Above is a one-time report, providing historical data from January 2016 through May 2018, per the reporting criteria of Section (x) of the 60-Day PS Report: “The number of inmates currently in Department custody who have, during their current incarceration, been housed in punitive segregation a total of: one (1) to thirty (30) days, thirty-one (31) to sixty (60) days, sixty-one (61) to ninety (90) days, ninety-one (91) to one-hundred-twenty (120) days, and more than one-hundred-twenty (120) days.” Due to an administrative error, the information reported in Section (x) of 60-Day PS Reports from January 2016 through May 2018 captured only a subset of inmates, those housed in punitive segregation or RHU on the last day of the reporting period. Previous reports did not report the criteria based on the total number of individuals in Department custody. Corrective action has been taken. Moving forward, the data in 60-Day PS Reports will reflect the required reporting criteria, as written in Section (x).
