

Young Adult Housing Monthly Progress Report

January 2017

1. Housing integration and population movement

As of January 4, 2017:

- There are 946 male young adult inmates – detainee and sentenced, comprising 10.3% of the agency's overall population.
- There are 837 male young adult detainees in DOC custody (88% of the male young adult population).
- **Overall, 50% of these young adults are housed in GMDC (55% of young adult detainees and 13% of city sentenced young adults).**
 - 463 young adult detainees are in GMDC and 14 city sentenced young adults in Protective Custody or Mental Observation housing have also been moved to GMDC.
 - Of these inmates, 204 are high classification, 95 are medium-high, 90 are medium-low, and 88 are low.
 - 374 young adult detainees (45%) remain assigned to other facilities.
 - Of these inmates, 204 are high classification, 45 are medium-high, 83 are medium-low, and 42 are low.
- 109 young adults are city-sentenced (12% of the total young adult population).
 - Of these inmates, 45 are high classification, 12 are medium-high, 28 are medium-low, and 24 are low.
- 3 young adults are in CAPS, 4 are in PACE, and 10 are in detox, for a total of 17 (1.8% of the total male young adult population).
- There are 40 active units in GMDC
 - 36 housing units are dedicated to young adult housing.
 - There are no units remaining that have a mix of young adults and adults.
 - 4 additional units house adult inmates only.

2. Staffing

a. Number and percent of all young adult housing area posts that are staffed with steady officers across all three tours & number and percent of all YA housing area posts that are not staffed with steady officers across all three, two, or one tours

- All young adult and mixed housing areas are staffed with steady staff for all three tours.

b. Number of escort posts by housing area and tour

- Currently, 4 of the 22 open housing areas each have an escort post that is staffed by one escort officer for both the 05:00-13:00 and 13:00-21:00 tours.
 - There are currently 18 housing areas without escort posts.
 - The number of housing areas with escort posts decreased in November 2016 as 3 Building was closed and the MO inmates previously residing there were moved to Building 4, which already had escort posts. Additionally, 7 Building, which houses lower classification inmates now has unescorted movement. DOC is moving to enable more unescorted

January 2017

movement in order to free up officers for placement in housing areas and other areas of need.

3. Staff Training

a. *List of special training courses offered to or will be offered to staff who have contact with YAs*

- Safe Crisis Management training will be required for all staff who have contact with young adults.
- Cognitive behavioral intervention training will be provided to staff working in Second Chance, TRU, and Secure units, prioritizing TRU and Secure housing unit officers.

b. *Number and percent of all staff who have contact with YAs who have completed the course (sorted by course)*

- Safe Crisis Management – 78% of active members of staff (or 829 staff members) at GMDC have received the Safe Crisis Management training since it first began
 - 54% of staff (or 594 staff members) at GMDC are current in their Safe Crisis Management training.
 - The number of staff members who are current in this training has decreased since last month due to the expiration of credentials for an increasing number of staff members. Because the initial push to begin Safe Crisis Management consistently began approximately a year ago, those credentials from the first classes have begun to expire over the past few months.
 - As training staffing needs permit, DOC will begin offering the annual refresher course to reinstate staff members' credentials.
- Cognitive behavioral interventions – 42% (75) of the 180 MOS that require cognitive behavioral intervention training for posts in specialized housing (Second Chance and TRU) have received training thus far. An additional 71 officers at GRVC have received this training as well, with 8 officers in that facility remaining to be trained.

c. *Number and percent of all staff who have contact with YAs who are currently receiving training (sorted by course)*

- An additional 20 GMDC staff members were scheduled to receive Safe Crisis Management training this month.

d. *Number and percent of all staff who have contact with YAs who are expected to be enrolled in the course (sorted by course)*

- The remaining approximately 22% of staff (246 officers, captains, ADWs, deputy wardens, and warden) who have not yet received the training and who have contact with young adults will be enrolled in the mandated Safe Crisis

Young Adult Housing Monthly Progress Report January 2017

Management training, and the 22% of staff whose credentials have expired will be enrolled in the refresher course.

- The remaining 105 officers that are projected to be posted in the Second Chance and TRU units in GMDC will be provided with cognitive behavioral intervention training as it becomes available. The Department's Deputy Commissioner of Youthful Offender and Young Adult Programming and Deputy Commissioner of Health Affairs will soon be conducting a train the trainer program to complete staff training in this intervention.

4. Programming

a. For each current or planned program:

- i. Name of program*
- ii. Vendor*
- iii. Date to be implemented, date implemented*
- iv. # Enrolled*
- v. Hour per week per inmate*
- vi. Eligibility (GP/RU, etc.)*

NB: While the programming below is offered to young adults, they are not required to enroll or attend. Therefore, there is a difference between the number of young adults to whom programming is offered and those who are actually enrolled.

Name	Vendor	Start date	# Enrolled as of 10/31	Hours offered/ week/ Inmate	Eligibility
Success	N/A; Partners: DOE, Columbia U. Justice Outreach, Friends of Island Academy, and Rescue Dogs, Rescue Soldiers	7/14/15	46	40	YAs in pursuit of HS diploma or HSE
Program Counselors	N/A	9/1/15	148	25	No specific eligibility requirements
Individualized Correction Achievement Network (5 hour)	Osborne Association and Fortune Society	11/10/15 (date YA I-CAN house opened)	14	35	YAs at high or medium-high risk of recidivism and interested in I-CAN services
Individualized Correction Achievement Network (3 hour)	Osborne Association and Fortune Society	4/12/16	197	15	YAs at high or medium-high risk of recidivism and interested in I-CAN services

Young Adult Housing Monthly Progress Report January 2017

Higher Learning Program	N/A; Partners: Petey Greene, Prison Education Initiative, and Friends of Island Academy	TBD	N/A	Proposed: 30	YAs already in receipt of HSE or HS diploma
Rikers Rovers	Rescue Dogs, Rescue Soldiers	5/9/16	11	15	YAs with high classification with an interest in canine training
Horticultural Training Program	Horticultural Society of New York	6/18/16	15	40	YAs with Low to Medium Low classification with an interest in horticulture
CUNY Next Steps	CUNY Next Steps	12/15/16	45	10	YAs with interest in work readiness and discharge planning

a. *Number of housing units with programs: 38*

Currently, Success operates in three housing units with program counselors, I-CAN is operational in 14 units, CUNY Next Steps is in two units, and Rikers Rovers is operational in one housing unit. The program counselors, community partner-led programming, and DOC workforce development programs are provided to an additional 21 housing units, including new admissions, administrative segregation, protective custody, Second Chance, and the Transitional Restorative Unit.

b. *Number of young adults enrolled in programs: 449*

While there are currently 449 young adults offered programs at GMDC by placement in a total of 38 housing areas with assigned programming (Success, Program Counselors, I-CAN 5 hour, I-CAN 3 hour, H+H, DOC workforce development, and Rikers Rovers), DOC offers programming to all of its young adult inmates. In addition to housing area-specific programming, young adults also take part in other consistent programming including college coursework, parenting classes, vocational training, music education, and animal-assisted therapy, offered by partners and volunteers such as Manhattan College, Friends of Island Academy, Columbia University, and Rescue Dogs, Rescue Soldiers. The facility has also begun to offer its own ad-hoc programming as far as providing enhanced recreation, Xbox-related programming, and talent shows in order to reduce idle time.

Also, on December 19, 2016, DOC opened the Youth Engagement Services (Y.E.S.) center at GMDC, which now houses a new indoor exercise equipment corner with ellipticals, treadmills, and exercise bikes, a movie screening area, an Xbox area, and a soon-to-be-launched music recording studio.

Young Adult Housing Monthly Progress Report January 2017

On June 13, 2016, DOC launched an inside mentoring program where adult inmates are selected and trained to serve as program assistants to all young adult housing areas as part of a new work detail. Mentors are trained in positive youth development principles, basics in anger management and cognitive behavioral interventions, as well as work readiness in order to train the youth that are served in programming.

5. Maintenance and housing area prep

The analysis for "a" through "d" below includes the 18 cell blocks that will remain in the long-term steady state of GMDC.

a. Cameras - # placed and location/# needed and location

- 100% of active housing areas in GMDC have had cameras installed. (The housing areas that do not yet have cameras installed are not currently housing any inmates.)
- Approximately 88% of the ancillary areas have had cameras installed.

b. Locks functioning/not functioning and location

- Locks are functioning in all of the 18 cell blocks; however, some of the cells must be locked manually due to notification lights in the control rooms being non-functional. Repairs of the cell-door panels are pending in 1 housing area and in progress in 2. This issue is resolved in the other 15 cell blocks.

c. Cells doors functioning/not functioning and location

- Similarly to above, while the cell doors are functioning in all 18 cell blocks, repairs are needed in order to allow for the electronic closing of the cell doors. Repairs are pending in 1 of these housing areas and in progress in 2. This issue is resolved in the other 15 cell blocks.

d. Other facility improvements made by location

- Since the last progress report, 5T has been completed and 8U is in the process of being renovated. Additionally, the YES Center opened in December 2016.

6. Policy and piloting related to discipline system and progressive and secure housing

a. Status of and copies/drafts, as ready, of needed policies for special and restrictive units (with included discussion of anticipated location, due process, escorts, school, discipline, recreation, health, mental health, program)

At this time, the Department has no additional policies to provide.
