. The goal is for every child to have personalized goals in line with the 5-2-1-0 targets (5 fruits/vegetables per day, 2 hours or less screen time, 1 hour or more physical activity, and zero sugary drinks including juice). Article VI funding is being used to provide patient tools such as scales and pedometers at all HHC facilities.

Hospital-Medical Home Demonstration Award

The NYS Hospital-Medical Home Demonstration Award is the most recent extension to the Partnership Plan 1115 Waiver. The purpose of the program is to support teaching hospitals as they improve coordination, continuity, and quality of care for Medicaid beneficiaries by transforming their outpatient primary care training sites into high quality Patient-Centered Medical Homes and make other inpatient quality and safety improvements. Award funds are distributed based on the successful completion of program milestones and the approval of quarterly reports. As part of the NYS HHC Demonstration Award, HHC has been awarded a total of \$95 million dollars over 3 years. In addition to the \$37.8 million received as part of year one (2013) funding, HHC received an additional \$7.18 million in April 2014 representing 25% of year 2 funding. Funds are being directed to support our ambulatory

transformation, ranging from PCMH models for primary care, to integration of behavioral health into primary care, such as the Collaborative Care program.

As part of this award, HHC published a guide "Implementing a PCMH Curriculum in a Teaching Practice", with the objective to strengthen residency integration in the PCMH. The guide was developed by workgroup of residency program leaders from 6 HHC sites - Harlem, Bellevue, Woodhull, Jacobi, and Metropolitan in collaboration with GNYHA. The guide will be launched at a symposium GNYHA is holding on May 7th, 2014 in conjunction with NYS DOH.

HHC has received NCQA PCMH Level 3 re-certification for 11 hospitals, 6 D&TCs and 17 CHCs. This has allowed us to collect an additional \$10.77 million (YTD for FY 14) through the NYS Medicaid PCMH Incentive payments program.

May is Mental Health Month

In recognition of this, we would like to thank all of our workforce for the work you do to further the science and treatment of mental health disorders. Every day we hear about new and innovative interventions that you are doing to help patients and their families toward recovery. From "front line" staff to clinical leaders, to administrators, we have seen the commitment you have to help people have healthier and more productive lives. Our deepest regards and respect for the work you do.

Also to the patients, families and care givers who struggle daily to manage their mental health disorders, we recognize how difficult it is sometimes to cope with daily life, let alone in tandem with other chronic illnesses as well. We applaud their courage, commitment and strength as they work toward improved mental and physical health.

Retirement of Corporate Chemical Dependency Leader

Mr. Peter Coleman Senior Director will retire at the end of this month after a 31 year Career in Chemical Dependency Services, with the last 15 years at HHC. Mr. Coleman has lead activities to standardize care policies, implemented and published about HHC's use of Contingency Management, and supported the transition to TJC Opioid Accreditation. HHC is recognized by OASAS as a leader in creating a more recovery oriented system and our work in moving toward more ambulatory detox services. Mr. Coleman served on the Governor's Substance Abuse Advisory Council and Chaired several provider organizations Board's including COMPA and ASAP. He will be missed.

Gage Award

The Gage Awards Program – named after NAPH (now America's Essential Hospitals) founder and champion for vulnerable populations, Larry S. Gage – honors and shares the outstanding work of NAPH members. Winners are recognized for successful and creative programs that boost patient care and meet community needs.

HHC received an honorable mention in the Gage awards for our work in CLABSI reduction (CY 2012). Our work will be included as a "remarkable project" in the 2014 awards ceremony and published materials.

Nurse Recognition Week

This week is nurse recognition week, with many facility level events supported by local leadership and the Corporate Chief Nurse Executive, Ms Lauren Johnston. This is an important opportunity to thank our many dedicated and expert nurses for the vital work that they do every single day for our patients.

The film "The American Nurse" will be showing at a local theater for staff on May 19 & 20

METROPLUS HEALTH PLAN, INC.

Arnold Saperstein, MD, Executive Director, MetroPlus Health Plan Inc. presented to the Committee. Dr. Saperstein informed the Committee that the total plan enrollment as of April 28th, 2014 was 443,255. Breakdown of plan enrollment by line of business is as follows:

Medicaid	361,705
Child Health Plus	11,593
Family Health Plus	24,542
MetroPlus Gold	3,332
Partnership in Care (HIV/SNP)	5,272
Medicare	8,022
MLTC	511
QHP	27,792
SHOP	486

Attached are reports of members disenrolled from MetroPlus due to transfer to other health plans, as well as a report of new members transferred to MetroPlus from other plans.

In regards to the New York State of Health Marketplace (NYSoH), over 1.3 million consumers have completed their applications and 949,428 have enrolled for coverage since the launch of the Marketplace on October 1, 2013. More than 70 percent of those who have enrolled to date were uninsured at the time of application. With the exception of individuals who took steps to enroll prior to the March 31 deadline yet require assistance to complete their enrollment, only those individuals and families who qualify for a Special Enrollment Period will be able to enroll in coverage until November of 2014. Special Enrollment Period qualifying events include getting married or divorced, gaining a dependent, losing employer insurance, or permanently moving into New York State. Individuals and families who do not qualify for a Special Enrollment Period will not be able to enroll in coverage until the next open enrollment period, which begins on November 15, 2014 for coverage starting on January 1, 2015. Consumers eligible for Medicaid and all children can enroll for coverage through NY State of Health at any time during the year.

As of April 28th, 2014, MetroPlus has received over 56,000 completed Qualified Health Plan applications and have over 39,500 paid individual and SHOP members. We have also added almost 36,000 new Medicaid and Child Health Plus members, who enrolled through the Exchange website. This 92,000 member enrollment is approximately 10% of the state's enrollment, to a plan that operates in only four counties.

In April, the NYSoH and the Department of Financial Services (DFS) formally issued the invitation to Health Plans to participate on the Exchange in 2015. Most of the provisions from 2014 will remain, with some changes. For out of network, the requirements for 2015 QHPs will match the 2014 requirements. Plans only have to offer an Out Of Network (OON) option on the Marketplace if they are offering an OON product in the individual and/or small business market.

The 2014-15 NYS budget, approved in March, protects consumers from surprise costs and sets up an arbitration process that removes the consumer from billing disputes between out-of-network doctors and health insurers.

Also, the New York State of Health Marketplace has changed the deductible and out of pocket cap for the Silver product (200-250% FPL), lowering the deductible to \$1,200 from \$1,500 and increasing the Maximum Out Of Pocket (MOOP) cost to \$5,200 from \$4,000. MetroPlus product pricing has been underway for the last month, and the MetroPlus team has already begun finalizing the model language for our product offerings. Responses to the invitation are due on June 1st, 2014 and we fully anticipate being able to meet the deadline.

In March, MetroPlus expanded its marketing presence to three New York area malls. MetroPlus marketing representatives are marketing MetroPlus products in Green Acres Mall, Queens Center Mall and Kings Plaza Mall. To date, the teams at these malls have submitted 1,449 applications for new members. In addition, over 193 leads for new members have been generated at these new mall sites. The response has been very positive at the malls, and I am pleased that this pilot has proven to be fruitful.

As I reported last month, MetroPlus has been in the process of preparing for the response for the New York State Department of Health (NYSDOH) formal Request for Qualifications (RFQ) for the Health and Recovery Plans (HARP). As I stated to the

committee, I wanted to report on our progress and outline the timeline around the process. In preparation, MetroPlus released a Request for Proposals (RFP) for administrative BHO services on April 10th, 2014. Responses from vendors are due on May 5th, 2014, and we will select a vendor by May 15th, 2014. Final response to the RFQ is due on June 6th, 2014.

ACTION ITEMS:

Authorizing the President of the New York City Health and Hospitals Corporation ("the Corporation") to negotiate and execute an extension of the Affiliation Agreement with the New York University School of Medicine ("NYUSOM") for the provision of General Care and Behavioral Health Services at Bellevue Hospital Center ("Bellevue") and Gouverneur Healthcare Services ("Gouverneur") for a period of one year, commencing July 1, 2014 and terminating on June 30, 2015, consistent with the general terms and conditions and for the amounts as indicated in Attachment A to provide the parties adequate time to conclude negotiations for a new agreement.

Authorizing the President of the New York City Health and Hospitals Corporation ("the Corporation") to negotiate and execute an extension of the Affiliation Agreement with New York University School of Medicine ("NYUSOM") for the provision of General Care Health Services at Coler Specialty Hospital and Nursing Facility ("Coler") and Henry J. Carter Specialty Hospital and Nursing Facility ("Carter"), for a period of one year, commencing July 1, 2014 and terminating on June 30, 2015, consistent with general terms and conditions and for the amounts as indicated in Attachment A to provide the parties adequate time to conclude negotiations for a new agreement.

Authorizing the President of the New York City Health and Hospitals Corporation ("the Corporation") to negotiate and execute an extension of Affiliation Agreement with the New York University School of Medicine ("NYUSOM") for the provision of General Care and Behavioral Health Services at Woodhull Medical and Mental Health Center ("Woodhull") and Cumberland Diagnostic and Treatment Center ("Cumberland") for a period of one year, commencing July 1, 2014 and terminating on June 30, 2015, consistent with the general terms and conditions and for the amounts as indicated in Attachment A to provide the parties adequate time to conclude negotiations for a new agreement.

The above resolutions presented by Mr. Antonio Martin, Executive Vice President/Chief Operating Officer was approved under one motion to be consideration by the full Board of Directors.

INFORMATION ITEM:

*Performance Improvement, Business Analytics and
QuadraMed Data Migration Strategy*

Paul Contino provided an update on the Business Intelligence Platform. Highlights of his presentation included the following: Major Deliverables: Installation and Configuration of all Hardware and Software; Design, Setup and Configuration of Data Extraction process; Acquired key skill sets to support team; Extensive Training of the IT staff on the new platform; Electronic Business Glossary; Data Quality/Profiling "active" for new projects; Phased data loads into the Healthcare Data Warehouse (HDW); Patient demographics; Provider; Organization (location-facility) information; Standard Code Sets (Procedure, Diagnosis, Drug); Encounters – initially for "active patients" – then historical loads; Lab results (some); Diagnosis /Procedures; Setup and Design of Presentation Portal.

There being no further business, the meeting was adjourned at 2:30 pm.

MetroPlus Health Plan, Inc.
Report to the
HHC Medical and Professional Affairs Committee
June 12th, 2014

Total plan enrollment as of May 30th, 2014 was 466,480. Breakdown of plan enrollment by line of business is as follows:

Medicaid	368,976
Child Health Plus	11,908
Family Health Plus	22,724
MetroPlus Gold	3,362
Partnership in Care (HIV/SNP)	5,227
Medicare	8,134
MLTC	540
QHP	44,989
SHOP	620

Attached are reports of members disenrolled from MetroPlus due to transfer to other health plans, as well as a report of new members transferred to MetroPlus from other plans.

As of May 30th, 2014, MetroPlus has over 46,000 paid individual and SHOP members. We have also added over 45,000 new Medicaid and Child Health Plus (CHP) members, who enrolled through the Exchange website. This 91,000 member enrollment is approximately 10% of the state's exchange enrollment, to a plan that operates in only four counties. While the addition of 45,000 Medicaid and CHP is positive, there are technical issues with auto-assignment through New York State Of Health (NYSOH). The Department of Health (DOH) has acknowledged issues with auto-assignment for individuals enrolling through NYSOH. Health plans have not received the appropriate proportions of auto-assignments, and some plans that did not qualify to receive members based on their quality performance have received auto-assignments. Some individuals have been assigned to plans that do not participate in their counties, as well. DOH will attempt to rectify the situation moving forward and ensure that plans eventually receive the correct proportion of auto-assignees that they should have initially received, but offered no estimated date or details on the solution.

This month, key MetroPlus staff members have been preparing for the submission of the MetroPlus Qualified Health Plans application for the New York State of Health, due June 13th, 2014. During the week of May 19th, 2014, the Department of Financial Services (DFS) released template notices that insurers should use when drafting initial notices of proposed rate increases that must be sent to policyholders at the time an insurer submits a rate adjustment application to DFS. This notice, required by New York's prior approval law, informs consumers of the proposed rate adjustments and directs policyholders where they can get more information about the proposed rate adjustment and how they can submit comments to DFS. At this point, notices will need to be sent to policyholders no later than June 13, 2014.

Also in May, the MetroPlus Quality Management (QM) Department has been focused on HEDIS/QARR data collection. Data has been collected, entered, and reviewed across HHC and non-HHC locations over the past 3 months. The MetroPlus QM department completed reviews for approximately 13,000 medical records. Additionally, the QM department successfully passed the HEDIS audit in collaboration with many other MetroPlus departments. The HEDIS audit is completed on a yearly basis by an outside party to ensure that the plan is meeting all the necessary NCQA data collection requirements and standards. Also, significant progress has been made towards the improvement of MetroPlus Medicare Star Ratings. The most significant effort was the execution of the Medication Adherence Program (MAP). MAP is an outreach campaign aimed at improving member's medication adherence in the areas of anti-hypertensive medications, oral diabetic medications and statin medications that began in May and continues through August 2014. In addition to the MAP, work also began on a high touch telephonic campaign to our membership. The high touch member campaign aims to improve the member experience and prevent issues before they arise.

As I have reported previously, in order to meet the comprehensive requirements of the Health and Recovery Plan (HARP) for the severely mentally ill population as well the additional requirements to assume behavioral health coverage for the previously carved out SSI population, we have done an RFP for a Behavioral Health Organization to assist us in meeting these requirements. We received four responses to our RFP, and the vendor that was chosen was Beacon. The contract will be brought to the MetroPlus Board of Directors on June 10th and to the HHC Board of Directors on June 26th.

Bert Robles
Senior Vice President, Information Technology Services
Report to the M&PA/IT Committee to the Board
Thursday, June 12, 2014 – 9:30 AM

Thank you and good afternoon. I would like to provide the Committee with the following updates:

1. Meaningful Use (MU) Stage 2 Update:

On Tuesday May 20th, Centers for Medicare & Medicaid Services and the Office of the National Coordinator for Health IT announced a proposed rule that would give providers an additional year to upgrade electronic health record systems to meet reporting requirements for Stage 2 of the Medicare Meaningful Use program.

The proposed rule includes a provision that would extend Stage 2 through 2016. If finalized, the earliest a provider would participate in Stage 3 of meaningful use would be 2017.

Additionally, the proposed rule would allow for relaxed attestation criteria (valid only for the 2014 reporting year) that would provide the option to attest with the updated 2014 Stage 1 objectives.

The 2014 Participation Options that apply to HHC are as follows:

Providers currently working on Stage 2 in 2014 would be able to attest using:

- Stage 1 (2014+ Definition) using 2014 Edition Certified Electronic Health Record Technology (CEHRT); or
- Stage 2 (2014+ Definition) using 2014 Edition CEHRT.

The 2014 Stage 1 objectives were updated to include:

1. Provide patients the ability to view online, download and transmit information about a hospital admission
2. More than 50 percent of all patients who are discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or Critical Access Hospitals (CAH) have their information available online within 36 hours of discharge.

2014 Stage 1 objectives do not include the TOC (Transition of Care) - Measure 12 Objective which has been the most difficult measure to meet due to the immaturity of the technology needed to support this measure (i.e., lack of direct addresses amongst providers, unavailable HISP functionality and lack of provider directories).

However, I strongly suggest we stay the course and continue with push for Stage 2. We will be required to meet these measure and objectives in 2015 and we need to ramp up our volumes so we can sustain the measure thresholds. If during the attestation window, we find facilities are not going to make Stage 2 criteria we can attest with 2014 Stage 1 criteria.

2. ICIS Update:

The ICIS team continues facilitating Work Group meetings for work flow and content build. To date, over 110 individual meetings with clinicians, administrators, corporate office and ancillary staff have been conducted. Several meetings have been conducted with inter-department and inter-disciplinary teams to support patient flow throughout their admission/ visit.

For example, discussions were facilitated on the integrated workflow between Radiology and Cardiology Nuclear Stress departments. A key discussion point addressed: Is it appropriate for the Cardiology portion of the Nuclear Stress test report to be released to the ordering physician before the Radiology report is completed? The final report is a combined report of both portions of the Cardiology and Radiology test.

To enhance the foundational knowledge of our clinicians at our facilities, the ICIS leadership team facilitated the May monthly Physician and Nurse Champion call focusing on education that would be beneficial for the Champions. This education is offered by Epic. It includes both on-line and on-site EPIC courses at the Verona, Wisconsin campus. The goal of the educational sessions is to provide our Champions a more in-depth knowledge of Epic functionality. This will foster informed decision making and provide our Champions with a solid knowledge base when addressing their colleagues in the field.

As we plan for our initial sites to come up on the Epic EMR the following planning and analysis activities are in progress:

- Reviewing the credentialed EPIC /ICIS training program as well as planning how best to develop and execute a curriculum for basic computer skills training required prior to Epic training for our end users

- Preparing to work with Cerner laboratory team post kick off in early June to draft, review, finalize and incorporate the Lab implementation work plan

In addition, as we move forward, we continue to work closely with both Soarian and Laboratory restructuring leadership to ensure open communication, planning and design collaboration.

3. **Active Directory (AD) Upgrade Status:**

Enterprise IT Services continues to complete the Active Directory (AD) upgrade at all HHC facilities. The AD system allows for the authentication and authorizes all HHC users and computers throughout all HHC facilities and sites. AD creates user accounts, assigns and enforces security policies for all computers on the HHC network and installs and/or updates software. For example, if an HHC user logs into a HHC computer that is part of the HHC domain, AD would check the submitted password and determine whether the individual logging in would be a normal user.

To date, the AD upgrade is 85% complete with no significant problems identified. The next sites to be upgraded are North Bronx, South Manhattan and North Brooklyn networks along with Central Office. The project timeline has been accelerated so that the project can be completed by mid-October 2014. This upgrade is a pre-requisite for the Corporation to migrate from the current Groupwise email system to Microsoft Exchange email system. EITS anticipates that the migration to Microsoft Exchange will be completed by the end of second quarter calendar year 2015.

This completes my report today. Thank you.

Health Home

Medical and Professional Affairs

June 12, 2014

Health Home

Criteria

Medicaid eligible individuals must have:

- Two chronic conditions
OR
- One chronic condition - HIV/AIDS or serious persistent mental health condition (SPMI)
AND
- Eligible individuals are also frequent users of Medicaid services.

Services

- Comprehensive care management
- Health promotion
- Transitional care including appropriate follow-up from inpatient to other settings
- Patient and family support
- Referral to community and social support services

HHC Health Home Design

- One HHC Health Home, multi focal
- Care Coordination for high-need, high-cost Medicaid recipients with *chronic* conditions
- Single care coordinator
- Unified care team
- Linkage to PCP
- Shared Care Plan
- Integrated approach to meet medical, behavioral health, substance abuse and social needs
- Per Member/Per Month (PMPM) capitated rate

HHC Health Home Enrollments

As of March, 2014	Enrolled	Trying to Engage
Bellevue	170	61
Coney Island	75	3
EHC/QHN	301	15
Harlem	99	14
Jacobi/NCB	22	115
Kings	206	208
Lincoln	204	3
Metropolitan	100	15
Woodhull	509	36
<i>Total</i>	<i>1686</i>	<i>470</i>

What's next? *Expansion*

- Infrastructure:
 - Community Based Organization Partners
 - More robust IT platform
- MRT Housing Pilot
- Accountable Care Organizations (ACOs)
- Adult Homes/Olmstead Mandate
- Delivery System Reform Incentive Program (DSRIP)
- Health and Recovery Plans (HARPs)
- Beyond Medicaid

Transfer Center

Medical and Professional Affairs

June 12, 2014

I need to send a patient.....

- Contact the Transfer Center at: **844-HHC-BEDS** if you need to initiate a transfer
- The Transfer Center will contact the receiving provider and connect them to the referring provider for clinician report
- Once accepted, the coordinator will confirm where accepted, if updates needed, type of transport required.
- If an update requested, the transfer center will update with an ETA and bed assignment when known
- HHC Transfer Center will take care of bed placement, transportation, connecting nurse report, faxing paperwork, notifying other facility of incoming transfer as necessary
- All communications are completed on a recorded line

Goals and Objectives

Establish a 24 hour transfer center that will:

- Expedite transfers involving HHC Hospitals with one call
- Increase efficiencies
- Service differentiation
- Transportation coordination
- Comprehensive Reporting
- Minimize leakage

How does this happen?

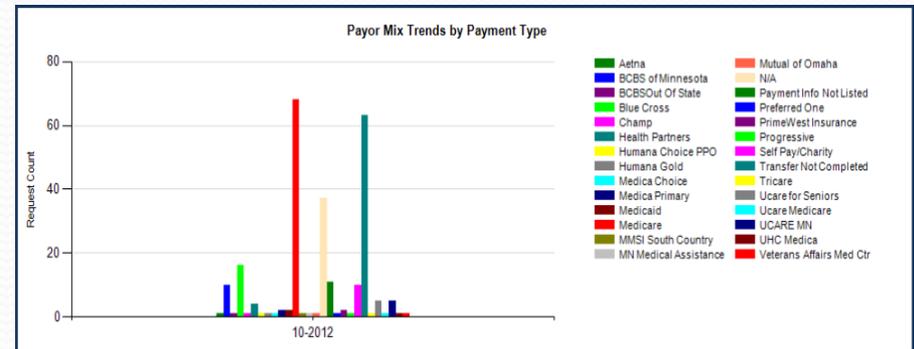

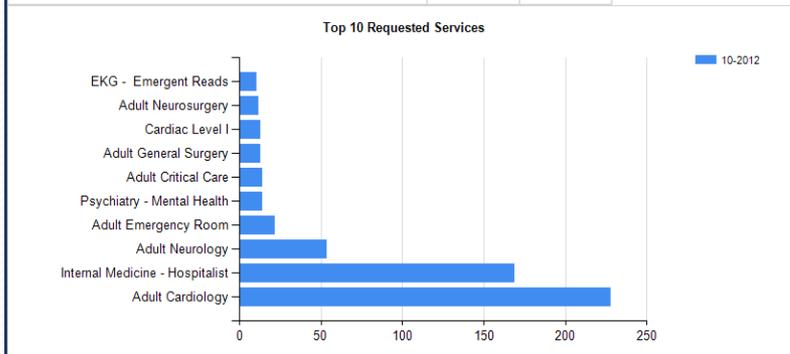

- dedicated staff to answer transfer requests coming into our transfer center line
- access to on line physician on call schedules, phone lists, etc.
- coordinate physician to physician communication
- coordinate bed placement with admitting and bed management
- follow escalation policies put in place by our administration
- coordinate transportation for patients
- Uses existing contracts and methods of transportation

Reporting Capabilities:

- Direct Call Provides a Web Based Reporting Solution
- Analyze Trends
- Access to Current Protocols
- Reference any Transfer Data 24/7
- Data, outcomes and trends reviewed at Councils

Actions | Find Next | 100% | Service Summary
Abbott Northwestern Hospital - 10/1/2012 to 10/31/2012

Top 10 Requested Services	10-2012	Total
Adult Cardiology	228	228
Internal Medicine - Hospitalist	169	169
Adult Neurology	54	54
Adult Emergency Room	22	22
Psychiatry - Mental Health	14	14
Adult Critical Care	14	14
Adult General Surgery	13	13
Cardiac Level I	13	13
Adult Neurosurgery	12	12
EKG - Emergent Reads	11	11
Total	612	612

Acceptance Volume by Service
TEST TEST - 1/1/2012 to 10/31/2012

Accepting Service	1-2012	Total
Adult Cardiology	1	1
Adult Critical Care	1	1
Adult Emergency Room	2	2
Adult Neurology	1	1
Adult Neurosurgery	1	1
Adult Trauma	2	2
Adult Urology	1	1
Internal Medicine - Hospitalist	1	1
Total	10	10

Shows how many times each service accepted a transfer broken down by month with a final total. In this example, Test Hospital, it only shows data for January 2012 due to this being the only data available.

If any of these services accepted a call in February 2012, this would be displayed as well making the Total a total of January and February Data.

DirectCall Acceptance Volume by Service.rdl Report Created on 11/20/2012 2:26:36 PM by AMOCfeller

Activity to date:

3/17/2014 – 6/8/2014

- 783 Patient Transfers
- All but 55 patients bypassed receiving ED
 - 268 cardiology Transfers
- 32 transfers left HHC to other systems
- 19 Transfers not completed
- 171 Medicaid Patient Transfers
 - 24 were MetroPlus

What's Next: *Expansion*

- Reduce Total Transfer time (current average was: 5 hours 17 minutes)
- Enhance transportation capacity and contracts
- Expand service to:
 - Psychiatry transfers
 - skilled nursing facilities
 - community providers
 - Market to broader audience
