II. Data Dictionary

Injury Table	Definition
Table 1	Number of injury reports documented by CHS within the month, excluding injuries that are still pending as of the last day of the reporting period. All injury reports represent an in-person clinical encounter.
Table 2	<p>Number of injury reports by determination.</p> <p>Confirmed injury is defined as an injury by history only, injury with physical evidence, or injury that resulted in urgent care or hospital transfer.</p> <p>Serious injury is defined as any one of the following: laceration requiring sutures; staples or glue, fracture, clinical nasal fracture, initial dislocation reduced in clinic or hospital, tendon tear, amputation, structural injury to organ, post-concussive syndrome or head injury requiring imaging, blistering burn involving face or >9% of total body surface.</p>
Table 3	Number of confirmed injury reports where patient was sent to urgent care.
Table 4	Number of confirmed injury reports where patient was sent to hospital.
Table 5	Age of patient at time of confirmed injury report.
Table 6	Number of confirmed injury reports where the patient accepted or refused care.
Table 8	Number of confirmed serious injury reports by type. An injury report may contain more than one serious injury type; therefore the total number of injury types may not equal the number of serious injury reports.
Table 9	Number of confirmed non-serious injury reports with a documented blow to the head.
Table 10	Number of confirmed injury reports by bodily location.
Table 13	Number of confirmed injury reports by cause of injury as reported by patient to CHS.

Self-Harm Table	Definition
Table 1	Number of incidents of self-harm by type.
Table 2	Number of incidents of self-harm by type and age at time of incident.
Table 3	Number of incidents of self-harm by type and facility.
Table 4	Number of incidents of self-harm by type and housing type.

III. Summary Data

CHS Injury Report
Reporting Period 11/1/2020-11/30/2020

Table 1	Total Injury Reports Documented by CHS	2323
----------------	---	-------------

Table 2	Injury Reports by Injury Determination	Number	Percent
	Confirmed Serious Injury Reports	83	4%
	Confirmed Non-Serious Injury Reports	778	33%

DOC & CHS Joint Report on Injuries Occurring in Custody
Reporting Period: November 2020
Date of Report: December 29, 2020

DOC Report: Serious Injuries from November 2020
Phase 2

CHS is reporting on 83 injuries which were determined to be serious during the month of November 2020. Of those injuries, DOC is reporting on 72 injuries which took place during the month of November 2020. 11 remaining injuries took place outside of November 2020.
