CITYWIDE JOB VACANCY NOTICE

Civil Service Title: Computer Specialist (SW)
Title Code No: 13632

Level: II
Salary: \$71,982 (Hiring Rate)
\$82,779 (Incumbent)
\$92,738 (Maximum)

Office Title: Senior Java Developer

Work Location: 421 East. 26th St. NYC

Division/Work Unit: Information Technology (IT) Unit

Number of Positions: 1

Hours/Shift: 35 Hours per week over a seven-day period; may include evenings, weekends and holidays.

JOB DESCRIPTION

OCME seeks a Senior Java Developer in the Information Technology Division. The ideal candidate is a seasoned developer with strong experience in Java and cross-functional applications development. The candidate must possess 5+ years of software development experience, Object Oriented programming using Java.

With supervision from the Director of IT Applications Development and Support, the candidate will

- Generate requirements for new projects
- Guide architecture and development of new systems
- Maintain vendor developed java applications.
- Support in-house developed applications written in variety of languages such as .Net, DataEase and other related applications.

QUALIFICATION REQUIREMENTS

1. A baccalaureate degree from an accredited college, including or supplemented by 24 semester credits in computer science or a related computer field and two years of satisfactory full-time computer software experience in computer systems development and analysis, applications programming, database administration, systems programming, data communications, including one year in a project leader capacity or as a major contributor on a complex project; **or**
2. A four-year high school diploma or its educational equivalent and six years of satisfactory full-time computer software experience as described in "1" above, including one year in a project leader capacity or as a major contributor on a complex project; **or**
3. Education and/or experience equivalent to "1" or "2" above. College education may be substituted for up to two years of the required experience in "2" above on the basis that 60 semester credits from an accredited college is equated to one year of experience. A masters degree in computer science or a related computer field may be substituted for one year of the required experience in "1" or "2" above. However, all candidates must have at least a four-year high school diploma or its educational equivalent and at least one year of satisfactory full-time experience in a project leader capacity or as a major contributor on a complex project.

SPECIAL NOTE: The selected candidate will be required to provide a DNA sample by swabbing.

PREFERRED SKILLS

- Strong demonstrated programming skills in multiple web development languages such as Java/JSP/Servlets, C#, ASP.Net, JavaScript.
- Practical experience in the following: Java web development framework such as Struts, Spring, GWT; Source Control software such as SVN, CVS, Team Foundation Service, Mercurial, et al; administering Java based web servers such as Apache, Jaguar, and the like; reviewing systems infrastructure, goals, and operational workflow requirements in order to select the right system environment, build appropriate system capacity, optimize system performance/reliability/security, development of scalable and extensible applications and database with cross functional and cross departmental application.
- Proficient in Microsoft SQL Server 2005/2008 scripting, stored procedures and Jasper reporting.
- Must work well with colleagues, vendors and customers.
- Must possess strong oral, written and interpersonal communication skills; able to pay close attention to detail, proven project methodologies; and able to handle multiple tasks under tight deadlines.
- Java Programming experience with LIMS and Load Runner is highly desirable.
