**Making Quality  
Health Care Affordable**

# HHC OPTIONS

The New York City Health and Hospitals Corporation (HHC) provides health care for everyone. HHC's program to make its health care services affordable to all New Yorkers is called **HHC OPTIONS**.

HHC respects the rights and privacy of all patients including people who are not legal immigrants and people who do not have money to pay for medical care. Our staff can help you apply for public health insurance programs.

If you do not speak English, HHC can help you speak with your doctor and others. Our staff speak many languages (Albanian, Arabic, Bengali, Chinese, French, Haitian Creole, Hindi, Korean, Polish, Russian, Spanish, and Urdu). You can get information in your language.

## How do I qualify?

HHC Options program is for patients who do not have insurance or have limited insurance coverage. If you live in or are visiting New York City, Westchester County or Nassau County, you can get reduced and affordable medical fees under the HHC Options program.

## What do I need to apply?

To get these services, you will be asked by an HHC employee to give information about how much you earn and your family size.

We help you apply for public health insurance and Qualified Health Plans – Medicaid, Child Health Plus, EPIC (for seniors) and ADAP (for people with HIV/AIDS).

## What do I pay?

If you get public health insurance there is no charge. If you do not get public insurance, you pay only what you can afford. The chart on the next page shows what you may be asked to pay. Your fee can be as low as \$0.

## What if you receive a bill while waiting to hear about your health insurance coverage?

If you apply for public health insurance you will not be asked to pay the bill while your application is being reviewed. If you get a bill, you should contact the hospital and ask to speak with a financial counselor who will help you.

## How do I apply?

To apply for health insurance or find out more about HHC Options – please call our health care centers listed on the back page of this booklet.

**STEP 1:** FIRST, find your family size (the number of adults and children that live with you). Next, find the amount that you got paid in a year in one of the levels. That level based on your family size is your reduced fee for HHC Options.

**STEP 2:** NEXT, using your level you can find how much you will pay for your doctor visit, emergency room visit or hospital stay, etc.
