<sup>2</sup> For ESH, Overall Length of Stay by release reason is not available for this reporting period because the historical data needed for this data point is still being collected.

<sup>3</sup> Time in program min, max, median, and average by phase/level is unable to be produced at this time. The Department will need approximately three months before it can begin to provide this data.

<sup>4</sup> Lengths of stay are calculated by averaging individual Young Adults' accumulated time in each level, regardless of the chronological progression of the Young Adult through various levels. Records are only included for Young Adults who have been released from ESH or Secure.

<sup>5</sup> This category refers to ESH before the level system was implemented.

<sup>6</sup> The N value represents all Secure Unit young adult records that were used in any of the LOS calculations. The Department will attempt to break out N's for levels in subsequent reports.
