Record of Variance Action

This variance allows the Correctional Health Services to use either interferon gamma release assays (IGRA) or tuberculin skin test (TST) for tuberculosis screening, and to exempt from repeat screening those prisoners who have a documented negative test in the six months prior to their admission.

Type of Variance: Limited

Date on which variance will commence: January 8, 2019

Time period, if any: Six months, ending July 8, 2019

Minimum Standard for which Variance is Granted: 3-04(b)(2)(v)(A)

Date on which Board of Correction first approved variance (for renewals only):
July 22, 2013

Requirements imposed as conditions on variance: None.
