Dear Mr. Lunke:

Community Board 10 is pleased to support the Harlem Community Development Corporation's feasibility study of the La Marqueta Mile concept. The goals of this project are aligned with some of the core goals of this Community Board which are to create thousands of new jobs while simultaneously expanding services and products available and manufactured in the Harlem community. The area concerned, underneath the Metro North viaduct between East 111th Street and East 132nd Street, is primarily used for vehicular parking and would be well served by the positive economic impact which would result from this project. La Marqueta Mile will simultaneously address the community's high unemployment and establish a more vibrant corridor along Park Avenue that will offer new economic opportunities to the community and City, and provide a location for cultural programming and artists looking to capitalize on their various talents.

We look forward to supporting the Harlem CDC as it completes the feasibility study to determine how La Marqueta Mile can best serve Harlem.

We are eager to be a partner with the Harlem CDC in the further development and refinement of this exciting concept and look forward to reviewing the results of the feasibility study.

Thank you for taking the steps to help address some of the major economic needs of the Harlem community.

Sincerely,

Henrietta Lyle
Chair
Community Board 10
