<sup>2</sup> Time in Program calculations are not available for this reporting period. The Department is currently consolidating ESH Young Adult records, and requires additional data entry and record maintenance to provide an accurate calculation against inmates active in ESH as of the time of reporting. The Department will provide this calculation beginning with the September 2017 report.

<sup>3</sup> Lengths of stay are calculated by averaging individual Young Adults' accumulated time in each level, regardless of the chronological progression of the Young Adult through various levels. Days are only added to each Young Adult's cumulative level total if the stay in a given level has concluded. For example, if at the time of reporting a Young Adult is currently on his 10th day in Level 1 after spending 30 days in ESH Entry, only the 30-day stay in the Entry Unit is included in the Young Adult's record, as the stay in Level 1 is active as of the reporting period close. Records are only included for Young Adults placed in ESH after March 1, 2017, upon the formalization of the Entry Unit.

<sup>4</sup> One young adult who met the criteria for a 30-day review was temporarily transferred out of ESH prior to the review.

<sup>5</sup> Two young adults who met the criteria for a 45-day review were discharged from DOC custody prior to their respective reviews.

- ii. For each review that recommended advancement, regression, or release, the individual’s level at the time of review, the new level or housing type recommended and the resulting placement.

<b>30-Day Reviews Recommending Advancement, Regression, or Release<sup>6</sup></b>		
<b>ESH Level at Time of Review</b>	<b>New ESH Level or Housing Type Recommended</b>	<b>Resulting Placement</b>
Entry Unit	Level 1	Level 1
Entry Unit	Level 1	Level 1
Entry Unit	Level 2	N/A

Interpersonal Skills	2	6.5

<sup>6</sup> Two young adults who received a 30-day review during the last reporting period were transferred as a result of the review to a Level 1 unit during this reporting period.

<sup>7</sup> Pursuant to the reporting conditions, this report reflects programming data for the ESH Entry Unit. Programming data related to the blended ESH units will be provided beginning in the September 2017 report (August data).

<sup>8</sup> Due to staff attrition during the reporting period, the number of programming sessions offered is lower than normal. Additional programming components will be reflected in the next reporting period.

**h. The number of Young Adults in Secure Units who were placed in De-escalation areas, including the minimum, maximum, median, and average length of time in such areas.<sup>9</sup>**
